**HORACIO SALGÁN - TANGO COURSE** Horacio Salgán,2020-06-10 Writing this Tango Course is both an obligation and a great pleasure for me It is an obligation because I would like to contribute something of all the things that I owe in return as an appreciation of having been fortunate enough to educate myself in the Orchestras where I learned to play Tango The Orchestras were a crucible where the ideas of its members and or other creative musicians experimented played and came together to create playing styles rhythmic forms etc These contributions were what took the Tango little by little to such a high musical level Nowadays it is not at all easy to belong to an Orchestra considering the fact that so few can subsist This makes it more difficult for those who want to have careers in Tango music to acquire the vast knowledge necessary for playing and interpreting it Let us not forget that the Orchestras have always been the best schools for such an apprenticeship It is also a great pleasure to be able to transmit and

share that what I have learned trying always not to leave anything out that is my real intention by relying on my memory which fortunately still helps me I never intended for my conclusions to be taken as the absolute truth nor wanted to win something over anyone in anything This course just shows my position and the ideas with which I have always worked We will deal here with the Tango in versions which in my understanding are genuine manifestations of itself I love the Tango because I love good music and I got into it to learn to play it not to change it If my versions and arrangements have something different about them it is only because this is my language and I have expressed myself through it I will also talk about the incorporation of new contributions and changes as long as they are authentic within the genre The many streams of opinion may or may not coincide with what will be said in this course Considering the broadness of the theme and the flexibility which should govern artistic creation other concepts may prove constructive as well I sincerely hope that this course will be useful to someone

Horacio Salg n      **The French Film Musical** Phil Powrie, Marie Cadalanu, 2020-09-17 Like many national cinemas the French cinema has a rich tradition of film musicals beginning with the advent of sound to the present This is the first book to chart the development of the French film musical The French film musical is remarkable for its breadth and variety since the 1930s although it flirts with the Hollywood musical in the 1930s and again in the 1950s it has very distinctive forms rooted in the traditions of French chanson Defining it broadly as films attracting audiences principally because of musical performances often by well known singers Phil Powrie and Marie Cadalanu show how the genre absorbs two very different traditions with the advent of sound European operetta and French chanson inflected by American jazz 1930 1950 As the genre matures operetta develops into big budget spectacles with popular tenors and revue films also showcase major singers in this period 1940 1960 Both sub genres collapse with the advent of rock n roll leading to a period of experimentation during the New Wave 1960 1990 The contemporary period since 1995 renews the genre returning nostalgically both to the genre s origins in the 1930s and to the musicals of Jacques Demy but also hybridising with other genres such as the biopic and the documentary
