Medieval French on the Move Leah Tether, Patrick Moran, Anne Salamon, 2025-03-17 When Keith Busby published his field shaping *Codex and Context* in 2002 the work was referred to as groundbreaking and monumental. It prompted scholars of medieval literature to return to manuscripts in their droves. However Busby's *Codex and Context* would also enact another more gradual movement. His formulation of the term medieval Francophonia to describe the presence, power and effect of French outside France would filter steadily into academic enquiry. The term and concept are now widely recognised and applied in global scholarship including in multiple major projects dedicated to the topic. This volume brings together a series of cutting edge studies of medieval Francophonia covering in one place and for the first time the fullest scope of the concept's remit with contributions on history, historiography, language, literature, culture, society and authority. At the same time as offering a timely contribution to the field, this volume pays tribute to Busby's life work not only to pioneer medieval Francophonia but also and moreover to encourage the study of the medieval through material philology. Each of the studies here written by Busby's friends and colleagues thus roots its approach in a material context.

The book contains 134 short, easy to read columns great for just dipping in to.

Historical Dictionary of French Literature John Flower, 2022-05-15 With the possible exception of Great Britain, France can justifiably lay claim to possess the richest literary history of any country in Western Europe. This book covers the authors and their works, literary movements and philosophical and social developments that have had a direct impact on style or content and major historical events such as the two world wars, the Franco-Prussian War, the Algerian War or the events of May 1968 that are directly reflected in a substantial body of imaginative writing. *Historical Dictionary of French Literature* Second Edition contains a chronology, an introduction and an extensive bibliography. The dictionary section has more than 500 cross-referenced entries on individual writers and key texts, significant movements, groups, associations and periodicals and on the literary reactions to major national and international events such as revolutions and wars. This book is an excellent resource for students, researchers and anyone wanting to know more about French literature.
