Freud A Collection Of Critical Essays Twentieth Century Views:

Freud, a Collection of Critical Essays Perry Meisel, 1981 *Literary Theories in Praxis* Shirley F. Staton, 1987

Literary Theories in Praxis analyzes the ways in which critical theories are transformed into literary criticism and methodology To demonstrate the application of this analysis critical writings of Roland Barthes Harold Bloom Cleanth Brooks Jacques Derrida Northrop Frye Norman Holland Barbara Johnson Jacques Lacan Adrienne Rich and Robert Scholes are examined in terms of the primary critical stance each author employs New Critical phenomenological archetypal structuralist semiotic sociological psychoanalytic reader response deconstructionist or humanist The book is divided into nine sections each with a prefatory essay explaining the critical stance taken in the selections that follow and describing how theory becomes literary criticism In a headnote to each selection Staton analyzes how the critic applies his or her critical methodology to the subject literary work Shirley F Staton s introduction sketches the overall philosophical positions and relationships among the various critical modes Thus Burst Hippocrene Laurence Wong, 2019-01-17 Thus Burst Hippocrene *Studies in the Olympian Imagination* is a collection of nine papers in comparative literature Discussing the greatest Olympians in world literature including Homer Aeschylus Sophocles Euripides Dante Shakespeare Milton Li Bo Du Fu and the Bible authors it is both daring in conception and wide ranging in scope Freely drawing on the author s knowledge of Classical Greek Latin Italian French German Spanish English and Chinese as well as on his conversance with the literatures of these languages the papers are truly comparative making discoveries unique to the author s characteristic multi lingual multi cultural approach In going through the book the reader will be pleasantly surprised by its originality by its amazing depth and breadth and by the new light it sheds on topics that are of interest to scholars and students of comparative literature Written in lucid language with no pretentious jargon it will also appeal to the general reader who picks up a book simply for the joy of reading or for horizon broadening without tears *The Existentialist Critique of Freud* Gerald N. Izenberg, 2015-03-08 Although largely sympathetic to Freud s clinical achievement the existentialists criticized Freudian metapsychology as inappropriate to a truly humanistic psychology Gerald Izenberg evaluates the critique of Freud in the work of two existential philosophers Martin Heidegger and Jean Paul Sartre and two existential psychiatrists Ludwig Binswanger and Medard Boss His book interprets the relationship of psychoanalysis and existentialism and traces the history of a crisis in the European rationalist tradition The author unveils the positivist foundations of Freud s theory of meaning and discusses the reactions it provoked in the work of Binswanger Boss and Sartre Probing beneath the methodological dispute he shows that the argument involved a challenge to the conception of the self that had dominated European thought since the Enlightenment Existentialism reflecting the turmoil of the inter war and post war years furnished a theory of motivation better able to account for Freud s clinical data than his own rationalist metapsychology This theory made problematic the existentialist idea of authenticity and freedom however and so the attempt to provide a substitute ethic and concept of

mental health ended in failure although in the process the basic questions were posed that must be answered in any modern social theory Originally published in 1976 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Unconscious Structure in The Idiot Elizabeth Dalton, 2015-03-08 Arguing that psychoanalytic method enlarges and enriches the significance of literature by discovering a fundamental unconscious structure governing meaning and form in the literary text Elizabeth Dalton presents both a new and lucid reformulation of the theory of psychoanalytic criticism and a penetrating study of Dostoevsky's great novel *The Idiot* In answering the objections to psychoanalytic criticism she contends that the method if properly understood can be used without falling into reductionism and without recourse to the author's biography She then deals with such crucial issues as the connections between dreams and literary creation the role of repression in art the relationship between creativity and psychopathology and the unconscious aspects of language Demonstrating this approach in a radical and comprehensive interpretation of Dostoevsky's novel the author shows how the enigmatic character of Prince Myshkin his epilepsy his mystical insights his love of Nastasya and his mysterious involvement with her murderer are all related in a complex pattern of unconscious conflict and fantasy derived from the most primitive and powerful motifs of psychic life Professor Dalton's pursuit of unconscious connections into virtually every detail of the novel accounting for subplots minor characters and even for the puzzling flaws in the narrative fully establishes the importance of psychoanalysis for the study of literature Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Rethinking the Uncanny in Hoffmann and Tieck Marc Falkenberg, 2005 This stimulating new book challenges Freud's definition of the uncanny prevalent in the study of Gothic and Romantic fiction by reviving the importance of uncertainty in the uncanny Literary criticism views the uncanny as an expression of the return of the repressed Falkenberg's expanded definition includes but is not limited to the psychoanalytic and instead redefines the uncanny as a cognitive and aesthetic phenomenon Beyond offering a survey of what David Punter has called *The Theory of the Uncanny* this study places the uncanny in the context of the poetological and philosophical background of the Romantic period In close readings of two stories that have stood at the center of the debate about the uncanny E T A Hoffmann's *Sandman* and Ludwig Tieck's *Blond Eckbert* the author shows how these texts are constructed as

uncanny phenomena in themselves The study traces fairytale elements framing techniques and interdependencies between the fictional productions of the protagonists and their dark fates to expose how these texts confront the reader with paradoxical decoding instructions This expanded and revised uncanny not only yields new readings of two classic German short stories it also leads to a better understanding of the cultural soil that nourished the Romantic Movement

The Female Sublime from Milton to Swinburne Catherine Maxwell, 2001 This innovative study of vision gender and poetry traces Milton's mark on Shelley Tennyson Browning and Swinburne to show how the lyric male poet achieves vision at the cost of symbolic blindness and feminisation Drawing together a wide range of concerns including the use of myth the gender of the sublime the lyric fragment and the relation of pain to creativity this book is a major re-evaluation of the male poet and the making of the English poetic tradition The female sublime from Milton to Swinburne examines the feminisation of the post-Miltonic male poet not through cultural history but through a series of mythic or classical figures which include Philomela Orpheus and Sappho It recovers a disfiguring sublime imagined as an aggressive female force which feminises the male poet in an act that simultaneously deprives and energises him This book will be required reading for anyone with a serious interest in the English poetic tradition and Victorian poetry Hélène Cixous, Rootprints Mireille Calle-Gruber, Hélène Cixous, 2012-11-12 Helene Cixous is undoubtedly one of the most brilliant and innovative contemporary thinkers Published here in English for the first time Helene Cixous Rootprints is an ideal introduction to Cixous's theory and her fiction tracing her development as a writer and intellectual whose remarkable prespicacity and electrifying poetic force are known world wide Unprecedented in its form and content this collection breaks new ground in the theory and practice of auto biography Cixous's creative reflections on the past provide occasion for scintillating forays into the future The text includes an extended interview between Cixous and Calle Gruber exploring Cixous's creative and intellectual processes a revealing collection of photographs taken from Cixous's family album set against a poetic reflection by the author selections from Cixous's private notebooks a contribution by Jacques Derrida original thing pieces by Calle Gruber Time in the Poetry of T. C. De Prospe, 1985 This book proposes that a new semiotic category called theism can more intelligibly classify the discursive pattern that precedes modern humanism in American literature than such standard historicist categories as

Puritanism or Calvinism or medievalism and that the writings of Jonathan Edwards exemplify this theist discursive pattern
