Why the Humanities Matter Frederick Luis Aldama, 2022-02-24 This wide ranging study of the influence of postmodernism on contemporary culture offers a trenchant and uplifting defense of the humanities Is there life after postmodernism Many claim that it sounded the death knell for history art ideology science possibly all of Western philosophy and even the concept of reality itself Responding to essential questions regarding whether the humanities can remain politically and academically relevant amid this twenty first century uncertainty Why the Humanities Matter offers a guided tour of the modern condition calling upon thinkers in a variety of disciplines to affirm essential concepts such as truth goodness and beauty Through a lens of new humanism Frederick Aldama provides a liberating examination of the current cultural repercussions of assertions by such revolutionary theorists as Said Foucault Lacan and Derrida as well as Latin Americanists such as Sommer and Mignolo Emphasizing pedagogy and popular culture with equal verve Aldama presents an enlightening way to explore what culture actually does who generates it and how it shapes our identities and the role of academia in sustaining it *Freud and the Imaginative World* Harry Trosman, 1985 Freud's Literary Culture Graham Frankland, 2000-06-05 This original study investigates the role played by literature in Sigmund Freud's creation and development of psychoanalysis Graham Frankland analyses the whole range of Freud's own texts from a literary critical perspective providing a comprehensive reappraisal of his life's work Freud was steeped in classical European literature but seems initially to have repressed all literary influences on his scientific work Frankland traces their re emergence examining in detail Freud's many literary allusions and quotations as well as the rhetoric and imagery of his writing He explores Freud's own attempts at analysing literature the influence of literary criticism on his approach to analysing patients and his creation

of psychoanalytical novels quasi literary fictions fraught with profoundly personal subtexts Freud's Literary Culture sheds new light on a multi faceted contradictory writer who continues to have an unparalleled impact on our postmodern culture precisely because he was so deeply rooted in European literary tradition

**A Philosophical Exploration of the Humanities and Social Sciences** Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune's slings and arrows cause inevitably if not incessantly to each and every one of us In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person's career and mating prospects are severely diminished if not annihilated However humor is much more than this and so much else In particular humor can accompany cruelty inform it sustain it and exemplify it Therefore in this book we provide a comprehensive reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy humanities and social sciences especially psychology Also the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common sense concepts in line with the understanding of concepts developed by M Polanyi in the 20th century Thus a thorough nuanced grasp of their complex mutual relationship is established and many platitudes affecting today's received views and scholarship are cast aside Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society

**The Humanities in Architectural Design** Soumyen Bandyopadhyay, Jane Lomholt, Nicholas Temple, Renée Tobe, 2010-02-25 Offering an in depth consideration of the impact which humanities have had on the processes of architecture and design this book asks how we can restore the traditional dialogue between intellectual enquiry in the humanities and design creativity Written by leading academics in the fields of history theory and philosophy of design these essays draw profound meanings from cultural practices and beliefs These are as diverse as the designs they inspire and include religious mythic poetic political and philosophical references This timely and important book is not a benign reflection on humanities role in architectural design but a direct response to the increased marginalization of humanities in a technology driven world The prioritization of technology leaves critical questions unanswered about the relationships between information and knowledge transcription and translation and how emerging technologies can usefully contribute to a deeper understanding of our design culture

Art, Alienation, and the Humanities Charles Reitz, 2000-02-03 Winner of the 2002 American Educational Studies Association's Critics Choice Award By examining the aesthetic social and educational philosophy of Herbert Marcuse the author documents and demonstrates the structure and movement of Marcuse's thought on art alienation and the humanities Reitz's work stresses the centrality of Marcuse's argument that the arts and humanities may act as disalienating educational
