Freud Para Inconscientes:

Más allá del principio del placer: y otros escritos sobre la moral Sigmund Freud, 2024-05-09 *Jenseits des Lustprinzips* M s all del principio de placer publicado en 1920 marca un punto de inflexión radical en la teoría freudiana al introducir el controvertido concepto de la pulsión de muerte Todestrieb y revisar de manera fundamental la comprensión psicoanalítica de la motivación humana Escrito tras la Primera Guerra Mundial e influenciado por las observaciones de Freud sobre la neurosis de guerra así como por la muerte de su hija Sophie este trabajo desafía su teoría anterior seguida en la cual toda conducta humana podía explicarse mediante la búsqueda del placer y la evitación del dolor A través de las observaciones del juego infantil en particular el famoso juego del fortín y de la compulsión a repetir experiencias traumáticas Freud propone la existencia de impulsos que parecen operar más allá del principio de placer llevándolo a postular una pulsión biológica fundamental hacia la muerte y la disolución La obra genera una gran controversia dentro de los círculos psicoanalíticos y muchos de los seguidores más cercanos de Freud inicialmente se mostraron reacios a aceptar su nuevo rumbo tan rico El texto se distingue por su dimensión especulativa tanto biológica como filosófica recurriendo a la teoría evolutiva y a la biología contemporánea para sustentar sus ambiciosas afirmaciones teóricas A pesar de todo quizás debido a su carácter polémico M s all del principio de placer ha tenido una enorme influencia en campos que van mucho más allá del psicoanálisis especialmente en la filosofía de la teoría literaria y la crítica cultural Pensadores como Jacques Derrida y Georges Bataille han encontrado en la teoría de la pulsión de muerte una herramienta clave para comprender la cultura y el comportamiento humano La obra representa una de las innovaciones teóricas más audaces de Freud transformando profundamente la teoría psicoanalítica y generando continuamente nuevas interpretaciones y aplicaciones en el pensamiento contemporáneo

Freud (para inconscientes) Javier Covo Torres, 1987 [El Inconsciente Ontológico de Gilles Deleuze. Por una ontología política frente al psicoanálisis culturalista](#) Belén Castellanos Rodríguez, 2015 Este libro supone el lanzamiento de una investigación de la obra deleuziana abordada desde el interés filosófico por el psicoanálisis Encontramos pues un Deleuze receptor interlocutor y crítico del pensamiento freudiano un filo sofón del Inconsciente y del deseo Sin embargo este estudio tiene un carácter principalmente ontológico no siendo para la política sino un preámbulo que permitiera deshacernos del prejuicio presentista y así poder pensar las condiciones de posibilidad de una verdadera revolución Nuestra empresa central consiste en reproponer el Inconsciente como primer principio ontológico puro es decir libre de culturalismos y de significaciones simbólicas y previo respecto de cualquiera de los sentidos precedentes con los que los distintos discursos ideológicos cargan el Ser el Pensar o la Razón La perversión del platonismo en el seno del psicoanálisis exige liberar al arca de toda determinación o cualificación que impidiera la coexistencia de los opuestos y la aparición de lo nuevo y de lo diverso sin que el universo perdiera su consistencia y su unidad recuperando así el hilo de la filosofía presocrática El Inconsciente de Deleuze supone una reapropiación del logos de Heraclito como pensamiento sin sujeto que expresa más que el orden el desorden de la Naturaleza o su

inagotable virtualidad El Inconsciente como el peiron no se manifiesta de forma pura sino que lo rozamos en cada operaci n deconstructiva que nos devuelve al punto cero a partir del cual podemos inventar nuevos modos de reunir a los opuestos El Inconsciente nos atraviesa como eterno discurso de la Naturaleza no constre ida por moral alguna El orden social o el sentido de la vida humana necesita ser reinventado a cada paso y ello solo se hace posible desde un horizonte de experimentaci n que Deleuze denomina Inconsciente y que posibilita la vida en lugar de hipotecarla con estructuras y fines preestablecidos Criticar el car cter culturalista del inconsciente psicoanal tico es eliminar las derivaciones moralistas de la Idea de Bien plat nica afirmando que no hay ni Edipo ni Falo ni orden moral alguno que no sea producido y esperamos rebasable El Inconsciente deleuzeano posibilita el acontecimiento y la construcci n de rdenes pol ticos no anticipados y permite escapar al pesimismo instalado por la imagen inmovilista de la sociedad que fija el malestar como principal afecto del individuo inmerso en su comunidad La apuesta filos fica es fiel a la diferencia ontol gica encargada en este caso de desnaturalizar la moral y de desencializar el proyecto pol tico Para ello se centra en concebir el deseo como productivo de perspectivas No es un deseo conservador ni rebelde no est estructurado por la prohibici n ni por el permiso Este deseo sabe olvidar y empezar es pol ticamente constituyente por ser est ticamente creativo Bel n Castellanos Rodr guez Avil s 1978 Profesora y Doctora en Filosof a Premio extraordinario de Doctorado Trabaja como docente en ense anza secundaria y es profesora tutora de tica de la UNED Investiga en varios proyectos de esta misma universidad y de la UCM Numerosas publicaciones acad micas en libros revistas internacionales de Filosof a y de Ciencias Sociales Inter s especial en corrientes filos ficas contempor neas Heidegger post estructuralismo Bataille etc que recuperan el pensamiento ontol gico de los inicios de la Filosof a Tambi n ha publicado obra literaria Sus relatos conservan una impronta filos fica emparentada siempre con estas influencias As se muestra en su libro con Rom n Reyes titulado Historias intempestivas y secuencias recurrentes Ed Plaza y Vald s 2012 y en el ltimo en solitario Cuerpos comulgados Endymi n 2014 Tambi n es columnista en varias revistas digitales Reconciliarse con la propia sombra Jean Monbourquette, 1999-07-02 La sombra es todo lo que hemos arrojado al inconsciente por temor a ser rechazados por las personas que desempe aron un papel determinante en nuestra educaci n dice el autor Qui n no ha rechazado nunca actitudes espont neas con el fin de asegurarse la aprobaci n de su pr jimo Todos poseemos ese lado oculto de nuestra personalidad llamado sombra Si no tomamos conciencia de ella nos arriesgamos a ver c mo aflora a nuestras espaldas ser vuelve contra nosotros mismos y nos crea toda clase de dificultades de orden psicol gico y social La sombra ignorada puede causar estados depresivos y antipat as obsesivas Por el contrario si este lado rechazado y mal amado de nosotros mismos es reconocido e integrado favorecer el equilibrio psicol gico y espiritual de nuestra personalidad El conocimiento y la reconciliaci n con nuestra sombra constituyen pues las condiciones necesarias para la realizaci n y la autoestima y por consiguiente para el mantenimiento de relaciones humanas sanas Reconciliarse con la propia sombra nos propone descubrir e integrar este oscuro tesoro interior para que llegue a ser una fuerza creadora en nosotros y una aliada
