modern world Sigmund Freud's The Interpretation of Dreams Laura Marcus, 2024-06-04 Freud's *The Interpretation of Dreams* published in 1900 has been one of the most influential texts of the modern era fundamentally changing the ways in which people have thought about their waking lives as well as their dreams. This book more than any other in Freud's massive oeuvre has shaped a vast amount of work in linguistics and semiotics, literary studies, film theory, psychology, philosophical hermeneutics, and the history of ideas. This influence is reflected in the editor's introduction which includes a substantial discussion of the theory and practice of representation and the six essays specially commissioned for this volume. The contributors are renowned for their knowledge of Freudian theory and for their interdisciplinary expertise in a wide range of fields. They examine for example the relationship of Freud's text to theories of interpretation, autobiography, and literary production. The book as a whole gives a clear sense both of the context of Freud's text and of its influence throughout the twentieth century. This volume is an ideal introduction to Freud's work for students and teachers of English and other literatures, philosophy, and social and cultural studies as well as the wider audience concerned with psychoanalysis and its cultural ramifications.

Christian hermeneutics in South Africa Hendrik Goede, Nico Vorster, 2024-02-26 Hermeneutics remains a divisive and polarizing topic within scholarly and ecclesiastical communities in South Africa. These tensions are not limited to theoretical differences but often crystallize on a grassroots level when local churches and church assemblies have to make important decisions on controversial ethical topics such as ordaining women in church offices, assessing the ethics of gay marriages, and taking a stance on the land debate in South Africa. This book makes a unique contribution in two ways: firstly, it focuses on the uniquely South African hermeneutical landscape; secondly, it relates theories to practical ethical application. The unique scholarly contribution of this consists in it relating hermeneutics to ethics within the South African landscape. A diverse group of scholars have been invited to partake in the project and the views expressed are often quite diverse. This allows readers to develop an understanding and sensitivity of the various angles employed and the interests at stake in addressing difficult societal problems.
