Freud's Theory Of Culture Eros Loss And Politics:

Freud's Theory of Culture Abraham Drassinower,2003 Abraham Drassinower takes a fresh look at Freud countering his prevalent image as a man pessimistically renouncing the possibility of social political and cultural change **How Culture Runs the Brain** Jay Evans Harris,2017-07-31 Freud was right mind and brain evolved together adapting progressively to cultural change responding regressively to wars genocides and forced migrations Freud traced innate conflicts between pleasure and aggression in each stage of individual development to corresponding development in cultural stages Cultural trauma that induces PTSD with a loss of secure identity in one generation induces collective phantasies mythologies among succeeding generations and this may form cultural syndromes of revenge and restitution Families tribes clans and religious communities can regress together to infant and childhood stages They may breed heroes sociopaths revolutionaries or potential terrorists vulnerable to the siren call of internet shamans How Culture Runs and sometimes ruins the Brain presents neuroscience findings revealing fantasy as the brain's default mode as it alters identity during unbearable trauma or loss The book presents case histories of cultural conflicts among individuals tribes and nations using the examples of the Boston Marathon Bombers Bowe Bergdahl's iconic trial the Orlando Shooter and regressive American players in the election of 2016 Conflicting forms of cultural narcissism determine economic survival the immature narcissism of Trump and his followers challenges the mature narcissism that hid Hillary Clinton's hubris Immature narcissistic oligarchs can act out their economic dominance to deal with the fear of extinction of their own identity Some terrorists groups use mature global technology in the service of immature fundamentalist identity **Freud, the Contemporary Super-ego, and Western Morality** Giosuè Ghisalberti,2023-10-09 Freud the Contemporary Super ego and Western Morality traces the origins of the relationship between the morality of the super ego and the destructive impulse of the death drive in the liberal democracies of the 21st century Giosuè Ghisalberti begins by refuting the analysis by contemporary social theorists of the phenomenon described as the return of the religious presenting instead a comprehensive set of ideas as outlined by Freud in the writings of the 1920s and the analysis of a contemporary theological political unconscious Ghisalberti argues that the psyche of the liberal West has regressed to an infantile and primitive present driven by an unconscious hostility towards the Oedipus complex and more comprehensively to Western civilization as a whole The book re-examines Freud's psychoanalytic ideas on the nature of obsessions interpreted first from the murder of the primal father in Totem and Taboo and turns to his grounding ideals of intelligence creativity and freedom as the affirmation of the coming to be human in modernity Freud the Contemporary Super ego and Western Morality will be of great interest to psychoanalysts in practice and in training It will also be key reading for academics and scholars of psychoanalytic studies philosophy political theory and the humanities *Tyranny of Soft Touches: Interculturalism, Multiculturalism, and 21st Century International Relations* A. Imtiaz Hussain,2004 **As Time Goes By** Joy Charnley,Caroline Verdier,2014-07-24 Academic work in a range of disciplines has

been making an important contribution to the fraught and confusing debate around ageing and through writers consciousness and experience literature just like economics psychology history and sociology can provide valuable insights into the attitudes and prejudices prevalent in society The present volume adds to this burgeoning field by providing a wide spectrum of literary analyses drawing on a range of approaches Freud Lacan Kristeva and feminist theory amongst others and covering a broad geographical area France Germany Italy Portugal Spain and Switzerland in addition to Francophone Canada and Morocco Major writers such as Balzac Cervantes Goethe Mann and Zola are discussed here as well as a number of important twentieth century writers Ben Jelloun Cixous Doubrovsky Ernaux Roy and Ungaretti and less well known figures Carvalho Chatelet and Fleutiaux Within the broad themes which structure the volume many others also emerge overlapping and often recurring in several sections These constant echoes between essays remind us that whatever the geographical location or the period in history similar issues remain pertinent across time and space whether it be family relations generational solidarity sadness and loneliness memory and dementia class differences gender differences or sexuality Together these essays contribute to the existing body of critical work by providing a series of portraits of what age is has been and might be in the future Collectively they demonstrate once more the power of literature to reflect or even prefigure social trends encouraging us to consider carefully what we think how we live and how we might shape our future societies

A Cultural Citizen of the World S. S. Praver, 2017-10-23 This book is based on the German editions of Sigmund Freud's works and letters It presents various examples from English and American literatures that suggest several questions Freud asked of literary works in general *Theological and Ethical Perspectives on Climate Engineering* Forrest Clingerman, Kevin J. O'Brien, 2016-09-09 The climate is changing as an unintended consequence of human industrialization and consumerism Recently some scientists and engineers have suggested climate engineering technological solutions that would intentionally change the climate to make it more hospitable This approach focuses on large scale technologies to alleviate the worst effects of anthropogenic climate change This book considers the moral philosophical and religious questions raised by such proposals bringing Christian theology and ethics into the conversation about climate engineering for the first time The contributors have different views on whether climate engineering is morally acceptable and on what kinds of climate engineering are most promising and most dangerous but all agree that religion has a vital role to play in the analysis and decisions called for on this vital issue *Calming the Storm* presents diverse perspectives on some of the most vital questions raised by climate engineering Who has the right to make decisions about such global technological efforts What have we learned from the decisions that caused the climate to change that might shed light on efforts to reverse that change What frameworks and metaphors are helpful in thinking about climate engineering and which are counterproductive What religious beliefs practices and rituals can help people to imagine and evaluate the prospect of engineering the climate

The Social Construction of Death Leen Van Brussel, Nico Carpentier, 2014-07-31 Chapter 12 of this book is open access

under a CC BY license Well established scholars from a variety of disciplines including sociology anthropology media and cultural studies and political sciences use the social construction of death and dying to analyse a wide variety of meaning making practices in societal fields such as ethics politics media medicine and family *Repetition, the Compulsion to Repeat, and the Death Drive* M. Andrew Holowchak, Michael Lavin, 2017-11-30 Repetition the Compulsion to Repeat and the Death Drive is a critical examination of Freud's uses of repetition as they lead to the compulsion to repeat and his infamous death drive Like perhaps no other concept repetition drove Freud to an understanding of human behavior through development of models of the human mind and a method of treating neurotic behavior This book comprises three parts Part I Some Early Uses of Repetition in Psychoanalysis examines repetition both in clinical therapy and in Freud's use of phylogenetic explanation Part II composed of three chapters outlines Freud's journey to his vaunted death drive examines Beyond the Pleasure Principle and analyzes Freud's use of compulsion to repeat and the death drive post 1920 Last Part III is a critical analysis of Freud on repetition and the death drive discusses why Freud was so wedded to his controversial death drive and what can be salvaged from Freud's observations and speculations Here readers will find that Holowchak qua philosopher and Lavin qua clinician have different answers when it comes to the death drive **Psychoanalysis as a Subversive Phenomenon** Amber M. Trotter, 2019-12-03 In Psychoanalysis as a Subversive Phenomenon Social Change Virtue Ethics and Analytic Theory Amber M Trotter examines the radical sociopolitical roots of psychoanalysis and contends that psychoanalytic practices can and should be used to promote social change today Trotter illustrates how analytic theory and practice could function subversively in contemporary American culture This book is recommended for students and scholars of psychology sociology political science cultural studies and philosophy *Controversy and Challenge* Herman Westerink, 2009 In this study the engagement of scholars in theology and religious studies with Freudian psychoanalysis is examined The book focuses on the explicit or implicit theological ideas and aims that have determined its reception The analysis includes a review of Freud's theories as suggestions for reconfigurations of psychoanalysis are made in order to further theorize on concepts or fields of attention that are important in theology and religious studies The aim of this double critical review is to establish what the theoretical potential of Freud's psychoanalysis might be Requiem for the Ego Alfred I. Tauber, 2013-09-18 Requiem for the Ego recounts Freud's last great attempt to save the autonomy of the ego which drew philosophical criticism from the most prominent philosophers of the period Adorno Heidegger and Wittgenstein Despite their divergent orientations each contested the ego's capacity to represent mental states through word and symbol to an agent surveying its own cognizance By discarding the subject object divide as a model of the mind they dethroned Freud's depiction of the ego as a conceit of a misleading self consciousness and a faulty metaphysics Freud's inquisitors while employing divergent arguments found unacknowledged consensus in identifying the core philosophical challenges of defining agency and describing subjectivity In Requiem Tauber uniquely synthesizes these philosophical attacks against

psychoanalysis and more generally provides a kaleidoscopic portrait of the major developments in mid 20th century philosophy that prepared the conceptual grounding for postmodernism

On Freud's The Future of an Illusion Mary Kay O'Neil, Salman Akhtar, 2018-05-08 The Future of an Illusion reveals Freud's reflections about religion as well as his hope that in the future science will go beyond religion and reason will replace faith in God The discussion with an imaginary critic revealed his internal debate mirroring the debate about this subject in the outside world However it also enlightens his way of thinking deconstructing and constructing at the same time This volume considers Freudian ideas and their implications today while focusing on the contradictions and gaps in Freud's proposals The question of the coexistence between religion and psychoanalysis as well as the place of ideals belief illusion and imagination and no less important the benevolent and destructive aspects of religion also come into play

A Dark Trace Herman Westerink, 2009 Figures of the Unconscious No 8 Sigmund Freud in his search for the origins of the sense of guilt in individual life and culture regularly speaks of reading a dark trace thus referring to the Oedipus myth as a myth about the problem of human guilt In Freud's view this sense of guilt is a trace a path that leads deep into the individual's mental state into childhood memories and into the prehistory of culture and religion Herman Westerink follows this trace and analyzes Freud's thought on the sense of guilt as a central issue in his work from the earliest studies on the moral and guilty characters of the hysterics via later complex differentiations within the concept of the sense of guilt and finally to Freud's conception of civilization's discontents and Jewish sense of guilt The sense of guilt is a key issue in Freudian psychoanalysis not only in relation to other key concepts in psychoanalytic theory but also in relation to Freud's debates with other psychoanalysts including Carl Jung and Melanie Klein

Nabokov's Mimicry of Freud Teckyoung Kwon, 2017-05-30 In Nabokov's Mimicry of Freud Art as Science Teckyoung Kwon examines the manner in which Nabokov invited his readers to engage in his ongoing battle against psychoanalysis Kwon looks at Nabokov's use of literary devices that draw upon psychology and biology characters that either imitate Freud or Nabokov in behavior or thought and Jamesian concepts of time memory and consciousness in The Defense Despair Lolita Pale Fire and Ada As Kwon notes the transfiguration of biological mimicry and memory into an artistic form involves numerous components including resemblance with a difference contingency the double riddles games play theatricality transgression metamorphosis and combinational concoction Nabokov as a mimic functions as a poet who is also a scientist while his model Freud operates as a scientist who is also a poet Both writers were gifted humorists regarding art as a formidable vehicle for the repudiation of all forms of totality This book is recommended for scholars of psychology literary studies film studies and philosophy

Longing for Nothingness Andrew Stein, 2010-01-25 In Longing for Nothingness Resistance Denial and the Place of Death in the Nursing Home Andrew Stein offers a groundbreaking new psychoanalytic treatment of the depression and other mental conflicts suffered by residents living in nursing homes Freud famously argued that humans had a dual drive toward life and toward death and in this new study Stein shows that residents may suffer because they cannot control one part of

that dualism their longing for nothingness Weaving together elements of Freud's life and writings Lacanian and Kleinian notions and clinical material in a new and surprising manner Stein shows that a frightening breakdown of symbolic and imaginary defenses opens nursing home residents to these deeply repressed longings Because they often do not know how to respond the result is an increase in their suffering and tendency to despair Longing for Nothingness makes an impassioned plea for all people not only residents of nursing homes to fully acknowledge the role of death in the structures of their desires By doing this they will be spared the unnecessary suffering caused by the struggle to keep their longings for death repressed Stein presents an alternate strategy bringing the longings for death a little more into consciousness where they can be addressed without fueling debilitating symptoms like depression and rage

Political Realism, Freud, and Human Nature in International Relations Robert Schuett, 2010-05-15 In the tradition of political realism this book provides an important reappraisal of the concept of human nature in contemporary realist international political theory With special reference to the anthropology of Sigmund Freud a consequential yet terribly neglected and underestimated thinker in International Relations Schuett demonstrates that analytical and normative theorizing of all international political reality its nature tragedies and potentialities requires a sophisticated theory of human nature Developing a Freudian philosophical anthropology for political realism he argues for the careful resurrection of the concept of human nature in the wider study of international relations

Culture: A Drama of Nature and Person Piotr Jaroszyński, 2023-12-11 This monograph represents a rare classical philosophical approach to culture It is grounded in philosophical realism and emphasizes personalism as a true achievement of philosophical anthropology Employing the apparatus of the history of philosophy science and religion the author demonstrates the immense scope of the drama unfolding within human culture In a classical approach evaluation is inevitable with regard to various theories of culture human culture as such and all its main actors Jaroszyński's work shows that realistic study of what it means to be a human person leads to the most comprehensive understanding of culture as it is and should be

Pessimism Joshua Foa Dienstag, 2009-02-17 Pessimism claims an impressive following from Rousseau Schopenhauer and

Nietzsche to Freud Camus and Foucault Yet pessimist remains a term of abuse an accusation of a bad attitude or the diagnosis of an unhappy psychological state Pessimism is thought of as an exclusively negative stance that inevitably leads to resignation or despair Even when pessimism looks like utter truth we are told that it makes the worst of a bad situation Bad for the individual worse for the species who would actually counsel pessimism Joshua Foa Dienstag does In Pessimism he challenges the received wisdom about pessimism arguing that there is an unrecognized yet coherent and vibrant pessimistic philosophical tradition More than that he argues that pessimistic thought may provide a critically needed alternative to the increasingly untenable progressivist ideas that have dominated thinking about politics throughout the modern period Laying out powerful grounds for pessimism's claim that progress is not an enduring feature of human history Dienstag argues that political theory must begin from this predicament He persuasively shows that pessimism has been and can again be an energizing and even liberating philosophy an ethic of radical possibility and not just a criticism of faith The goal of both the pessimistic spirit and of this fascinating account of pessimism is not to depress us but to edify us about our condition and to fortify us for life in a disordered and disenchanted universe
