within the contemporary neoliberal and globalized landscape The Power and Politics of Art in Postrevolutionary Mexico Stephanie J. Smith, 2017-11-14 Stephanie J. Smith brings Mexican politics and art together chronicling the turbulent relations between radical artists and the postrevolutionary Mexican state. The revolution opened space for new political ideas but by the late 1920s many government officials argued that consolidating the nation required coercive measures toward dissenters. While artists and intellectuals some of them professed Communists sought free expression in matters both artistic and political, Smith reveals how they simultaneously learned the fine art of negotiation with the increasingly authoritarian government in order to secure clout and financial patronage. But the government, Smith shows, also had reason to accommodate artists and a surprising and volatile interdependence grew between the artists and the politicians. Involving well-known artists such as Frida Kahlo, Diego Rivera, and David Alfaro Siqueiros, as well as some less well-known including Tina Modotti, Leopoldo M. Ndez, and Aurora Reyes, politicians began to appropriate the artists' nationalistic visual images as weapons in a national propaganda war. High stakes negotiating and co-opting took place between the two camps as they sparred over the production of generally accepted notions and representations of the revolution's legacy and what it meant to be authentically Mexican.

Secular Saints Sarah M. Misemer, 2008 The sanctification of stardom. Contemporary icons are drawn from popular culture: musicians, artists, actors, and other personalities we hear on radio or see on television, on screen in print, and in cyberspace. Today's gods are media personalities and cults surround stars and artists like Frida Kahlo, Carlos Gardel, Eva Perón, and Selena. Because of transnational and global trends in importing and exporting cultural products, the paintings, music, and politics that these figures crafted accrue symbolic meaning in multiple formats. By viewing them through the lens of performance art, we can begin to see how their polyvalent personas were first molded and perfected for the public through paintings, tangos, politics, and Tejano music. Once they fashioned their own complex images, these multi-layered icons continued to travel after death over international boundaries, gendered divisions, political borders, and language barriers. Their reincarnation on stage has allowed dramatists to affix and generate new associations, thus converting them into secular saints for contemporary audiences. SARAH M. MISEMER lectures in Hispanic Studies at Texas A M University, College Station.

Kokoli,2009-10-02 *Feminism Reframed: Reflections on Art and Difference* addresses the on going dialogue between feminism art history and visual culture from contemporary scholarly perspectives Over the past thirty years the critical interventions of feminist art historians in the academy the press and the art world have not only politicised and transformed the themes methods and conceptual tools of art history but have also contributed to the emergence of new interdisciplinary areas of investigation including notably that of visual culture Although the impact of such fruitful transformations is indisputable their exact contribution to contemporary scholarship remains a matter for debate not

least because feminism itself has changed significantly since the Women's Liberation Movement. *Feminism Reframed* reviews and revises existing feminist art histories but also reasserts the need for continuous feminist interventions in the academy, the art world and beyond. With contributions by Anthea Behm, Alisia Grace Chase, Jennifer G. Germann, Catherine Grant, Joanne Heath, Ruth Hemus, Alexandra Kokoli, Beth Anne Lauritis, Griselda Pollock, Karen Roulstone, Anne Swartz and Sue Tate, *Coming at the moment* when contemporary art practices are themselves involved in re-cycling, re-evaluating and re-enacting the past, this collection asks how feminism's own troubled histories can be reframed productively in the present. The questions that feminism raised in the 1970s and 80s are still pertinent and are addressed in a number of original essays: What does gender equality mean in the arts? How can women's subjectivities be articulated or performed differently in art practices? Can attention to gender enable us to engage with complex differences of race, sexuality and class of age and generation? Do we need new interpretative and conceptual models for writing about art? Alexandra Kokoli's thoughtful and illuminating introduction reminds us that reframing is a risky but exciting business if it makes us ask these questions anew with attention to the politics and aesthetics of the present. Rosemary Betterton, Lancaster University.
