What began as an attack on the West by Osama bin Laden soon became a dramatic confrontation between Europe and America. Britain has found itself painfully split because it stands with one foot across the Atlantic and the other across the Channel. The English in particular are hopelessly divided between a Right that argues our place is with America not Europe and a Left that claims the opposite. This is today's English civil war. Both sides tell us we must choose. In this powerful new work Timothy Garton Ash, one of our leading political writers, explains why we cannot need not and must not choose between Europe and America. World Politics in a New Era Steven L. Spiegel, Elizabeth G. Matthews, Kristen P. Williams, 2013-09 A uniquely in depth treatment of the field. World Politics in a New Era Sixth Edition features extensive historical coverage that ranges from the Peace of Westphalia in 1648 to the present offering students the best context to fully comprehend the modern political stage. Somit, S. Peterson, 2015-12-29 Throughout history authoritarian governments have outnumbered democratic ones to an overwhelming degree. Even today true democracies are an exception. In this book Somit and Peterson argue that the main reason for this pattern is that humans are social primates with an innate

tendency for hierarchical and authoritarian social and political structures Democracy requires very special enabling conditions before it can be supported by a state conditions that require decades to evolve As a result attempts to export democracy through nation building to states without these enabling conditions are doomed to failure The authors argue that money and energy devoted to nation building around the globe by the U S would be better spent on problems facing the country domestically
