Press and Speech Freedoms in the World, from Antiquity until 1998 Louis E. Ingelhart, 1998-09-17 Although Americans tend to take the concept and protection of free expression for granted free press and free speech are at best only tentatively established in some nations of the world Covering prehistoric times to mid 1998 this book provides a year by year report of the efforts to free the press throughout the world Since the American concept of free speech came from England the early chapters place a heavy emphasis on events in England while later chapters include other nations throughout the world Ingelhart provides a thorough overview of free press and free speech principles and the continuing effort to extend those freedoms almost everywhere Abstracts of Completed Doctoral Dissertations for the Academic Year United States. Versailles and the Ruhr: Seedbed of World War II Royal J. Schmidt, 2012-12-06 Given the

atmosphere of the time given the passions aroused in all democracies by years of war it would have been impossible even for supermen to devise a peace of moderation and righteousness human error is a permanent and not a periodic factor in history Harold Nicolson writing in 1933 of the Treaty of Versailles 1 Although the period of history from 1918 to 1925 has been the subject of considerable analysis and interpretation by historians journalists and students of international politics there are certain aspects of this postwar era which are greatly in need of further study and evaluation The occupation of the Ruhr area of Germany by French and Belgian troops in 1923 is one of these While it is not the intention of the present writer to deal definitively or exhaustively with all possible sources either for the era in general or for the Ruhr episode itself he does seek to note and compare some influential French British German and American attitudes *Weimar Germany's Left-Wing Intellectuals* , *Weimar Germany's Left-Wing Intellectuals* Istvan Deak, 2024-03-29 The Germany between the two world wars which produced some of the greatest literary lights of the century also produced a forum worthy of them the brilliantly edited crusading left oriented but not party affiliated *Weltbühne* The present book tells the history of this weekly Berlin journal discusses the men that ran it and wrote it and outlines the causes for which it fought The *Weltbühne* had three editors the uncompromising style conscious Siegfried Jacobsohn the sharp tongued satirical Kurt Tucholsky and the enigmatic aristocratic Carl von Ossietzky martyred by the Nazis The radical intellectual elite of Germany and to some extent outside Germany contributed to the journal Heinrich Mann Alfred Polgar Erich Kästner Alfred Döblin Bertolt Brecht Leonhard Frank Theodor Plievier René Schickele Lion Feuchtwanger Ernst Toller Arnold Zweig also Arthur Koestler Romain Rolland Henry Barbusse and Leon Trotsky These men stood for the demilitarization of Germany the purge of the reactionary administration and judiciary the end of all restraints on human rights including the restraints on abortion and homosexuality complete equality of women pacifist educational policies the intellectualization of politics and politicization of the intellectuals unity of the working class parties and socialism When on May 11 1933 on Opera Square in Berlin the stormtroopers burned books of fifteen authors sinning against the German Volk thirteen of them had made contribution to the *Weltbühne* and since many of them were Jews the auto da f gave special pleasure to the mob Mr Deak recreates with unusual empathy the atmosphere of the era characterized by terrific social and political issues which eventually lead to the disaster of the Thirties The campaigns of the *Weltbühne* failed and the contributors were killed or went into exile with the journal itself moving from Berlin to Vienna to Prague to Paris before it died Mr Deak makes a lasting contribution to history by opening to a broader public the records preserved in the pages of this important but largely ignored journal by selecting and interpreting the issues and by bringing to life the personalities that gave the era its intellectual profile And understanding of the *Weltbühne* campaigns is indispensable for an appraisal of Central European politics in the first half of our century Mr Deak in this readable book written with the passionate interest of a person who seems to have been a participant rather than a chronicler makes this understanding possible by a lucid exposition and a searching analysis of the events This title is part of UC Press's Voices Revived program

which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 *Voices Revived* makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1968 Press, Radio and Film in West Germany, 1945-1953 Henry Payne Pilgert, 1953 **Literature of Journalism** Price, Price, Warron C Price, 1959

Fateful Transitions Daniel M. Kliman, 2015 As China emerges as a global force in the twenty first century questions of how existing great powers will navigate the geopolitical transition loom large In *Fateful Transitions* Daniel M Kliman revisits historic power shifts to shed light on enduring patterns in international relations demonstrating that the regime type of ascendant powers greatly influences global interactions Since the late nineteenth century the world's major democracies have tended to accommodate or conciliate ascendant democratic states Certain attributes of democracy such as a free press and domestic checks and balances encourage trust during power shifts whereas closed and autocratic regimes on the ascent tend to produce a cycle of suspicion competition and confrontation Drawing on democratic peace theory and power transition theory Kliman compares Great Britain's embrace of U S ascendancy in the early twentieth century to its confrontational stance toward autocratic Germany and later U S mistrust of the Soviet Union Within this geopolitical context he evaluates the interactions between China and current great powers the United States and Japan Building on this analysis Kliman offers new insights into the dynamics of power shifts and explores their implications for how today's established and emerging powers can successfully navigate fateful transitions **Transnational Nazism** Ricky W. Law, 2019-05-23 The first English

language study of German Japanese interwar relations to employ sources in both languages **Censorship** Derek Jones, 2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression

Law Books, 1876-1981 R.R. Bowker Company, 1981 **Sex and the Weimar Republic** Laurie Marhoefer, 2015-01-01 Sex and the Weimar Republic shows how in Weimar Germany the citizen's right to sexual freedom came with a duty to keep sexuality private non commercial and respectable Emil J. Gumbel Athalya Brenner, 2021-10-25 Emil J Gumbel 1891 1966 began his career simply as a professor of mathematical statistics in Heidelberg but he is most remembered as a political activist militantly advocating for pacifism during the complicated and volatile times of the Weimar Republic in Germany As a Jew with left wing socialist and democratic sensibilities he was exiled to France and later America Ironically the same writings on political terror and politicized justice in Nazi Germany that

caused his ostracization saved his life A courageous man Gumbel spoke out passionately against the Nazis and came to symbolize a one man party at the center of controversy in German academia His intellectual and moral vigor never waned and despite his significant scientific contributions it is his legacy of political ideology that endures for later generations to learn from This biography chronicles the public life of a man not entirely part of the political or the academic world but who has earned his place in history nonetheless
