Freedom Is A Word:

A New Reading of Jacques Ellul Jacob Marques Rollison, 2020-09-10 This book presents an original and dynamic reading of the twentieth century French sociologist and theological ethicist Jacques Ellul Adopting Ellul's use of presence as a hermeneutical key to understanding his work it examines the origins of Ellul's approach to presence in his readings of Kierkegaard and the biblical book of Ecclesiastes highlights the central structural role of presence in Ellul's theological ethics and elucidates a crucial turning point in Ellul's theology following a personal crisis in Ellul's faith and life Drawing from numerous unpublished and untranslated texts Jacob Marques Rollison argues that this crisis involves confrontation with a critique of presence manifest in Ellul's reading of and engagement with Michel Foucault Marques Rollison distills Ellul's sociological critiques and theological responses to this crisis presenting Ellul's evolving theology against the background of major shifts in French intellectual life In doing so the author simultaneously calls for renewed engagement with Ellul's prophetic thought critically appraises Ellul's dialectical theology and Marxist inheritances and develops a robustly Protestant approach to theological communication ethics for our time **Historical Theology: An Introduction** Geoffrey W.

Bromiley, 1987-12-01 Introduces the reader to the views of the most outstanding theologians in the history of Christianity The book's three sections deal with Patristic Theology Medieval and Reformation Theology and Modern Theology The Self as a Sign, the World, and the Other Susan Petrilli, 2013-06-30 Ostentation of the Subject is a practice that is asserting itself ever more in today's world Consequently criticism by philosophers psychologists sociologists and anthropologists has been to little effect considering that they are not immune to such practices themselves The question of subjectivity concerns the close and the distant the self and the other the other from self and the other of self It is thus connected to the question of the sign It calls for a semiotic approach because the self is itself a sign its very own relation with itself is a relation among signs This book commits to developing a critique of subjectivity in terms of the material that the self is made of that is the material of signs Susan Petrilli highlights the scholarship of Charles Peirce Mikhail Bakhtin Roland Barthes Mary Boole Jacques Derrida Michael Foucault Emmanuel Levinas Claude Levi Strauss Maurice Merleau Ponty Charles Morris Thomas Sebeok Thomas Szasz and Victoria Welby Included are American and European theories and theorists evidencing the relationships

interconnecting American Italian French and German scholarship Petrilli covers topics from identity issues that are part of semiotic views to the corporeal self as well as responsibility reason and freedom Her book should be read by philosophers semioticians and other social scientists Dialectical Theology and Jacques Ellul Jacob E. Van Vleet, 2014 Argues that the work of Jacques Ellul is frequently misread on account of inattention to the theological underpinning that governs Ellul's thought This book offers an introduction to Ellul's thought his contribution to theology and philosophy and how his philosophy of technology is both theologically informed and culturally relevant Word Workers Hunter Calder, 2000

Melvin Woody,2010-11-01 To be

free is to escape all limitations and obstacles or so we think at first But if we probe further we discover that freedom embraces its own necessities a set of conditions without which it could not exist Freedom s Embrace explores these necessities of freedom J Melvin Woody surveys competing conceptions of freedom and traces debates about the nature and reality of freedom to confusions about knowledge humanity and nature that are rooted in some of the most fundamental assumptions of modern Western thought The preemption of freedom as an exclusively human privilege with all nature relegated to mechanical necessity is a fatal error that renders both humanity and nature equally unintelligible What distinguishes human beings from other animals is not freedom but the use of symbols which vastly extends the range of available options and enables us to envision freedom as an ideal by which customary institutions and norms may be judged and transformed By carefully surveying its necessary conditions and limitations Woody reconciles the salient competing conceptions of freedom and weaves them together into a richer and broader theory that resolves old controversies and opens the way toward an ethics of freedom that can meet the challenges of relativism and nihilism that arise from recognizing the historicity and malleability of culture

Krishnamurti, J. Krishnamurti, 1991 In this volume Krishnamurti takes great care to elucidate this necessity of a revolution within our consciousness where the problem lies before we expect any kind of revolutionary change outside of ourselves Krishnamurti posits that if the politicians and scientists wanted to end starvation in the world it could be done It could be done but they are not going to do it as long as their thinking is based on nationalism on motives of their own personal profit And even if this far reaching outward change were brought about it seems to me that the problem is much deeper The problem is not merely starvation war the brutality of man to man it is the crisis in our own consciousness Fundamentally the problem lies within p 295 **Pray the Word** Tiece L. In the collected essays here Schlag established himself as one of the most creative thinkers in the contemporary legal academy. To read them one after another is exhilarating. Schlag's sophistication shines through. In chapter after chapter he tackles the most vexing problems of law and legal thinking but at the heart of his concern is the questions of normativity and the normative claims made by legal scholars. He revisits legal realism, energizes it and brings readers face to face with the central issues confronting law at the end of the 20th century. Choice May 1997. Pierre Schlag is the great iconoclast of the American legal academy. Few law professors today are so consistently original, funny and provocative. But behind his playful manner is a serious goal: bringing the study of law into the late modern/postmodern age. Reading these essays is like watching a one-man truth squad taking on all of the trends and movements of contemporary jurisprudence. All one can say to the latter is: better take cover. J. M. Balkin, Lafayette S. Foster Professor, Yale Law School. At a time when complaints are heard everywhere about the excesses of lawyers, judges and law itself, Pierre Schlag focuses attention on the American legal mind and its urge to lay down the law. For Schlag, legalism is a way of thinking that extends far beyond the customary official precincts of the law. His work prompts us to move beyond the facile self-congratulatory self-representations of the law so that we might think critically about its identity, effects and limitations. In this way, Schlag leads us to rethink the identities and character of moral and political values in contemporary discourse. The book brings into question the dominant normative orientation that shapes so much academic thought in law and in the humanities and social sciences. By pulling the curtain on the rhetorical techniques by which the law represents itself as coherent, rational and stable, *Laying Down the Law* discloses the grandiose and largely futile attempts of American academics to control social and political meaning by means of scholarly missives. **Freedom's Song** K. Wayne Keillor, 2014-11-25. *Freedom's Song* is both an expanded translation and a one-of-a-kind interpretation of the life of Jesus. It is a fresh portrait of him based on primary source documents, namely the four gospels of the Christian scriptures. In this story, these documents are harmonized and arranged into a highly probable chronological narrative. To add depth and flavor and bring about a greater understanding of Jesus' discourses, illustrations, homilies and deeds, cultural and political beliefs and practices of the first century are incorporated into the book. The Prologue opens with a celestial sign that appeared to Magi priests about fifteen months before Jesus was born. This is followed with a discussion of his pedigree and his person. Part I covers the Inauguration of Freedom from Jesus' unique birth to his first Passover in Jerusalem as a youth. It then jumps forward eighteen years to his baptism, personal testing as God's Liberator, recruitment of his first six disciples and finally his first power deed. Part II focuses on the Battle for Freedom. It

covers approximately two years of Jesus ministryhis tour of Galilee with the gospel identification of himself as the God man sermon about Gods kingdom dispatching apostles to spread the good news teaching by parables visiting Jerusalem and his warning to the religious leaders of his day Part III includes Freedoms Victory coincidentally the denouement of Jesus life He is back in Jerusalem for another Passover and a final gathering with the apostles And here he is arrested tried and crucified as a common criminal The story ends with Freedoms SongJesus is alive **The School Executive** ,1925
