Freedom Planning In Australia:

Freedom & Planning in Australia Arthur Campbell Garnett, 1949 Larrikins, Rebels and Journalistic Freedom in Australia Josie Vine, 2021-03-01 Larrikins Rebels and Journalistic Freedom is a cultural history of Australian journalism In a democratic nation where a free news media is not guaranteed Australian journalism has inherited what could be described as a Larrikin tradition to protect its independence This book mines Australian journalism s rebelliousness humor and distinct disrespect for authority in various socio historical contexts to explore its determination to maintain professional independence Beginning with a Larrikin analysis of Australian journalism s inherited Enlightenment tradition Dr Josie Vine takes the reader through the Colonial era s hardships Federation two World Wars the Cold War s fear and suspicion the swinging sixties a Prime Minister s dismissal 1980 s neo liberalism post 9 11 and finally provides a conclusive synthesis of current Australian journalism culture Throughout the book highlights the audacious iconoclastic and determined figure of the Larrikin journalist forever pushing boundaries to protect democracy s cornerstone freedom of the news media Book length histories of Australian journalism are still relatively rare but what makes this new arrival particularly welcome is the way in which it is structured around an exploration of the Larrikin paradox This refers to the fact that although Australian journalism may profess to be professional and reputable it can also be raucous unruly and disrespectful in pursuit of what it sees as its democratic purposes The Larrikin may be a uniquely Australian figure but the paradox is far from confined to Australian journalism not least because of the influence of erstwhile Australian Rupert Murdoch on journalism in the Anglosphere and this book should be of considerable interest to those concerned with the means whereby journalism performs its democratic Fourth Estate role in modern democracies This is an extremely very well informed and highly insightful work which ought to appeal equally to those interested in journalism and in Australian politics Julian Petley Professor Brunel University London UK *Religious Freedom in Secular States* Md. Mitchell,2009-02-05 This book argues that Network Centric Warfare NCW influences how developed militaries operate in the same fashion that an operating system influences the development of computer software It examines three inter related issues the overwhelming military power of the United States the growing influence of NCW on military thinking and the centrality of coalition operations in modern military endeavours Irrespective of terrorist threats and local insurgencies the present international structure is remarkably stable none of the major powers seeks to alter the system from its present

liberal character as demonstrated by the lack of a military response to US military primacy This primacy privileges the American military doctrine and thus the importance of NCW which promises a future of rapid precise and highly efficient operations but also a future predicated on the digitization of the battle space Participation in future American led military endeavours will require coalition partners to be networked interoperability will therefore be a key consideration of a partner's strategic worth Network Centric Warfare and Coalition Operations will be of great interest to students of strategic studies international security US foreign policy and international relations in general

APAIS 1994: Australian public affairs information service , Self-Censorship and the Struggle for Press Freedom in Hong Kong Anne Cheung,2021-11-01 Ever since it was first known that Hong Kong would become China's Special Administrative Region there has been growing concern over the protection of the freedom of the press in this oriental city The anxiety is however not confined to the fear that the new sovereign might rule Hong Kong under an iron fist Rather many believe that the locals are apparently surrendering their freedom by practicing self censorship a mechanism of anticipatory avoidance of sanctions This book asks what does self censorship mean to Hong Kong at the time of political and historical juncture It argues that self censorship is a strategic game of coordination when both the ruler and the subjects are making use of the fluid boundaries in local and international politics Rich in anecdotes historical details and legal analysis this book depicts the game of Chuin shadow boxing where promises threats and bluffs are exchanged Winning for either side calls for the skilful manipulation of voice and silence at all levels

Spirit, Freedom and Power Angelo Ulisse Cettolin,2016-07-21 The Pentecostal movement emerged at the turn of the twentieth century emphasizing the need for Christians to have a powerful experience of the Holy Spirit It advocated the return to a pristine early Spirituality in which empowerment by the Spirit was

essential Recently Pentecostal and Charismatic movements are playing down the classic expressions and moving towards more mainline approaches As church movements develop they become more structured less spontaneous and more routine But is this always inevitable The author explores a contemporary Pentecostal movement to discover whether a radical spirituality still can effectively interface with a complex twenty first century world This insightful research finds a Pentecostal spirituality that is flexible adaptive and innovative and despite humble origins now is making inroads into the middle class While tensions over charismatic freedom remain the developing organizational structure is facilitating significant growth Valuable lessons for Christians of all persuasions are found and some creative theological developments are suggested for church structure and for expanding traditional understandings of baptism in the Holy Spirit *Freedom in the World 2007* Freedom House (U.S.),2007 Freedom in the World the Freedom House flagship survey whose findings have been published annually since 1972 is the standard setting comparative assessment of global political rights and civil liberties The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers the media international corporations and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports The Freedom in the World political rights and civil liberties ratings are determined through a multi layered process of research and evaluation by a team of regional analysts and eminent scholars The analysts used a broad range of sources of information including foreign and domestic news reports academic studies nongovernmental organizations think tanks individual professional contacts and visits to the region in conducting their research The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights and these standards are applied to all countries and territories irrespective of geographical location ethnic or religious composition or level of economic development Annual Report, International Religious Freedom United States.
