French Political Parties In Transition:

The Changing French Political System Robert Elgie, 2013-09-13 Examining the nature of the Fifth Republic after its first 42 years this study looks at the challenges posed by new parties and new expressions of political mobilization Entrenched policy routines are being undermined by the emergence of new actors and the failure of old paradigms

Contemporary French Political Parties David Scott Bell, 1982 *French Political Parties in Transition* Alistair Cole, 1990 *Gender Quotas, Parity Reform, and Political Parties in France* Katherine A. R. Opello, 2006-01-01 France is notorious for the underrepresentation of women in its halls of politics Having been unsuccessful at implementing quotas for female candidates unlike several of their European neighbors France passed a gender parity law in 2000 that required all political parties to field an equal number of male and female candidates Yet in the 2002 elections the main political parties fell well short of nominating equal numbers of male and female candidates How did parity replace gender quotas as the preferred way to achieve greater representation for women in elected office Why have these gender based measures been embraced by some parties and not others And why do parties sometimes fail to implement quotas and parity Gender Quotas Parity Reform and Political Parties in France considers this transition from quotas to parity providing a history of French women's rights and the French electoral process as well as an examination of the roles of the Socialist and Gaullist political parties Compelling and clearly written Opello has created a work that bridges an existing gap in literature about contemporary France and will appeal to scholars of gender politics and France

Political Leadership, Parties and Citizens Jean Blondel, Jean-Louis Thiebault, 2009-12-04 Social structure may historically have been of primary importance in accounting for the attitudes and behaviour of many citizens but now changes in social structure have diminished the role played by class and religious affiliation whilst the significance of personality in political leadership has increased This volume explores both theoretically and empirically the increasingly important role played by the personalisation of leadership Acknowledging the part played by social cleavages it focuses on the personal relationships and psychological dimension between citizens and political leaders It begins by examining the changes which have taken place in the relationship among citizens the parties which they support and the leaders of these parties in a European context The authors then assess how far the phenomena of personalised leadership differ from country to country and the forms which these differences take The book includes comparative case studies on Britain and Northern Ireland France Italy Poland Japan and Thailand it concentrates on eleven prominent leaders epitomising personalised political leadership Thatcher Blair Mitterand Chirac Le Pen Berlusconi Bossi Walesa Lepper Koizumi and Thaksin This book will be of interest to students and scholars of political science comparative politics and political leadership

The French Communist Party During the Fifth Republic Gino G. Raymond, 2005-08-10 The demise of the French Communist Party PCF has been a recurrent feature of overviews of the Left in France for the past two decades and yet the Communists survive This study examines the factors that undermined the position of the PCF as the premier party of France but also highlights the challenges that the party faces in a society disillusioned with politics and the new strategies that it is developing in order to revive its fortunes

Parties and Their Members Susan E. Scarrow, 1996-03-21 Why would parties continue to care about membership enrollment in an age of television campaigning

and direct mail fundraising To answer this question Parties and their Members traces organizing strategies employed by British and German membership parties during the past half century Using careful analysis of historical records and interviews with party officials the author shows that party organizers have reacted to technological and social developments by modifying their ideas about how members can help parties achieve their goals Postwar Politics in the G-7 Byron E. Shafer, 1996 Seven analysts and professors of political science provide an examination of each of the countries comprising the Group of Seven with a focus on the period from the end of WWII to the end of the Cold War Introductory and concluding essays provide some synthesis No bibliography Paper edition unseen 19 95 Annotation copyrighted by Book News Inc Portland OR Structures of Power in Modern France G. Raymond, 1999-10-11 Traditionally France has been viewed as host to a unique set of tensions between the centre and the periphery dating back to the Revolution and beyond which has shaped its structures of power and marked its evolution as a modern society This survey provides a fresh overview of those tensions between a centralising state and the constituencies challenging it and asks whether that model can remain viable or whether it is not in fact undergoing a process of profound change **French Socialism in a Global Era** Ben Clift, 2005-12-07 A valuable edition to the Politics Culture and Society in the New Europe series this fascinating book seeks to explain and explore the fortunes of the French Socialist party The party is employed as a test case to examine the veracity of the crisis of social democracy literature and its predictions for the future direction and fortunes of social democratic parties Ben Clift extends his analysis in an attempt to define the wider relationship between social democracy and globalization Topics covered in this seminal account include the ideological redefinition in the French parti socialiste as well as the changing political economy of French socialism After an in depth party profile of the Jospin government Clift concludes by investigating the political economy of the French Socialist electoral strategy French Politics Robert Elgie, Steven Griggs, 2013-10-18 Accessible up to date and comprehensive this is an essential introduction to the French political system Featuring detailed analysis of the most important debates and controversies concerning French politics today the expert authors conclude that study of this subject is being transformed in response to a changing global European and domestic environment Includes coverage of the relationship between president and prime minister voting behaviour European integration the changing parameters of state intervention **Green Parties and Politics in the European Union** Elizabeth Bomberg, 2005-08-02 The goals strategies and impact of Green actors in the EC with case studies including the important German Greens Looks at the relationship between movements and parties and at the Greens alternative of a Europe of the Regions French National Cinema Susan Hayward, 2006-09-07 This examination of France s national cinema takes its primary artefact the feature film and discusses both popular cinema and the avant garde cinema that contests it Susan Hayward argues that writing on French national cinema has tended to focus on either great film makers or on specific movements addressing moments of exception rather than the global picture Her work offers a thorough and much needed

historical textualisation of those moments and relocates them in their wider political and cultural context Beginning with an ecohistory of the French film industry she then traces the various movements in French cinema and the directors associated with them including the avant garde Poetic Realist New Wave and today's postmodern cinema Her analysis includes amongst other considerations the social and political concerns these cinemas reflect *Presidents, Parties, and Prime Ministers* David J. Samuels, Matthew S. Shugart, 2010-05-17 This book provides a framework for analyzing the impact of the separation of powers on party politics Conventional political science wisdom assumes that democracy is impossible without political parties because parties fulfil all the key functions of democratic governance They nominate candidates coordinate campaigns aggregate interests formulate and implement policy and manage government power When scholars first asserted the essential connection between parties and democracy most of the world's democracies were parliamentary Yet by the dawn of the twenty first century most democracies had directly elected presidents David J Samuels and Matthew S Shugart provide a theoretical framework for analyzing variation in the relationships among presidents parties and prime ministers across the world's democracies revealing the important ways that the separation of powers alters party organization and behavior thereby changing the nature of democratic representation and accountability **Historical Dictionary of France** Gino Raymond, 2008-10-23 From the construction of Notre Dame and the Eiffel Tower to the Fall of the Bastille and the Declaration of the Rights of Man and the Citizen to Napoleon Bonaparte's defeat at Waterloo to Albert Camus *L'Etranger* and the existentialism of Jean Paul Sartre France has been a part of some of the greatest and most memorable events in human history Author Gino Raymond relates the history of these events in the second edition of the *Historical Dictionary of France* Through a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on kings politicians authors architects composers artists and philosophers a thorough history of France is presented [The Presidentialization of Politics](#) Thomas Poguntke, Paul Webb, 2007-04-27 The *Presidentialization of Politics* shows that the politics of democratic societies is moving towards a presidentialized working mode even in the absence of formal institutional changes These developments can be explained by a combination of long term structural changes in modern politics and societies contingent factors which fluctuate over time While these contingent short term factors relate to the personalities of office holders the overall political agenda and the majority situation in parliament there are several structural factors which are relatively uniform across modern nations First the internationalization of modern politics which is particularly pronounced within the European Union has led to an executive bias of the political process which has strengthened the role of political top elites vis vis their parliamentary groups and or their parties Their predominance has been amplified further by the vastly expanded steering capacities of state machineries which have severely reduced the scope of effective parliamentary control At the same time the declining stability of political alignments has increased the proportion of citizens whose voting decisions are not constrained by long standing party loyalties In conjunction with the

mediatization of politics this has increased the capacity of political leaders to by pass their party machines and to appeal directly to voters As a result three interrelated processes have led to a political process increasingly moulded by the inherent logic of presidentialism increasing leadership power and autonomy within the political executive increasing leadership power and autonomy within political parties and increasingly leadership centred electoral processes The book presents evidence for this process of presidentialization for 14 modern democracies including the US and Canada While there are substantial cross national differences the overall thesis holds modern democracies are increasingly following a presidential logic of governance through which leadership is becoming more central and more powerful but also increasingly dependent on successful immediate appeal to the mass public Implications for democratic theory are considered
