**Schools and National Identities in French-speaking Africa** Linda Gardelle, Camille Jacob, 2020-11-25 Schools and National Identities in French speaking Africa showcases cutting edge research to provide a renewed understanding of the role of schools in producing and reproducing national identities Using individual case studies and comparative frameworks it presents diverse empirical and theoretical insights from and about a range of African countries The volume demonstrates in particular the usefulness of the curriculum as a lens through which to analyse the production and negotiation of national identities in different settings Chapters discuss the tensions between decolonisation as a moment in time and decolonisation as a lengthy and messy process the interplay between the local national and international priorities of different actors and the nuanced role of historiography and language in nation building At its heart is the need to critically investigate the concept of the nation as a political project how discourses and feelings of belonging are constructed at school and what it means for schools to be simultaneously places of learning tools of socialisation and political battlegrounds By presenting new research on textbooks practitioners and policy in ten different African countries this volume provides insights into the diversity of issues and dynamics surrounding the question of schools and national identities It will be of particular interest to scholars researchers and postgraduate students of comparative and international education sociology history sociolinguistics and African studies

*Francophone African Poetry and Drama* Richard J. Gray II, 2014-09-23 Scholars examining literature from former French colonies sometimes view it wrongly as simply an outgrowth of colonial literature By suggesting new ways to understand the multiple voices present this book explores how Francophone African poetry and theatre in particular since the 1960s constitute both an organic cultural product and a reflection of the diverse African cultures in which they originate Themes explored in five chapters include the many kinds of African identity formation the resistance to former notions of literary composition as art a remapping of social responsibility and the impact of globalization on Francophone Africa s participation in world economics politics and culture

This study highlights the inner workings of Francophone African literature and suggests a canonization of modern Francophone works from a world perspective

**Politics in Francophone Africa** Victor T. Le Vine, 2004 Explores the elements that have shaped the particular political dynamics of the 14 former French colonies in west and equatorial Africa while allowing them to remain part of a unique francophone sociopolitical community

web the pattern of stress distribution in the 3d model of the crane hook is obtained using ansys 19.2 software in this present work the obtained stresses by using finite element analysis and the winkler batch method in different cross sections are compared to reduce the stress formed in sections by changing its design

stress analysis of crane hook with different cross sections - Jun 22 2022

web condition a solid model of crane hook is prepared with the help of abaqus software real time pattern of stress concentration in 3d model of crane hook is obtained the stress distribution pattern is verified for its correctness on an acrylic model of crane hook using shadow optical method caustic method setup

design and analysis of crane hook with different materials irjet - Feb 16 2022

web 7 stress in crane hook the crane hook is a curved bar subjected to direct stress bending stress 8 resultant stress at inner surface of crane hook 2 mm n mm 2 n mm 9 resultant stress at outer surface of crane hook the resultant stress at inner surface is additional of

**a detailed report on structural analysis of crane hook** - Aug 05 2023

web jan 1 2021 real time pattern of stress concentration in 3d model of crane hook is obtained the stress distribution pattern is verified for its correctness on an acrylic model of crane hook using

**stress analysis of crane hook with different cross section using** - Jul 24 2022

web stress on crane hook depends upon various geometric variables as well as material properties in this analysis the material properties of hook kept constant throughout the analysis and stress is to be reduced by varying different geometric parameters

*design and strength analysis of a crane hook* - Jun 03 2023

web jan 10 2022 the most stressed part of the crane hook is the curved inner surface this surface is considered critical in terms of strength the goal of this paper is to select a suitable crane hook

analysing crane hook of different cross sections and springer - Jan 30 2023

web analysis of these hooks to determine the areas with high stress i e failure points and those with low stresses these are potential points for material removal weight reduction and reduced costs

*finite element stress analysis of crane hook* - Sep 25 2022

web bending stresses combined with tensile stresses weakening of hook due to wear plastic deformation due to overloading and excessive thermal stresses are some of the other reasons for failure hence continuous use of crane hooks may increase the magnitude of these stresses and eventually result in failure of the hook

pdf crane hook design and analysis researchgate - Oct 07 2023

web nov 12 2018 the stress analysis of a hook crane submitted to some vertical static force is a simple fem problem approached here using solidworks simulation software
