French Connections Claire Duchen,1987 Although the women s liberation movement is very much an international phenomenon it has developed very differently in different countries Debate and exchange between feminists is often difficult not only because of language barriers but also because things do not always make sense when removed from their particular social political and cultural contexts The feminist movement in France has been too often regarded as interesting but largely irrelevant concerned more with reflection and theory than with seeking practical solutions to concrete problems In this anthology Claire Duchen attempts to change that image demonstrating that although the French movement is indeed characterized by much intellectual debate it shares the same concerns and struggles of feminists everywhere The first part of the volume contains selections on the French Women s Liberation Movement mouvement de lib ration des femmes known as the MLF itself reflecting on its history character and prospects for the future The second part contains selections on four areas of debate that have both theoretical and practical dimensions psychoanalytic feminism heterosexuality and lesbianism women s difference and the relationship between feminism and the political Left The book contains fifteen contributions from eight important writers Fran oise Collin Christine Delphy Catherine Deudon Marie Jo Dhavernas Colette Guillaumin Annie Leclerc Fran oise Picq and Elaine Viennot **American Book Publishing Record** ,1970 *New Century Reference Library of the World's Most Important Knowledge* ,1909 *French Connections in the English Renaissance* Catherine Gimelli Martin,Hassan Melehy,2016-04-15 The study of literature still tends to be nation based even when direct evidence contradicts longstanding notions of an autonomous literary canon In a time when current events make inevitable the acceptance of a global perspective the essays in this volume suggest a corrective to such scholarly limitations the contributors offer alternatives to received notions of influence and the more or less linear transmission of translatio studii demonstrating that they no longer provide adequate explanations for the interactions among the various literary canons of the Renaissance Offering texts on a variety of aspects of the Anglo French Renaissance instead of concentrating on one set of borrowings or phenomena this collection points to new configurations of the relationships among national literatures Contributors address specific borrowings rewritings and appropriations of French writing by English authors in fields ranging from lyric poetry to epic poetry to drama to political treatise The bibliography presents a comprehensive list of

publications on French connections in the English Renaissance from 1902 to the present day      **The French Connections of Jacques Derrida** Julian Wolfreys, John Brannigan, Ruth Robbins, 1999-04-01 The French Connections of Jacques Derrida offers stimulating and accessible essays that address for the first time the issue of Derrida's relation to French poetics writing thought and culture In addition to offering considerations of Derrida through studies of such significant French authors as Mallarmé Baudelaire Valéry Laporte Ponge Perec Blanchot and Barthes the book also reassesses the development of Derrida's work in the context of structuralism biology and linguistics in the 1960s and looks at the possible relationships between Derrida's writing and that of the Surrealist and Oulipian groups Derrida is introduced as one whose work is as much poetic as it is philosophical and who is strikingly French and yet not unproblematically so Contributors include Boris Belay John Brannigan Christopher Johnson John P.
