**The French Radical Party** Francis De Tarr,2003-01-01 *The French Radical Party. From Herriot to Mendès-France, Etc. [With Plates.].* Francis DE TARR,1961 **Bourgeois Politics in France, 1945-1951** Richard Vinen,2002-07-11 This 1995 book is a general study of politics and society in the Fourth Republic and is founded on extensive primary research It approaches the period in terms of successful conservatism rather than thwarted reform maintaining that conservatism in France was a more subtle dynamic force than has previously been appreciated Not the preserve of any one single party conservative ideas were often defended by institutions outside the realm of explicit politics altogether such as business associations civil service departments and the law courts It is proposed that conservatives did not simply return to French politics in 1945 untouched by the events of the previous five years The experiences of Vichy the occupation and the purges produced new kinds of political synthesis making conservatives more dynamic and receptive to change than their progressive opponents The French Radical Party Francis De Tarr,1980 The idea of man as an essentially irrational being has preoccupied some of the most influential of Russian thinkers including the three important Soviet writers considered by Dr Edwards in this book Since the 1917 Revolution the polemic between rationalists and irrationalists has become directly relevant to the way life is lived in the Soviet Union and a knowledge of the irrationalist point of view is essential for an understanding of much of Soviet literature and of the foundations of Soviet dissidence As with other titles in this series this book is not intended simply for the specialist The broad speculations arising from the subject will fascinate all those who take a serious interest in the Russian literary tradition a tradition whose principal figures have been concerned to reject philosophical and political creeds that in seeking to produce a perfect human being in a perfect society point in fact towards a vision of hell *Christian Democracy in France (Routledge Revivals)* R. E. M. Irving,2010-03-23 Christian Democracy which may briefly be defined as organised political action by Catholic democrats has been a major political force in Western Europe since the Second World War not least in France The aim of this book first published in 1973 is to trace the Development of Christian Democracy in France from its origins in the 1830s to the present day discussing its theories and its

importance in French history and politics with particular but by no means exclusive reference to the Fourth Republic 1946 58 when the MRP was one of the key centre parties Dr Irving provides a thorough analysis of MRP its economic foreign and colonial policies and gives reasons for the relative decline of French Christian Democracy in the 1960s This French movement has been little understood in Britain and a thorough history has been badly needed This study will be valuable to all those who in the context of a United Europe wish to understand the political forces at work at its conception It will be valuable especially to students of modern history and politics

**Men, Ideas, and Politics** Francis De Tarr,1957 *Parties and Democracy in France* David Bell,2018-10-24 This title was first published in 2000 The Presidency has been the principal political focus of the French Fifth Republic and the new component of French democracy This book looks at how the Presidency has shaped political parties and party systems as well as how they have interacted with the new institution The Presidency has acted as a unifying force bringing together coalitions of parties to provide a political basis for presidential power but has also been a divisive factor Parties draw on longstanding traditions of French political life and the Presidency can provoke destructive rivalry as well as constructive coalition building Presented here is a discussion of the contemporary French party system its dynamics successes and failures Written in an accessible style it is intended for students of French studies and political parties as well as comparative politics

**Crises of Political Development in Europe and the United States. (SPD-9)** Raymond Grew,2015-03-08 As the last volume in the series sponsored by the SSRC Committee on Comparative Politics this book reflects as does the preceding volume the Committee s decision to devote renewed attention to the original state building experiences of the West after having studied political development in the newer countries of the Third World The contributors attempt to discern patterns of historical change in the different sequences of crises that affect all states in their development Following an introductory and theoretical statement by Raymond Grew each chapter focuses on a different country or area Each of these essays applies and evaluates the Committee s concept of crises of development i e crises of identity legitimacy participation penetration and distribution The distinguished historians and political scientists who contribute to the volume are Keith Thomas on the United Kingdom Aristide R Zolberg on Belgium Folke Dovring on Scandinavia J Rogers Hollingsworth on the United States Stanley G Payne on Spain and Portugal David D Bien on France Raymond Grew on France and Italy John R Gillis on Germany Walter M Pintner on Russia and Roman Szporluk on Poland with Lucian W Pye providing the Preface Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Recasting Bourgeois Europe Charles S. Maier,2015-10-27 Charles Maier one of the most prominent contemporary scholars of European

history published *Recasting Bourgeois Europe* as his first book in 1975. Based on extensive archival research, the book examines how European societies progressed from a moment of social vulnerability to one of political and economic stabilization. Arguing that a common trajectory calls for a multi-country analysis, Maier provides a comparative history of three European nations and argues that they did not simply return to a prewar status quo but achieved a new balance of state authority and interest group representation. While most previous accounts presented the decade as a prelude to the Depression and dictatorships, Maier suggests that the stabilization of the 1920s was vulnerable as it was foreshadowed by the more enduring political stability achieved after World War II. The immense and ambitious scope of this book, its ability to follow diverse histories in detail, and its effort to explain stabilization and not just revolution or breakdown have made it a classic of European history.

The 20th Century Go-N Frank N. Magill, 2014-03-05. Each volume of the *Dictionary of World Biography* contains 250 entries on the lives of the individuals who shaped their times and left their mark on world history. This is not a who's who. Instead, each entry provides an in-depth essay on the life and career of the individual concerned. Essays commence with a quick reference section that provides basic facts on the individual's life and achievements. The extended biography places the life and works of the individual within an historical context, and the summary at the end of each essay provides a synopsis of the individual's place in history. All entries conclude with a fully annotated bibliography.

The Decline of the Third Republic, 1914-1938 Philippe Bernard, Henri Dubief, 1988-02-26. This book provides a detailed account of the Third Republic in France between the outbreak and conduct of the First World War and the fall of Leon Blum's Front Populaire soon after Hitler's invasion and annexation of Austria in 1938. Following the trauma of war, France slipped into the era of illusions, which, despite the comparative prosperity of the 1920s, led to the slump and the severe social and economic unrest of the 1930s. The short-lived experiment of Blum's Front Populaire gave way to more conservatively based ministries, but by 1938 a new common enemy began to draw together the political opinion of the country.

*Political Leadership, Parties and Citizens* Jean Blondel, Jean-Louis Thiebault, 2009-12-04. Social structure may historically have been of primary importance in accounting for the attitudes and behaviour of many citizens, but now changes in social structure have diminished the role played by class and religious affiliation, whilst the significance of personality in political leadership has increased. This volume explores both theoretically and empirically the increasingly important role played by the personalisation of leadership. Acknowledging the part played by social cleavages, it focuses on the personal relationships and psychological dimension between citizens and political leaders. It begins by examining the changes which have taken place in the relationship among citizens, the parties which they support, and the leaders of these parties in a European context. The authors then assess how far the phenomena of personalised leadership differ from country to country and the forms which these differences take. The book includes

comparative case studies on Britain and Northern Ireland France Italy Poland Japan and Thailand it concentrates on eleven prominent leaders epitomising personalised political leadership Thatcher Blair Mitterand Chirac Le Pen Berlusconi Bossi Walesa Lepper Koizumi and Thaksin This book will be of interest to students and scholars of political science comparative politics and political leadership     *The French Radical Party and European Integration* Francis O'Neill,1981     France and the Coming of the Second World War, 1936-1939 Anthony Adamthwaite,2021-12-16 First published in 1977 France and the Coming of the Second World War investigates the policies that led to the collapse of French power The book argues that this collapse was the result of social political and economic troubles that buffeted French leaders It uses a wealth of documents to explore common debates such as Britain's culpability for France's inability to prevent Germany's reoccupation of the Rhineland It also puts forward the threat of Italy and the Mediterranean as France's main preoccupation rather than Germany and central Europe France and the Coming of the Second World War uses an extensive range of archival material and includes the private papers of Daladier Bonnet and a number of other prominent figures It will appeal to those with an interest in the history of the Second World War political history and social history     *France in the Twentieth Century* Philip A. Ouston,1972-06-18     **Between Democracy and Populism** Milan St. Protić,2015-01-01     *European Political Parties* Stanley Henig,John Pinder,2025-09-12 *European Political Parties* 1969 looks at the parties of Western Europe on a country by country basis examining their roles in the increasing political integration in the European Economic Community The party system is described with a structural functional analysis of individual parties Particular emphasis is given to the relationship between the parties and their respective parliamentary groups and between leaders and members
