Fresh Lipstick Redressing Fashion And Feminism:

Fresh Lipstick Linda M. Scott, 2005 Challenges feminist beliefs that the fashion and beauty industry objectifies women contending that elite women are out of touch with most women in the U S while arguing that fashion is more an expression of creativity and identity than a means of attracting men 10 000 first printing From Flappers to Rappers Marcel Danesi, 2018-03-26 Is youth culture coming to an end In this exciting new read Marcel Danesi offers a compelling account of how youth culture emerged and evolved in North America over the course of the twentieth century and why it may be disappearing Tracing the origins of youth culture in the Roaring Twenties through its evolution from the rock and roll rebels of the 1950s to the counterculture hippies of the 1960s the punk and disco subcultures of the 1970s and the rap movement of the 1990s From Flappers to Rappers demonstrates how the musical genres lifestyles ideologies and social movements that characterized the different eras of youth culture have radically reshaped our world In engaging and accessible prose Danesi makes the argument that the current fragmented environment of the Internet cannot sustain a united community of youths He analyzes how new technology which previously helped to entrench youth movements in society is now ironically bringing about the demise of youth culture as we know it Brimming with thought provoking examples and accompanied by a student workbook From Flappers to Rappers will be indispensable for students of sociology anthropology cultural studies and history as well as for anyone interested in youth and popular culture **Everyday Women's and Gender Studies** Ann

Fashion is all around us we see it we buy it we read about it but most people know little about fashion as a business Veronica Manlow considers the broader significance of fashion in society the creative process of fashion design and how fashion unfolds in an organizational context where design is conceived and executed To get a true insider's perspective she became an intern at fashion giant Tommy Hilfger There she observed and recorded how a business's culture is built on a brand that is linked to the charisma and style of its leader Fashion firms are not just in the business of selling clothing along with a variety of sidelines These companies must also sell a larger concept around which people can identify and distinguish

themselves from others Manlow defines the four main tasks of a fashion firm as creation of an image translation of that image into a product presentation of the product and selling the product Each of these processes is interrelated and each requires the efforts of a variety of specialists who are often in distant locations Manlow shows how the design and presentation of fashion is influenced by changes in society both cultural and economic Information about past sales and reception of items as well as projective research informs design manufacturing sales distribution and marketing decisions Manlow offers a comprehensive view of the ways in which creative decisions are made leading up to the creation of actual styles She helps to define the contribution fashion firms make in upholding challenging or redefining the social order Readers will find this a fascinating examination of an industry that is quite visible but little understood **VIVA MAC**
