The Tower of London: A Historical Romance William Harrison Ainsworth, 2020-09-28 It has been for years the cherished wish of the writer of the following pages to make the Tower of London the proudest monument of antiquity considered with reference to its historical associations which this country or any other possesses the groundwork of a Romance and it was no slight satisfaction to him that circumstances at length enabled him to carry into effect his favourite project in conjunction with the inimitable Artist whose designs accompany the work Desirous of exhibiting the Tower in its triple light of a palace a prison and a fortress the Author has shaped his story with reference to that end and he has also endeavoured to contrive such a series of incidents as should naturally introduce every relic of the old pile its towers chapels halls chambers gateways arches and drawbridges so that no part of it should remain unillustrated How far this design has been accomplished what interest has been given to particular buildings and what mouldering walls have been informed with life is now to be determined unless indeed it may be considered determined by the numbers who have visited the different buildings as they have been successively depicted by pen and pencil during the periodical appearance of the work One important object the Author would fain hope his labours may achieve This is the introduction of the public to some parts of the fortress at present closed to them There seems no reason why admission should not be given under certain restrictions to that unequalled specimen of Norman architecture Saint John's Chapel in the White Tower to the arched galleries above it to the noble council chamber teeming with historical recollections to the vaulted passages and to the winding staircases within the turrets so perfect and so interesting to the antiquary Nor is there stronger reason why the prison chamber in the Beauchamp Tower now used as a mess room the walls of which like a mystic scroll are covered with inscriptions each a tragic story in itself and furnishing matter for abundant reflection should not likewise be thrown open Most of the old fortifications upon the inner ballium wall being converted into private dwellings though in many cases the chambers are extremely curious and rich in inscriptions are of course inaccessible But this does not apply to the first mentioned places They are the property of the nation and should be open to national inspection *The Tower of London* William Harrison Ainsworth, 1841
