Freud On Women A Reader:

Freud on Women Sigmund Freud, 2002 This collection contains Freud's most significant statements on women taken from letters as well as published work presenting a clear accessible view of the progress of his thought and his own struggle for understanding and coherence Elisabeth Young Bruehl untangles the arguments relating Freud's ideas on women and on bisexuality to his clinical practice and broader theory while the annotated bibliography traces the later disputes REUD ON GIRLS They go through an early age in which they envy their brothers their signs of masculinity and feel at a disadvantage and humiliated because of the lack of it REUD ON WOMEN At one time in a matriarchal society the woman may have been the dominant partner In this way like the defeated deities she acquires demonic properties ND ON HIMSELF My mother was nowhere to be found I was crying in despair My brother Philip unlocked a wardrobe for me and when I did not find my mother within it either I cried even more until slender and beautiful she came through the door What can this mean

Jeanne Hyvrard, Wounded Witness Helen Vassallo, 2007 Critical responses to Jeanne Hyvrard have generally categorised her as a writer of critique of feminine and or autobiography due to salient features of her oeuvre such as the use of first person narrative a cyclic writing style and the

quest for a female language Within these broader considerations however a recurrent motif throughout Hyvrard s writing is that of the body specifically the female body represented as suffering from different forms of physical mental illness and emotional social malaise It is this primordial aspect of Hyvrard s work on which surprisingly little critical analysis has been written that this monograph explores It has been demonstrated that Hyvrard s works can be studied as a unity as well as individually given that all of her texts form part of her wider theory While this theory is often referred to in abstract terms as *pens e ronde pens e globale* or *pens e femme* this study shows that it can be more specifically highlighted as a theory of disease i e the intertwining of physical malady and social malaise medical terms and metaphor and particularly as a social theory of the diseased female body
