Freud Proust And Lacan:

Freud, Proust and Lacan Malcolm Bowie,1987 The views of Freud Proust and Lacan are depicted through this staging of a series of provocative dialogues between psychological science and imaginative literature of the twentieth century

Freud, Proust, and Lacan Malcolm Bowie,1990 **2001: A Space Odyssey and Lacanian Psychoanalytic Theory** Daniel Bristow,2018-01-18 In 1968 Stanley Kubrick completed and released his magnum opus motion picture 2001 A Space Odyssey a time that was also tremendously important in the formation of the psychoanalytic theory of Jacques Lacan Bringing these figures together Bristow offers a study that goes beyond as the film did He extends Lacan's late topological insights delves into conceptualisations of desire in G W F Hegel Alexandre Kojève and Lacan himself and deals with the major themes of cuts filmic and psychoanalytic space silence surreality and das Ding in relation to the movie's enigmatic monolith This book is a tour de force of psychoanalytic theory and space odyssey that will appeal to academics and practitioners of psychoanalysis and film studies as well as to any fan of Kubrick's work **Proust's Lesbianism** Elisabeth Ladenson,1999 For decades Elisabeth Ladenson says critics have misread or ignored a crucial element in Marcel Proust's fiction his representation of lesbians Her challenging new book definitively establishes the centrality of lesbianism as sexual obsession and aesthetic model in Proust's vast novel *A la recherche du temps perdu* Traditional readings of the *Recherche* have dismissed Proust's Gomorrah his term for women who love other women as a veiled portrayal of the novelist's own homosexuality More recently queer positive rereadings have viewed the novel's treatment of female sexuality as ancillary to its accounts of Sodom and its meditations on time and memory Ladenson instead demonstrates the primacy of lesbianism to the novel showing that Proust's lesbians are the only characters to achieve a plenitude of reciprocated desire The example of Sodom by contrast is characterized by frustrated longing and self loathing She locates the work's paradigm of hermetic relations between women in the self sufficient bond between the narrator's mother and grandmother Ladenson traces Proust's depictions of male and female homosexuality from his early work onward and contextualizes his account of lesbianism in late nineteenth century sexology and early twentieth century thought A vital contribution to the fields of queer theory and of French literature and culture Ladenson's book marks a new stage in Proust studies and provides a fascinating chapter in the history of a literary masterpiece's reception **The Cambridge Companion to Lacan** Jean-Michel Rabaté,2003-07-31 This collection of specially commissioned essays by academics and practising psychoanalysts first published in 2003 explores key dimensions of Jacques Lacan's life and works Lacan is renowned as a theoretician of psychoanalysis whose work is still influential in many countries He refashioned psychoanalysis in the name of philosophy and linguistics at the time when it underwent a certain intellectual decline Advocating a return to Freud by which he meant a close reading in the original of Freud's works he stressed the idea that the unconscious functions like a language All essays in this Companion focus on key terms in Lacan's often difficult and idiosyncratic developments of psychoanalysis This volume will bring fresh accessible

perspectives to the work of this formidable and influential thinker These essays supported by a useful chronology and guide to further reading will prove invaluable to students and teachers alike *Jacques Lacan (Volume I) (RLE: Lacan)* Michael P. Clark, 2014-02-05 This bibliography in two volumes originally published in 1988 lists and describes works by and about Jacques Lacan published in French English and seven other languages including Japanese and Russian It incorporates and corrects where necessary all information from earlier published bibliographies of Lacan's work Also included as background works are books and essays that discuss Lacan in the course of a more general study as well as all relevant items in various bibliographic sources from many fields **Lacan and the Destiny of Literature** Ehsan Azari, 2011-10-27 In contemporary academic literary studies Lacan is often considered impenetrably obscure due to the unavailability of his late works insufficient articulation of his methodologies and sometimes stereotypical use of Lacanian concepts in literary theory This study aims to integrate Lacan into contemporary literary study by engaging with a broad range of Lacanian theoretical concepts often for the first time in English and using them to analyse a range of key texts from different periods Azari explores Lacan's theory of desire as well as his final theories of *littoral* and the *sinthome* and interrogates a range of poststructuralist interpretive approaches In the second part of the book he outlines the variety of ways in which Lacanian theory can be applied to literary texts and offers detailed readings of texts by Shakespeare Donne Joyce and Ashbery This ground breaking study provides original insights into a number of the most influential intellectual discussions in relation to Lacan and will fill a recognised gap in understanding Lacan and his legacy for literary study and criticism

Psychoanalysis and the Future of Theory Malcolm Bowie, 1993-12-15 Malcolm Bowie is already well known as a writer who has made theory and criticism intelligible to each other in new ways In this new collection he examines the meanings that psychoanalysis has ascribed to the tense and the devices by which later Lacan completes and complexifies Freud's discussions of temporality What kind of future can psychoanalysis have when it talks about futurity in this fashion In answering this question Malcolm Bowie focuses on an exemplary moment of crisis in the history of psychoanalytic thought He challenges some of the fundamental Freudian assumptions about temporality of discourse and draws attention to a whole new range of opportunities that a future conscious psychoanalysis might offer critics and theorists of other intellectual persuasions Bowie calls for a new openness towards art among psychoanalytic theorists drawing his examples from a wide variety of artistic practices Musicians Mozart Mahler Schoenberg and Faur visual artists Michelangelo Leonardo Tiepolo and Matisse and writers Goethe Proust and Svevo are all placed in an illuminating two way relationship with the writings of Freud *Jacques Lacan (Volume I) (RLE: Lacan)* Michael Clark, 2014-02-05 This bibliography in two volumes originally published in 1988 lists and describes works by and about Jacques Lacan published in French English and seven other languages including Japanese and Russian It incorporates and corrects where necessary all information from earlier published bibliographies of Lacan's work Also included as background works are books and essays that discuss Lacan in the

course of a more general study as well as all relevant items in various bibliographic sources from many fields

As Mirrors Are Lonely Peter Guy, 2014-10-16 The Irish novel has demonstrated an ability to sample other forms and influences to improvise and evolve in the light of changing circumstances Peter Guy's new study helps investigate the way in which Irish writers since the sixties have responded to these influences re-examining their work through the theory of the French theorist Jacques Lacan Focusing on the novelists John McGahern Brian Moore and John Broderick in a simultaneous reading and applying a psychoanalytical theory which centers in particular on gender and family relations this new study also covers a number of other complex issues issues which span the claustrophobic and repressive atmosphere of the 1950s to the secular ahistorical
