European Union Foreign Policy in a Changing World Karen E. Smith, 2013-04-18 The second edition of European Union Foreign Policy in a Changing World provides a clear introduction to the complexities of contemporary European foreign policy and offers a fresh and distinctive perspective on the nature of the EU s international identity Thoroughly revised and expanded the book explores how and why the EU tries to achieve five core foreign policy objectives the encouragement of regional cooperation the advancement of human rights the promotion of democracy and good governance the prevention of violent conflicts and the fight against international crime including terrorism In pursuing these goals the book illustrates how the EU is faced with acute policy dilemmas because the five objectives not only clash with each other but also with additional policy priorities such as securing energy supplies or establishing strategic partnerships with key powers The uniqueness of the EU as a global actor is carefully assessed and its key policies and the related dilemmas it faces compared with those of other international actors This well written and thoroughly researched book will be a valuable resource for undergraduate and postgraduate students of European politics foreign policy analysis international relations and related disciplines The SAGE Handbook

of European Foreign Policy Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the Union s international relations have become more substantial and its foreign policy more focused European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring new emerging economies powers the crisis of multilateralism and much more The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign

European Foreign Policy Dieter Mahncke, 2004 There is agreement in political and academic circles that the European Union needs a common foreign and security policy CFSP The question is how to move from recognised necessity to practical implementation from rhetoric to reality Many efforts have been made and indeed the creation of a European foreign policy is work in progress Bringing together a multinational team of both young researchers and established academics this volume offers a comprehensive analysis of this process uniquely combining the examination of the foundations institutions procedures and obstacles of EU level foreign policy with an extensive range of case studies exploring European policy on the ground in key areas such as the Balkans Africa or the Middle East Of use and interest to students of European politics and the general reader alike it breaks through the Euro jargon to provide a clear accessible and up to date account of this unprecedented system of international relations with a particular focus placed on the questions of why EU member states participate in the CFSP and what impact it enables them to have in geopolitics

The Foreign Policy of the European Union Federiga M. Bindi, Irina Angelescu, 2012-06-27 Explores European foreign policy and the degree of European Union success in proposing itself as a valid international actor drawing from the expertise of scholars and practitioners in many disciplines Addresses issues past and present theoretical and practice oriented and country and region specific Provided by publisher

European Union Foreign Policy Hazel Smith, 2002-03-20 As the European Union is not a nation state it is not generally perceived to have a foreign policy However this book argues that quite the reverse is true that an overemphasis on procedure and structures has disguised the fact that the EU has a clear foreign policy that can be analysed in much the same way as that of the sovereign state Conventional assessments of the EU focus on the mechanisms institutions and treaties through which policies are implemented Smith shows how this can lead to a massive underestimation of the capacities of the EU Rather than concentrating on how the policy of the EU is made Smith investigates the action that it has engaged in abroad and the nature of its diverse global interventions in relation to the United States and the industrialised North the various regions of the South and most recently its huge involvement in east and central Europe and the entire European continent Developing a pathbreaking analysis of the nature of EU foreign policy this comprehensive account shows how the EU can be very effective indeed in promoting its own domestic interests abroad

European Foreign Policies Ronald Tiersky, John Van

Oudenaren,2010-09-16 The extent of Europe's influence in the twenty first century is one of the fundamental questions in a rapidly changing world order How much does Europe still matter in geostrategic affairs Will the Europeans seek more international clout and be willing to pay the price for it Above all will the European American partnership prosper or weaken In the only comprehensive study available on the subject leading international experts explore these vital questions for global peace and security The book includes authoritative chapters on the foreign policies of the major European countries of the European Union and of Europe toward key regions and countries especially the United States Russia China and the Middle East Contributions by Krzysztof Bobinski Mark Gilbert David Shambaugh Philip Stephens Paul Taylor Ronald Tiersky Nathalie Tocci John Van Oudenaren Benedetta Voltolini and Helga A Welsh **The EU and Conflict Resolution** Nathalie

Tocci,2007-05-22 Through the study of five ethno political conflicts lying on or just beyond Europe's borders this book analyzes the impact and effectiveness of EU foreign policy on conflict resolution Conflict resolution features strongly as an objective of the European Union's foreign policy In promoting this aim the EU's geographical focus has rested primarily in its beleaguered backyard to the south and to the east Taking a strong comparative approach Nathalie Tocci explores the principal determinants of conflict dynamics in Cyprus Turkey Serbia Montenegro Israel Palestine and Georgia in order to assess the impact of EU contractual ties on them The volume includes topical analysis based on first hand experience in depth interviews with all the relevant actors and photography in ongoing conflict areas in the Middle East the Eastern Mediterranean the Balkans and the Caucasus This revealing study shows that the gap between EU potential and effectiveness often rests in the specific manner in which the EU collectively chooses to conduct its contractual relations The EU and Conflict Resolution will be of interest to all readers who wish to acquire an excellent understanding of the EU's impact on conflict contexts and will appeal to scholars of European politics security studies and conflict resolution

European Foreign and Security Policy Catherine Gegout,2010-05-08 The European Union's EU Common Foreign and Security Policy CFSP stipulates that all member states must unanimously ratify policy proposals through their representatives on the EU Council Intergovernmentalism or the need for equal agreement from all member nations is used by many political scientists and policy analysts to study how the EU achieves its CFSP However in *European Foreign and Security Policy* Catherine Gegout modifies this theory arguing instead for analyses based on what she terms constrained intergovernmentalism Gegout's theory of constrained intergovernmentalism allows for member states in particular France Germany and the United Kingdom to bargain with one another and to make rational decisions but also takes into account the constraints imposed by the United States the European Commission and the precedents set by past decisions Three in depth case studies of CFSP decision making support her argument as she examines the EU position on China's human rights record EU sanctions against Serbia and EU relations with NATO Federalism in a Changing World Raoul Joseph

The Foreign Policy of the European Union Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union s foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU s key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and argues that the EU s foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU s external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website eufp.eu this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners

Between Compliance and Particularism Marton Varju, 2019-02-08 The book examines how the interests of the member states which provide the primary driving force for developments in European integration are internalised and addressed by the law of the European Union In this context member state interests are taken to mean the policy considerations economic calculations local socio cultural factors and the raw expressions of political will which shape EU policies and determine member state responses to the obligations arising from those policies The book primarily explores the junctions and disjunctions between member state interests defined in such a manner and EU law where the latter expresses either an obligation for the member states to comply with common policies or an acceptance of member state particularism under the common EU framework

The EU Presence in International Organizations Spyros Blavoukos, Dimitris Bourantonis, 2010-10-04 This study provides a comprehensive discussion of all aspects of the European Union presence in International Organisations IOs The editors seek to explore both the political and institutional implications of the EU s interaction with IOs and the effect of the EU s presence on the functioning of the respective IOs The result of an international workshop with an outstanding line up of experts the book discusses a range of issues including The Impact of the EU security contributions to IO s such as the OSCE NATO and the UN and the EU s role in decision making The role of

EU US relations in the development of major International Organisations Participation in the Doha Development agenda and the EU s relationship with the WTO The issues of leadership and coherence within and outside the EU The growing international relationship with the African Union and the more troubled supporting role of the Commonwealth Approaching the EU s international interactions from different theoretical and analytical angles this work clearly discusses the broad spectrum of issues that surround the evolution and future of the European Union in an international context EU Security Missions and the Israeli-Palestinian Conflict Amr Nasr El-Din, 2016-12-19 This book explores and analyses the various factors that affected the formulation of the common EU policy towards the Middle East Peace Process MEPP as well as the specifics of the process by which the EU created EUPOL COPPS and EUBAM Rafah It answers two central questions firstly why and how did the EU decide to create and deploy these missions Secondly where do these two missions fit into the general EU approach to the conflict in the Middle East Based on confidential interviews with various actors in the process uniquely granted to the author it reveals the mechanics of decision making behind the scenes and argues that the EU decision to expand its role in the MEPP through the creation of the two missions was closely related to the EU s defined common interests in the Middle East Further it shows the missions were mainly the result of the EU s already established approaches to further its role in the international political arena This text will be of key interest to scholars and students of European foreign policy EU Politics Middle East politics and studies foreign policy analysis and more broadly to international relations
