## European Odes:

European Odes Jenő Platthy, 1985-01-01      **The Architecture of European Codes and Contract Law** Stefan Grundmann, Martin Schauer, 2006-01-01 The nineteen outstanding contributors to this deeply insightful book concur in envisioning a fundamentally new systematic concept of contract law that while preserving the essential and architecture of the existing European codes would nonetheless find cogent ways to integrate such modern developments as mass transactions chains and networks of contracts regulation of markets and contracts to protect consumers and service and long term contracts into an optional European code The book is organised along three major avenues and the systematic arrangement of a contract law code how it deals with core questions of formation and performance or breach of contract such as mistake and misrepresentation standard contract terms and remedies in the case of breach of contract and the apparent necessity to merge consumer contract law i e such issues as product safety and liability warranties and consumer debt and insolvency with traditional core contract law concepts and and the importance to substantive contract law of the pre contractual phase in which information duties are becoming steadily more paramount The authors perspectives cover a wide range of jurisdictions including new EU Member States The book and s commitment to an integration of comparative law EC law and the debate on European codification offers practitioners and academics fertile ground for the development of a new model of contract law that is more than a common denominator of what has been in force so far This model may serve as a basis for Europe wide and perhaps even worldwide discussion      The Different Systems of Penal Codes in Europe H. S. Sanford, 1854      European Identity Ireneusz Pawel Karolewski, Viktoria Kaina, 2006 Despite its unequalled history of success the European Union is still far from its citizens In the aftermath of the failed referenda on the European constitutional treaty in France and the Netherlands in the early summer of 2005 the EU is facing a severe crisis of trust Hence the questions arise how much pressure can the community tolerate in order to persist and what does hold it together in times of scarcity conflict danger and threat The contributions of this volume do not only provide a variety of conceptualizations of European identity in the broad field of social sciences such as sociology political theory and international relations but first and foremost intend to enrich the present research by offering new theoretical perspectives and recent empirical findings      The Visual Dominant in Eighteenth-Century Russia Marcus C. Levitt, 2011-10-01 The Enlightenment privileged vision as the principle means of understanding the world but the eighteenth century Russian preoccupation with sight was not merely a Western import In his masterful study Levitt shows the visual to have had deep indigenous roots in Russian Orthodox culture and theology arguing that the visual played a crucial role in the formation of early modern Russian culture and identity Levitt traces the early modern Russian quest for visibility from jubilant self discovery to serious reflexivity to anxiety and crisis The book examines verbal constructs of sight in poetry drama philosophy theology essay memoir that provide evidence for understanding the special character of vision of the epoch Levitt s groundbreaking work represents both a new reading of

various central and lesser known texts and a broader revisualization of Russian eighteenth century culture Works that have considered the intersections of Russian literature and the visual in recent years have dealt almost exclusively with the modern period or with icons The Visual Dominant in Eighteenth Century Russia is an important addition to the scholarship and will be of major interest to scholars and students of Russian literature culture and religion and specialists on the Enlightenment

The European Unfair Commercial Practices Directive Willem van Boom,Amandine Garde,2016-02-11 One of the most important EU consumer protection directives of the past decade the 2005 Unfair Commercial Practices Directive or UCPD is brought under examination in this stimulating volume Bringing together leading experts in the comparative law and consumer law domain the book discusses the impact of the Directive and whether the many possible issues identified at its inception have been borne out in practice Divided into four parts of Implementation Approximation and Harmonization Vulnerability The UCP Directive and Other Regimes and finally Enforcement the volume examines the various policy developments the growing body of case law the decisions of relevant national enforcement authorities as well as the legislative debates which have surrounded the implementation of the UCPD in Member States This book provides a valuable assessment of the impact of a major EU directive almost ten years after its adoption and as such will be of interest to academics legal practitioners and the judiciary working in the areas of European and Consumer law

Business Ethics in a New Europe John Mahoney,Elizabeth Vallance,1992-09-30 The new business opportunities and prospects emerging in Europe within the Common Market and other Western and European countries also raise important ethical challenges This work comprises a collection of ethical insights to enhance the conduct of business in an evolving Europe

**The Foundations of European Private Law** Roger Brownsword,Hans-W Micklitz,Leone Niglia,Stephen Weatherill,2011-09-19 There remains an urgent need for a deeper discussion of the theoretical political and federal dimensions of the European codification project While much valuable work has already been undertaken the chapters in this volume take as their starting point the proposition that further reflection and critical thought will enhance the quality and efficacy of the on going work of the various codification bodies The volume contains chapters by representatives of the Common Frame of Reference the Study Group and the Acquis Group as well as by those who have not been involved in particular projects but who have previously commented more distantly on their work for instance those belonging to the Trento Group and the Social Justice Group The chapters between them represent the most comprehensive attempt so far to survey the state of the codification project its theoretical political and federal foundations and the future prospects for enforcement and compliance

**Citizens and the European Polity** David Sanders,Pedro Magalhaes,Gabor Toka,2012-07-26 Citizens and the European Polity reviews empirical data covering nearly forty years in the development of the Union and shows how comparable challenges in the past shaped public opinion towards integration and via that the process of integration itself

European Identity and Culture Markus Thiel,2016-07-22 As the EU continues its integration process the concepts of culture and transnational European

belonging remain ambivalent whether in the realm of socio historical representation or mass politics Engaging with recent scholarly debates surrounding the formation of collective transnational identities this collection draws on the latest empirical case studies to explore the meaning and composition of European identity the mechanisms that create and shape it and the question of whom it includes Each author pays close attention to the cultural aspects of identity formation whether manifested in official institutional articulations such as symbols coinage ceremonies and discursive manifestations or in the cultures of the everyday such as through new forms of communication networks consumption or leisure Exploring attempts by various actors institutions groups individuals to create transnational European identities European Identity and Culture scrutinizes the cultural formations that have either reignited or emerged in often contradictory relations to the EU project including local regional and transnational allegiances A rich interdisciplinary investigation of the role of culture in the formation of European identity whether as a central building block to unity or as a formidable obstacle to a common sense of purpose this book will be of interest to scholars across the social sciences and humanities working on questions of political culture European integration citizenship and trans national identity
