European Union International Organizations:

The European Union and International Organizations Knud Erik Jørgensen, 2009-01-08 This volume seeks to explore the complex relationship between the European Union and International Organizations and to fill a remarkably wide gap in existing literature on the topic Analysing the way in which the EU engages in some of the most important international organizations this book outlines a framework for analysis within this thriving subject of study By demonstrating how the EU supports effective multilateralism and global governance as well as furthering developments within foreign policy this volume adopts a novel perspective on the EU as an international player Seeking to move the focus of study beyond the European Union as itself an international organization contributors set out to demonstrate EU aspirations to act within international organizations The volume s key features include the first comprehensive study on this topic eight case studies of the EU including its role within the UN WTO NATO and the ICC contributions from both internationally renowned political scientists and economists The European Union and International Organizations will be of vital interest to students and scholars of international relations European Politics Political Science and International Organisations It will also be of interest to a wider readership including policy makers diplomats and journalists International Organizations Clive Archer, 2001 The third edition of Clive Archer s widely used textbook continues to provide students with an introduction to international organisations exploring their increasing significance in the modern international political systems **The EU Presence in International Organizations** Spyros Blavoukos, Dimitris Bourantonis, 2010-10-04 This study provides a comprehensive discussion of all aspects of the European Union presence in International Organisations IOs The editors seek to explore both the political and institutional implications of the EU s interaction with IOs and the effect of the EU s presence on the functioning of the respective IOs The result of an international workshop with an outstanding line up of experts the book discusses a range of issues including The Impact of the EU security contributions to IO s such as the OSCE NATO and the UN and the EU s role in decision making The role of EU US relations in the development of major International Organisations Participation in the Doha Development agenda and the EU s relationship with the WTO The issues of leadership and coherence within and outside the EU The growing international relationship with the African Union and the more troubled supporting role of the Commonwealth Approaching the EU s international interactions from different theoretical and analytical angles this work clearly discusses the broad spectrum of issues that surround the evolution and future of the European Union in an international context The European Union with(in) International Organisations Amandine Orsini, 2016-03-16 Since its creation the European Union EU has been a participant in the activities of other International Organisations IOs or has been working together with them Still little information is available on what this long term involvement with in IOs means for International Relations and European Studies Why has the EU been involved with in IOs on such a long term basis How With what impact These three key research questions are addressed in this innovative volume

in a bid to explore the continuity of EU action with in IOs While written by a diversity of authors from European Studies or from International Relations Europeans or non Europeans and from a diversity of disciplines in particular Law and Political Science each chapter of the volume elaborates on three common political concepts derived from three fold questioning commitment for the why question consistency for the how question and effects for the question of impact Consisting of a two part structure the book is focussed in Part I on more general trends of the EU s long term participation with in IOs with contributions by A Wetzel P Debaere F De Ville J Orbie B Saenen and J Verschaeve and P Nedergaard and M D Jensen and in Part II on more precise case studies on labour standards public services flexicurity human trafficking and security with contributions by R Kissack A Crespy E Xiarchogiannopoulou and D Tsarouhas B Simmons and A DiSilvestro and N Gr ger Highly useful for students academics and experts this volume combines a clear and easy to use framework with new empirical data The European Union in International Organisations and Global Governance Christine Kaddous,2015-09-24

The European Union is a key participant in international organisations with its involvement taking different forms ranging from full membership to mere observer Moreover there is also not only one status of observer but different ones depending on the constituent charters of the organisations This book provides a comprehensive overview of the participation of the EU in five international organisations the UN the ILO the WTO the WHO and the WIPO It identifies its role and influence in diverse areas of global governance such as foreign policy peace human rights social rights trade health and intellectual property EU and international experts diplomats and scholars have contributed to this book to give an overview of the different aspects linked to the participation of the EU in these organisations and to the coordination that takes place internally with its Member States They also examine the EU s actual influence in the various areas and its contribution to global governance The combination of these two dimensions allows the work to identify the strengths and weaknesses of the participation of the EU in these five international organisations The book provides valuable insights for scholars policymakers and is useful for representatives of other international organisations and civil society actors **Research Handbook on**

the European Union and International Organizations Ramses A. Wessel,Jed Odermatt, Over the years the European Union has developed relationships with other international institutions mainly as a result of its increasingly active role as a global actor and the transfer of competences from the Member States to the EU This book presents a comprehensive and critical assessment of the EU s engagement with other international institutions examining both the EU s representation and cooperation as well as the influence of these bodies on the development of EU law and policy The Influence of

International Institutions on the EU O. Costa,K. Jørgensen,2012-04-05 An exploration of how the EU is influenced by multilateral institutions There has recently been a dramatic increase in interaction between the EU and multilateral institutions This book shows that international institutions shape EU policies as well as acting as a source of preferences and strategies for EU stances internationally The European Union and International Organizations Knud Erik Jørgensen,2010

This book launches a research agenda for the EU IO relationship and provides a comprehensive understanding of the EU's policy in this area. It features case studies on the UN, IMF, WTO, NATO, OSCE, ILO and the ICC. *International Organizations and Military Affairs* Hylke Dijkstra, 2016-02-05. From the UN Department of Peacekeeping Operations to the NATO International Staff and the European External Action Service, international bureaucrats make decisions that affect life and death. In carrying out their functions, these officials not only facilitate the work of the member states but also pursue their own distinct agendas. This book analyzes how states seek to control secretariats when it comes to military operations by international organizations. It introduces an innovative theoretical framework that identifies different types of control mechanisms. The book presents six empirical chapters on the UN, NATO and EU secretariats. It provides new data from a unique dataset and in-depth interviews. It shows that member states employ a wide range of control mechanisms to reduce the potential loss of influence. They frequently forfeit the gains of delegation to avoid becoming dependent on the work of secretariats. Yet while states invest heavily in control, this book also argues that they cannot benefit from the services of secretariats and keep full control over outcomes in international organizations. In their delegation and control decisions, states face trade-offs and have to weigh different cost categories: the costs of policy, administrative capacity and agency loss. This book will be of interest to scholars, postgraduates and officials in international organizations and national governments dealing with questions of international political economy, security studies and military affairs. *The EU Presence in International Organizations* Spyros Blavoukos, Dimitris Bourantonis, 2010-10-04. This study provides a comprehensive discussion of all aspects of the European Union's presence in International Organisations (IOs). The editors seek to explore both the political and institutional implications of the EU's interaction with IOs and the effect of the EU's presence on the functioning of the respective IOs. The result of an international workshop with an outstanding line-up of experts, the book discusses a range of issues including: The Impact of the EU's security contributions to IOs such as the OSCE, NATO and the UN; and the EU's role in decision-making. The role of EU-US relations in the development of major International Organisations; Participation in the Doha Development agenda and the EU's relationship with the WTO. The issues of leadership and coherence within and outside the EU. The growing international relationship with the African Union and the more troubled supporting role of the Commonwealth. Approaching the EU's international interactions from different theoretical and analytical angles, this work clearly discusses the broad spectrum of issues that surround the evolution and future of the European Union in an international context. *International Organizations and Member State Responsibility* Ana Sofia Barros, Cedric Ryngaert, Jan Wouters, 2016-11-21. *International Organizations and Member State Responsibility: Critical Perspectives* is the first international public law book entirely devoted to the topic of member state responsibility. Throughout its ten contributions, it takes stock of the legal developments brought about by the International Law Commission's work on international responsibility and critically unveils the major remaining conceptual gaps in the field. The novel approaches

offered in the book serve as a repository of the various understandings within academia and legal practice that reflect the evolution of the contemporary law of international member state responsibility Contributors Ana Sofia Barros Cedric Ryngaert Jan Wouters Antonios Tzanakopoulos Catherine Brilmann Esa Paasivirta Francesco Messineo Ige Dekker Jean d'Aspremont Niels Blokker Paolo Palchetti Ramses Wessel Tom Dannenbaum This Volume was previously published as International Organizations Law Review Vol 12 issue 2 2015

The Performance of the EU in International Institutions Sebastian Oberthür, Knud Erik Jørgensen, Jamal Shahin, 2013-09-13 The Performance of the EU in International Institutions marks one of the first attempts to systematically analyse the subject It focuses on the role of the EU in decision making within international organizations and regimes as a major locus of global governance The book unpacks the concept of EU performance into four core elements effectiveness goal achievement efficiency ratio between outputs accomplished and costs incurred relevance of the EU for its priority stakeholders and financial resource viability the ability of the performing organization to raise the funds required Based on the case studies herein the findings presented in this book relate to the identified core elements of performance with a particular emphasis on the dimensions of effectiveness and relevance Most notably the EU appears on balance and over the past two decades to have become much more relevant for its member states when acting within international institutions The book highlights four particular factors explaining EU performance in international institutions the status of relevant EU legislation and policies the legal framework conditions including the relevant changes that the Lisbon Treaty has brought about domestic EU politics and the international context This book was originally published as a special issue of the Journal of European Integration

International Organizations and Implementation Jutta Joachim, Bob Reinalda, Bertjan Verbeek, 2007-11-19 This edited volume assesses the impact of international organizations in the implementation of internationally agreed policies

Emergency Powers of International Organizations Christian Kreuder-Sonnen, 2019-11-21 Emergency Powers of International Organizations explores emergency politics of international organizations IOs It studies cases in which based on justifications of exceptional necessity IOs expand their authority increase executive discretion and interfere with the rights of their rule addressees This IO exceptionalism is observable in crisis responses of a diverse set of institutions including the United Nations Security Council the European Union and the World Health Organization Through six in depth case studies the book analyzes the institutional dynamics unfolding in the wake of the assumption of emergency powers by IOs Sometimes the exceptional competencies become normalized in the IOs authority structures the ratchet effect In other cases IO emergency powers provoke a backlash that eventually reverses or contains the expansions of authority the rollback effect To explain these variable outcomes this book draws on sociological institutionalism to develop a proportionality theory of IO emergency powers It contends that ratchets and rollbacks are a function of actors ability to justify or contest emergency powers as disproportionate The claim that the distribution of rhetorical power is decisive for the institutional outcome is tested against

alternative rational institutionalist explanations that focus on institutional design and the distribution of institutional power among states The proportionality theory holds across the cases studied in this book and clearly outcompetes the alternative accounts Against the background of the empirical analysis the book moreover provides a critical normative reflection on the anti constitutional effects of IO exceptionalism and highlights a potential connection between authoritarian traits in global governance and the system s current legitimacy crisis International Institutions Lisa L. Martin, Beth A. Simmons, 2001 A wide range of theoretical and empirical approaches to international institutions

International Institutions and Socialization in Europe Jeffrey T. Checkel, 2007-02-19 Since the path breaking work of Karl Deutsch on security communities and Ernst Haas on European integration it has been clear that international institutions may create senses of community and belonging beyond the nation state Put differently they can socialize Yet the mechanisms underlying such dynamics have been unclear This volume explores these mechanisms of international community building from a resolutely eclectic stand point Rationalism is thus the social theory of choice for some contributors while others are more comfortable with social constructivism This problem driven perspective and the theoretical bridge building it are the cutting edge in international relations theory By providing more finely grained arguments on precisely how international institutions matter such an approach sheds crucial light on the complex relationship between states and institutions between rational choice and social constructivism and in our case between Europe and the nation state *Routledge Handbook on the European Union and International Institutions* Knud Erik Jørgensen, Katie Verlin Laatikainen, 2013 This Handbook addresses the increasingly contested issue of profound political importance Europe s presence in multilateral institutions It assesses both the evolving role of Europe in international institutions and the transformations in international institutions themselves

The European Union's External Action in Times of Crisis Piet Eeckhout, Manuel Lopez-Escudero, 2016-12-01 The Lisbon Treaty modified the legal framework of EU external action and these innovations must be applied in a period of deep economic and financial crisis interacting with other more specific crises affecting the EU s external activities This volume investigates the recent institutional and substantive developments in EU external relations law and practice in this context of multiple crises for the EU The economic and financial crisis has a major impact on EU external action but other crises too affect this sensitive area of the EU s activity and the book takes them into account For instance there is a crisis in the relationship between EU law and international law after the ECJ judgement in the Kadi case In addition to exploring these questions the volume also examines questions of legitimacy in fields such as foreign investment protection and arbitration Representing the output of a powerful research team composed of leading scholars in the field this comprehensive collection will appeal to both an expert and non expert readership The European Union's Emerging International Identity Henri de Waele, Jan-Jaap Kuipers, 2013-06-06 The European Union officially acquired international legal personality with the entry into force of the Lisbon Treaty Since then the constitutional foundations of EU external relations have received an ever greater

amount of scholarly attention So far however the body of knowledge has remained limited with regard to how the Union is actually being perceived on the global scene Moreover its dealings with other international organizations constitute a similar still underexplored topic The European Union s Emerging International Identity breaks new ground by addressing both these themes in combination The resulting volume offers an innovative inquiry into the EU s image and status based on a select number of studies of its position and functioning within the framework of eight international organizations

International Organizations and the Law of the Sea 2000 Barbara Kwiatkowska, Harm Dotinga, Erik J. Molenaar, Alex G. Oude Elferink, Alfred H.A. Soons, 2021-10-25 Now in its 16th year the NILOS Documentary Yearbook provides the reader with an excellent collection of documents related to ocean affairs and the law of the sea issued each year by organizations organs and bodies of the United Nations system Documents of the UN General Assembly Meeting of States Parties to the UN Law of the Sea Convention CLCS ISBA ITLOS Follow Up to the UN Small Island States Conference ECOSOC UNEP and UNCTAD are included first followed by the documents of FAO IAEA ILO IMO and UNESCO IOC As in the previous volumes documents which were issued in the course of 2000 are reproduced while other relevant documents are listed The NILOS Documentary Yearbook has proved to be of invaluable assistance in facilitating access by the international community of scholars and practitioners in ocean affairs and the law of the sea to essential documentation The entry of the 1992 UN Law of the Sea Convention into force on 16 November 1994 and of the Part XI Agreement on 28 July 1996 as well as of the UN Fish Stocks Agreement on 11 December 2001 coupled with the review of the UNCED Agenda 21 at the 2002 Johannesburg World Summit make continuation of this assistance of particular significance in the years to come The members of the Yearbook s Advisory Board are Judges Abdul Koroma and Shigeru Oda of the ICJ UNDOALOS Director Mrs Annick de Marffy Judges Thomas Mensah Dolliver Nelson and Tullio Treves of the ITLOS as well as Rosalie Balkin Edward Brown Lee Kimball Bernard Oxman and Shabtai Rosenne
