European Past:

A European Past Felix Gilbert, 1988 World renowned historian and eyewitness to history Felix Gilbert offers in his memoirs a unique perspective on the events of the 20th century He recalls his childhood during the end of the Austro Hungarian Empire and vividly describes the devastation of his native Germany by the Nazis *The Future of the European Past* Hilton Kramer, Roger Kimball, 1997-08 Ten distinguished observers confront the pervasive attack on the moral and cultural achievements of European civilization and reflect on the fate of Europe's legacy Caustic and convincing a thought provoking collection of essays Norman Davies Wall Street Journal Singlewomen in the European Past, 1250-1800 Judith M. Bennett, Amy M. Froide, 2013-02-01 When we think about the European past we tend to imagine villages towns and cities populated by conventional families married couples and their children Although most people did marry and pass many of their adult years in the company of a spouse this vision of a preindustrial Europe shaped by heterosexual marriage deceptively hides the well established fact that in some times and places as many as twenty five percent of women and men remained single throughout their lives Despite the significant number of never married lay women in medieval and early modern Europe the study of their role and position in that society has been largely neglected Singlewomen in the European Past opens up this group for further investigation It is not only the first book to highlight the important minority of women who never married but also the first to address the critical matter of differences among women from the perspective of marital status Essays by leading scholars among them Maryanne Kowaleski Margaret Hunt Ruth Mazo Karras Susan Mosher Stuard Roberta Krueger and Merry Wiesner deal with topics including the sexual and emotional relationships of singlewomen the economic issues and employment opportunities facing them the differences between the lives of widows and singlewomen the conflation of singlewomen and prostitutes and the problem of female slavery The chapters both illustrate the roles open to the singlewoman in the thirteenth through eighteenth centuries and raise new perspectives about the experiences of singlewomen in earlier times **Poor Women and Children in the European Past** John Henderson, Richard Wall, 1994 Women and children have always featured prominently among the critically disadvantaged Poor Women and Children in the European Past provides a comparative survey of the poverty experienced by women and children in Europe by testing the applicability of the outline of the poverty life cycle Among the issues raised in a perceptive and wide ranging introduction by the editors John Henderson and Richard Wall are the distinctive nature of women's poverty over the life cycle the relationship between family and demographic systems and the level of poverty and the relative generosity of public and private charity provided by a range of European societies **Mobility in the Russian, Central and East European Past** Róisín Healy, 2019-03-07 The new mobilities paradigm which emerged at the beginning of the twenty first century has identified mobility as a process intrinsic to the human experience and fundamental to the formation of social and political structures This volume breaks new ground by demonstrating the role of the journey as a key motor of

human development in Russia central and east Europe in the modern period It does so by means of twelve case studies that examine different types of movement both voluntary and involuntary temporary and permanent short and long distance into out of and around the region **Mastering the European Past: Tools and Tactics for Success** Pasquale De

Putte,2024-02-28 This book investigates the entanglement of memory and morality in an extended case study of the memory policy of the European Commission between 2014 and 2020 The main empirical aim is to provide an understanding of how the European Commission various non governmental intermediary institutions including the Memory Studies Association and Euroclio and in the end participants in policy projects attribute meaning to the past and connect that past with specific norms and values The book queries how the European Commission turns more general cultural memories into concrete moral discourses in its memory policy how these policies are institutionally operationalised what draws these institutions to the European Commission s memory policy and what happens when individual citizens are exposed to the outcomes of those policy projects Theoretically Outsourcing the European Past integrates theories from cultural sociology political science cultural studies and sociolinguistics in an innovative theory of memory [Eurocentrism in European History and Memory](#)

Marjet Brolsma,Robin Bruin,Matthijs Lok,2025-10-01 Eurocentrism means seeing the world in Europe s terms and through

European eyes This may not be unreasonable for Europeans but there are unforeseen consequences Eurocentric history implies that a scientific modernity has diffused out from Europe to benefit the rest of the world through colonies and development aid It involves the imposition of European norms on places and times where they are often quite inappropriate In Eurocentrism in European History and Memory well known scholars explore and critically analyse manifestations of Eurocentrism in representations of the European past from different disciplines history literature art memory and cultural policy as well as from different geographical perspectives The book investigates the role imaginings of the European past since the eighteenth century played in the construction of a Europeanist worldview and the ways in which Europe was constructed in literature and art

European Memory and Conflicting Visions of the Past Mano Toth, 2021-10-25 This book discusses a number of ways in which the dialogue about Europe's past and future could be rendered more inclusive such as the promotion of critical and sentimental education and the creation of virtual and actual social spaces in which citizens and organised identity groups can participate The discussion about European memory is far from being a merely symbolic issue with no political consequences Imagining Europe and its past in different ways will lead to different real political outcomes For instance thinking about European integration as an embodiment of the values of the Enlightenment such as human rights liberal democracy and reason as a guarantor of peace on the continent as a guarantor of prosperity or as a guarantor that massive human rights violations like genocide will never again be committed on its soil all entail different political objectives Similarly conflicting understandings of European memory as either a thing or a social construct as either one memory or a plurality of memories as either the end point of deliberation or a dialogical process represent not merely inconsequential cultural froth on the tides of society but crucially important issues with real political consequences The book is intended to contribute to this discussion about the common European approach to the past and thus to the future

American Jewry and the Re-Invention of the East European Jewish Past Markus Krah, 2017-11-20 The postwar decades were not the golden era in which American Jews easily partook in the religious revival liberal consensus and suburban middle class comfort Rather it was a period marked by restlessness and insecurity born of the shock about the Holocaust and of the unprecedented opportunities in American society American Jews responded to loss and opportunity by obsessively engaging with the East European past The proliferation of religious texts on traditional spirituality translations of Yiddish literature historical essays photographs and documents of shtetl culture theatrical and musical events culminating in the Broadway musical Fiddler on the Roof illustrate the grip of this past on post 1945 American Jews This study shows how American Jews reimagined their East European past to make it usable for their American present By rewriting their East European history they created a repertoire of images stories and ideas that have shaped American Jewry to this day

The Political History of European Integration Hagen Schulz-Forberg, Bo Stråth, 2014-06-03 The Maastricht Treaty in 1992 was based on neoliberal ideas of a market driven European economy and democracy and continues to be seen as a step towards a new

stage of unification towards a more federal Europe based on market integration The authors demonstrate that European integration as a federal project actually came to an end around 1970 The European Economic Community EEC the precursor of EU was never thought of as a democracy The authors locate a shift in thinking about legitimacy and further integration in the 1980s when the idea of a European democracy was connected with a plan for the internal market the market would pave the way for democracy Since then there has been a growing tension between the official line about a democratic EU and the institutional capacity to carry it through This tension undermined integration The book suggests that instead of democracy through market there are signs of increasing social disintegration political extremism and populism in the wake of economic integration Providing a more realistic historical understanding of European integration this book will be of interest to students and scholars of political science history and European studies Outlines of European History: From the opening of the eighteenth century to the present day James Harvey Robinson, James Henry Breasted, Charles Austin Beard, 1912

Philosophy, Society and the Cunning of History in Eastern Europe Costica Bradatan, 2013-09-13 Philosophy Society and the Cunning of History in Eastern Europe charts the intellectual landscape of twentieth century East Central Europe under the unifying theme of precariousness as a mode of historical existence Caught between empires often marked by catastrophic historic events and grand political failures the countries of East Central Europe have for a long time developed a certain intellectual self representation a culture that not only helps them make some sense of such misfortunes but also protects them somehow from a collapse into nihilism An interdisciplinary study of this sophisticated culture of survival and endurance has been long overdue Not only is it charming and worth studying in its own right but with the re integration of the new Europe into the old one and the emergence on the Western European intellectual scene of many authors from the East such a culture will also shape the European mind of the 21st century This volume decodes and explores this culture of precariousness from the complementary angles of philosophy political theory intellectual history and literary studies Expert contributors look at a wide range of topics from philosophical martyrdom to collective suffering to geographical fatalism and explore the works of key authors in the field including Cioran Ko akowski Kert sz Bauman and i ek This book was originally published as a special issue of Angelaki The Journal of the Theoretical Humanities History John Higham, Leonard Krieger, Felix Gilbert, 2016-04-14 This book originally published in 1977 is a survey of European historiography from its

origins in the historians of Greece and Rome through the annalists and chroniclers of the middle ages to the historians of the late eighteenth century The author concentrates on those writers whose works fit into a specific category of writing or who have influence the course of later historical writing though he does deal with some of the more specialist forms of medieval historiography such as the crusading writers and chivalrous historians like Froissart He maintains that modern history did not develop until the 18th Century Art History and Visual Studies in Europe Matthew Rampley,Thierry Lenain,Hubert Locher,2012-06-22 This book undertakes a critical survey of art history across Europe examining the recent conceptual and methodological concerns informing the discipline as well as the political social and ideological factors that have shaped its development in specific national contexts
