The Eurovision Song Contest 50 Years John Kennedy O'Connor, 2006 The fun and the feuds the high points the dismal lows the scandals the most outrageous outfits the innovators and the copy cats this glorious book captures the singular flavour of Eurovision charting its journey from the first competition in 1956 just seven entrants broadcast from a tiny venue in Switzerland with a studio audience of 200 to the international extravaganza watched by 300 million viewers that it has become today It s a completely unique event in modern pop music with its own agenda entirely that has spawned almost as many anti heroes as it has stars Updated to include Eurovision s 50th birthday in 2005 and illustrated throughout with colour and black and white photos and rare memorabilia including artwork for singles this book is a nostalgic and resplendent celebration of an at times eccentric competition that is adored by hundreds of millions around the world *Empire of Song* Dafni Tragaki, 2013-07-11 The Eurovision Song Contest ESC is more than a musical event that ostensibly unites European people through music It is a spectacle a performative event that allegorically represents the idea of Europe Since its beginning in the Cold War era the contest has functioned as a symbolic realm for the performance of European selves and the negotiation of European identities Through the ESC Europe is experienced felt and imagined in singing and dancing as the interplay of tropes of being local and or European is enacted In *Empire of Song* Europe and Nation in the Eurovision Song Contest contributors interpret the ESC as a musical mediascape and mega event that has variously performed and performs the changing visions of the European project Through the study of the cultural politics of the ESC contributors discuss the ways in which music operates as a dynamic nexus for making national identities and European sensibilities generating processes of assimilation or integration and defining the celebrated notion of the European citizen in a global context Scholars in the volume also explore the ways otherness and difference are produced spectacularized challenged or even neglected in the televised musical realities of the ESC For the contributing authors song serves as a site for constituting Europe and the nation on and offstage History and politics as well as the constant production of European subjectivities are sounded in song The Eurovision song is a shifting realm where old and new states imagine their pasts question their presents and envision ideal futures in the New Europe Essays in *Empire of Song* adopt theoretical and epistemological orientations in their exploration of popular music within ethnomusicology and critical musicology questioning the idea of Europe and the nation through and in music at a time when the European self appears more fragmented if not entirely shattered Bringing together ethnomusicology music studies history social anthropology feminist theory linguistics media ethnography postcolonial theory comparative literature and philosophy *Empire of Song* will interest students and scholars in a vast array of disciplines **Bloomsbury Encyclopedia of Popular Music of the World, Volume 11** David Horn, 2017-10-05 See

Musical Style and Social Meaning Derek B. Scott, 2017-07-05 Why do we feel justified in using adjectives such as romantic erotic heroic melancholic and a hundred others when speaking about music How do we locate these meanings within particular musical styles These are questions that have occupied Derek Scott s thoughts and driven his critical musicological research for many years In this selection of essays dating from 1995 2010 he returns time and again to examining how conventions of representation arise and how they become established Among the themes of the collection are

social class ideology national identity imperialism Orientalism race the sacred and profane modernity and postmodernity and the vexed relationship of art and entertainment A wide variety of musical styles is discussed ranging from jazz and popular song to the symphonic repertoire and opera *Another Song for Europe* Ivan Raykoff,2020-11-29 The Eurovision Song Contest is famous for its camp spectacles and political intrigues but what about its actual music With more than 1 500 songs in over 50 languages and a wide range of musical styles since it began in 1956 Eurovision features the most musically and linguistically diverse song repertoire in history Listening closely to its classic fan favorites but also to songs that scored low because they were too different or too far ahead of their time this book delves into the musical tastes and cultural values the contest engages through its international reach and popular appeal Chapters discuss the iconic fanfare that introduces the broadcast the supposed formulas for composing successful contest entries how composers balance aspects of sameness and difference in their songs and the tension between national genres of European popular music and musical trends beyond the nation s borders especially the American influences on a show that is supposed to celebrate an idealized pan European identity The book also explores how audiences interact with the contest through musicking experiences that bring people together to celebrate its sounds and spectacles What can seem like a silly song and dance show offers valuable insights into the bonds between popular music and cosmopolitan values for its many followers around the world From dance parties to flashmobs parodies to plagiarisms and orchestras to artificial intelligence *Another Song for Europe* will be of particular interest to Eurovision fans critics and scholars of popular music popular culture ethnomusicology and European studies

Focus: Music, Nationalism, and the Making of a New Europe Philip V. Bohlman,2010-09-13 Focus Music Nationalism and the Making of the New Europe surveys the intersection of music and nationalism by tracing its historical development and documenting its persistence today Contrasting different types of music reveals how music expresses core ideas of nationalism for example folk music in the nineteenth century and popular music in the twenty first **Performing the 'New' Europe** Karen Fricker,Milija Gluhovic,2013-05-13 Bringing together the voices of scholars from Europe and North America with those of key contest stakeholders *Performing the New Europe Identities Feelings and Politics in the Eurovision Song Contest* argues that this popular music competition is a symbolic contact zone between European cultures an arena for European identification in which both national solidarity and participation in a European identity are confirmed and a site where cultural struggles over the meanings frontiers and limits of Europe are enacted This exciting collection explores the ways in which European artists perform disavow and contest their racial national and sexual identities in the Eurovision Song Contest ESC and asks difficult questions about European inclusions and exclusions the contest reflects It suggests the ESC as an ever evolving network of peoples and places transcending both historical and geographical boundaries of Europe that brings into being new understandings of the relationship between culture space and identities *Post-Panslavismus* Agnieszka Gąsior,Lars Karl,Stefan Troebst,2014-03-03 Die Vorstellung einer Zusammengehörigkeit aller Slavischsprachigen

war nicht nur im 19. Jahrhundert wirkungsmächtig sondern hielt bis heute an. Sie blieb ein produktiver Mythos in Kunst, Musik und Literatur. Als transnationales Identifikationsmuster hatte dieses Phänomen auch im kurzen 20. Jahrhundert Konjunktur. Das Interesse der Autorinnen und Autoren des vorliegenden Bandes richtet sich auf unterschiedliche Formen der Identitätsbildung, die sich auf eine Slavische Idee bezogen. In den Blick genommen werden dabei nationale und internationale Diskurse, aber auch kritische Reaktionen, die sich gegen die Idee des Panslavismus bewusst abgrenzten, so etwa in Griechenland oder Italien.

Postwar Europe and the Eurovision Song Contest Dean Vuletic, 2018-01-25. Postwar Europe and the Eurovision Song Contest examines how the Eurovision Song Contest has reflected and become intertwined with the history of postwar Europe from a political perspective. Established in 1956, the Eurovision Song Contest is the world's largest popular music event and one of the most popular television programmes in Europe, currently attracting a global audience of around 200 million people. Eurovision is often mocked as cultural kitsch because of its over-the-top performances and frivolous song lyrics. Yet there is no cultural medium that connects Europeans more than popular music, the development of which has always been tied to cultural, economic, political, social and technological change, making Eurovision the ideal tool to explain the history of Europe in the last sixty years. This book uses Eurovision as a vehicle to address topics ranging from the Cold War, liberal democracy and communism to nationalism, European integration, economic prosperity and human rights. It analyses these subjects through their cultural, political and social relationships with Eurovision entries as expressed through lyrics and music, as well as by examining public debates that have accompanied the selection of the entries and the organisation of the contest itself. Postwar Europe and the Eurovision Song Contest also considers how states have used Eurovision to define their identities in a European context, be it to assert their national distinctiveness, highlight political issues or affirm their Europeanism or Euroscepticism in the context of European integration. Based on original sources, including hitherto unpublished archival documents from international broadcasting organisations, this is a novel historical study of interest to anyone keen to know more about the postwar history of Europe and its cultural history in particular.

Eurovisions: Identity and the International Politics of the Eurovision Song Contest since 1956 Julie Kalman, Ben Wellings, Keshia Jacotine, 2019-11-19. This book uses the Eurovision Song Contest (ESC) as an analytical entry point to understand and illuminate post-war Europe and the drive to create an identity that can legitimise the European project in its broadest sense. The ESC presents an idealised vision of Europe and this has long existed in a strained relationship with reality. While the trajectory of post-war European integration is a high-profile topic, we believe that the ESC offers a unique and innovative way to think about the role of culture in the history of post-war European integration and tensions between the ideal and reality of European unity. Through the series of case studies that make up the chapters in this book, analysis brings these interlinked tensions to light, exploring the roles of culture and identity alongside and in a productive conversation with the political and economic projects of post-war European integration.
