**Scenarios of Knowledge at Universities in Change** Anja Kraus, 2017 This volume presents some contributions to the 6th conference of the EERA network Tacit Dimensions of Pedagogy Education is Relation not Output Scenes of Knowledge and Knowledge Acquisition The symposium was motivated by the fact that some perspectives of Humanities for example those from the Educational and the Cultural

Sciences are not always present in the current discourses on university. Considering the point of view of these scientific disciplines, the idea of university and scholarly life means firstly to freely develop the idea of university. Secondly, it means to critically examine the conditions for academic work, e.g. in terms of current policy discourses. Fundamental for this is the idea of university as a society in which everyone is responsible for the shaping of her/his relationships to him/herself to others and to the world based on diverse forms of knowledge and knowledge representation. In this volume, this idea will be developed from historical, conceptual and practical perspectives.

**Scrutinising Polarisation** Tomas Berglund, Ylva Ulfsdotter Eriksson, 2024-05-30. This book scrutinises polarisation in Sweden, identifying patterns and variations in labour market transformation and exploring the consequences in terms of jobs, income, prestige, unionization, and employment security, as well as the effects on different social groups. Through a series of empirical studies, it sheds light on changes in the occupational structure and the ways in which these changes interact with other societal trends such as increased temporary employment, rising migration, and decreased unionization, whilst also exploring changes in the evaluation of occupations and attitudes towards trade unions. Drawing on distinctly sociological perspectives, it shows how transformations in society and the labour market have affected conditions for individuals and considers whether these changes reinforce existing inequalities occasioned by polarisation or create new ones. *Scrutinising Polarisation* considers whether and how the Swedish

labour market has polarized and if so what this means for individual employees and labour organizations It will therefore appeal to scholars with interests in the sociology of work and professions social inequalities and labour market transformations The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
