## **Evaluating Health Promotion Practice And Methods:**

Evaluating Health Promotion Margaret Thorogood, Yolande Coombes, 2004 Health Promotion is a relatively new discipline and there is little in the way of practical help for students and practitioners in choosing and implementing appropriate evaluation methods As the demands for rigorous evaluation and evidence based decision making increase health promotion cannot ignore the need for accurate reliable and valid methods to carry out evaluation This book provides clear descriptions with plentiful practical examples of such methods and the problems that can arise from their implementation The book sets the concepts of health promotion and of evaluation in their historical context and highlights key issues in the evaluation of health promotion interventions Both qualitative and quantitative methods that are commonly used are described and the problems and benefits that arise with their use are explained Experiences in the practical implementation of evaluation are explained with examples from a variety of different social economic and cultural contexts In this second edition new examples including evaluating social marketing and the difficulties of evaluating hidden problems such as intimate partner violence are explored

**Evaluating Health Promotion** David Scott, Ros Weston, 1998 The contributors provide a general overview of evaluation in initiatives designed to promote better health They highlight successful and unsuccessful campaigns and offer a coherent study of the theory and practice of evaluation in this discipline

**Health Promotion Practice** Will Nutland, Liza Cragg, 2015-05-16 This fully revised public health text offers students and practitioners a grounding in the practice of health promotion and introduces a range of methods that are used in health promotion practice It also helps to develop skills needed to do health promotion in a range of settings including project management partnership working needs assessment and evaluation Whether the public health intervention is through face to face contact with individuals or community based or involves strategic policy development this book now also explores recent developments in social media and web based health promotion interventions This second edition provides practical guidance and tools for planning delivering and evaluating health promotion gives greater emphasis to upstream health promotion interventions including Healthy Public Policy and health advocacy includes activities to help you make applications to your own study or practice of health promotion **Health Promotion Practice 2nd Edition** is an ideal resource for students of public health and health policy public health practitioners and policy makers **Understanding Public Health** is an innovative series published by Open University Press in collaboration with the London School of Hygiene Tropical Medicine where it is used as a key learning resource for postgraduate programmes It provides self directed learning covering the major issues in public health affecting low middle and high income countries Series Editors Rosalind Plowman and Nicki Thorogood
