The Whole Language Catalog Lois Bridges Bird, 1994 **Assessment and Evaluation in Whole Language Programs**
Bill Harp, 1991 *The Whole Language Evaluation Book* Kenneth S. Goodman, Yetta M. Goodman, Wendy J. Hood, 1989
Discusses strategies used for evaluating student growth in curricular areas that are consistent with principles of the whole language approach *Evaluation* Jane Baskwill, Paulette Whitman, 1988 Helps whole language teachers to evaluate students based on observing recording and interpreting what students are saying and doing on a daily basis Whole Language Evaluation Jill Eggleton, 1990 Jill Eggleton has written this book to give teachers practical ideas for evaluating and monitoring children's progress in reading writing and spelling in their classrooms A Whole Language Approach to Reading Instruction Using Curriculum Based Assessment Evaluation Procedures Judith L. Chalupa, James K. McAfee, 1990
Whole Language Lives On Louisa Cook Moats, 2000 This position paper contends that the whole language approach to reading instruction has been disproved by research and evaluation but still pervades textbooks for teachers instructional materials for classroom use some states language arts standards and other policy documents teacher licensing requirements and preparation programs and the professional context in which teachers work The paper finds that many who pledge allegiance to balanced reading continue to misunderstand reading development and to deliver poorly conceived ineffective reading instruction It argues that rooting out whole language from reading classrooms calls for effort on eight separate fronts The paper describes what whole language is why it is contradicted by scientific studies how it continues in education and what should be done to correct the situation Contains a glossary and 57 notes NKA **Study of Academic Instruction for Disadvantaged Students: Commissioned papers and literature review** Michael Sturgis Knapp, Patrick M. Shields, 1990 *Study of Academic Instruction for Disadvantaged Students: Commissioned papers and literature review* Brenda J. Turnbull, 1990 **Better Schooling for the Children of Poverty: Commissioned papers and literature review** Study of Academic Instruction for Disadvantaged Students (U.S.), 1990 **Theory and Practice of Whole Language** Doreen Dearing, 1994 **The Assessment of Special Educational Needs** Tony Cline, 2018-10-03 First published in 1992 Special educational needs are being defined in new ways Changing laws and perspectives in many countries present new challenges to practitioners The fundamental shift underlying all these changes is the idea that handicap is not an absolute phenomenon that special educational needs are relative to a person's environment Once this is accepted it is inevitable that there will be a radical re-examination of how such needs are identified and how they are assessed This book draws together a range of contributions from leading figures in special education worldwide to emphasise assessment in the service of prevention of teaching and of mainstreaming and integration It is not enough to understand children's individual strengths and weaknesses The primary objective of assessment is to guide intervention and for that purpose it must have a broader focus and not concentrate exclusively on the target individuals who appear to have

disabilities or learning difficulties the learning environment is equally important as a focus for assessment The book is divided into three sections that explore three broad themes empowering children and parents during the assessment process designing assessment so that it supports the integration and mainstreaming of children rather than their segregation and making improvements through specific approaches to assessment

Whole Language Teaching, Whole-hearted Practice Monica Taylor, 2007 This seminal collection brings together the multiple perspectives of whole language educators over the course of the past thirty five years The essays illustrate the complex ways in which whole language teachers have been and continue to be political activists through their interactions with students the teachers beliefs about teaching learning and curriculum their commitment to critical thinking and social justice their collaborative engagements with other teachers their role as leaders of change in schools and communities and finally their activism in society Although many believe that we are living in a climate where the term whole language is considered taboo the contributors to this book demonstrate hopefulness for the future of whole language as Yetta and Ken Goodman write in the concluding chapter whole language is alive and well

Instructional Models in Reading Steven A. Stahl, David A. Hayes, 2013-04-03 This book started with a simple idea examine models of reading instruction that have emerged during the past 20 years These models span a wide range of instruction representing a continuum from highly structured task analytic instruction to child centered and holistic instruction Each model has its own epistemology or views on how reading and instruction are to be defined The different epistemologies indicate different principles of instruction which in turn indicate different practices in the classroom Each model is also supported by a different research base In this volume leading proponents of these different models discuss their ideas about reading instruction thereby encouraging readers to make their own comparisons and contrasts The chapter authors seem to adopt the editors eclectic approach to some greater or lesser extent incorporating aspects of other models into their instruction as they see other goals Thus models of reading instruction are complex Complicating matters further is the fact that teachers hold their own models of reading which may or may not be congruent with those discussed here Although academically developed models influence college preservice and in service instruction teachers own models of reading filter the information that they take from what they learn from these perspectives By carefully examining these variables this book makes a firm contribution toward disciplined inquiry into what it means to teach reading
