Discourses Ursula Lutzky, Minna Nevala, 2019-10-21 This volume explores the concepts of reference and identity in public discourses. Its contributions study discourse specific reference and labelling patterns both from a historical and present day perspective and discuss their impact on self and other representation in the construction of identity. They combine multiple methodological approaches including corpus based quantitative as well as qualitative ones and apply them to a range of text types that are or were intended to be public such as letters, newspapers, parliamentary debates and online communication in the form of reader comments, discussion pages and tweets. In addition to English the languages studied include Polish as well as European and Latin American Spanish. The volume is aimed at researchers from different research paradigms in linguistics and related disciplines such as media communication or the social and cultural sciences who are interested in the interplay of reference and identity.

Tell Me a Story Elaine Reese PhD, 2013-05-29 In *Tell Me a Story* Dr Elaine Reese explains how storytelling is valuable for children's language, emotional development, coping, self concept and sense of belonging.

The Creation of Anne Boleyn Susan Bordo, 2013-04-09 This illuminating history examines the life and many legends of the 16th century Queen who was executed by her husband King Henry VIII. Part biography, part cultural history, *The Creation of Anne Boleyn* is a fascinating reconstruction of Anne's life and a revealing look at her afterlife in the popular imagination. Why is her story so compelling? Why has she inspired such extreme reactions? Was she the flaxen haired martyr of Romantic paintings or the raven haired seductress of twenty first century portrayals? Answer neither. But the most provocative question of all concerns Anne's death. How could Henry order the execution of a once beloved wife? Drawing on scholarship and critical analysis, Bordo probes the complexities of one of history's most infamous relationships. She then demonstrates how generations of polemicists, biographers, novelists and filmmakers have imagined and re imagined Anne: whore, martyr, cautionary tale, proto mean girl, feminist icon and everything in between. In *The Creation of Anne Boleyn*, Bordo steps off the well trodden paths of Tudoriana to tease out the human being behind the competing mythologies, paintings and on screen portrayals.

The Early Literacy Handbook Dominic Wyse, Christine Parker, 2013-03-27 The heart of this book is a new approach to the teaching of language and literacy. Its focus is exemplary classroom practice built on rigorous theory and evidence. The approach combines new theory and dynamic practice in its advocacy for contextualised teaching. This book shows how the teaching of smaller units of language such as sentences, words, letters and phonemes follows naturally from the context of whole texts. The book offers practical examples, photographs from settings, case studies and action points to help any practitioner working with young children to develop one of the most crucial life skills: advice on how to build on children's motivation using whole texts, clear guidance on phonics teaching in an appropriate context and a unique blend of new theory and dynamic practice.

Playing Indoors Will Tosh, 2018-02-22 What have we discovered about performance practice in the Sam Wanamaker Playhouse since the opening of the intimate candlelit theatre at Shakespeare's Globe? *Playing Indoors* reveals the results of a two year study into the performance of Elizabethan and Jacobean drama in this unique

theatre drawing together insights into early modern stage practice and the observations of today's actors and spectators. A history of the experiences of artists and audience members who experienced the space first: the book is also a study of the significance of reimagined theatres like the Sam Wanamaker Playhouse and the Globe. Accessibly written and intended for a wide audience of students, scholars, artists, and theatregoers, *Playing Indoors* is a valuable contribution to the young field of early modern practice as research.

Tudorism Tatiana C. String, Marcus Bull, 2011-12-22 In architecture, music, and literature in paintings, films, and television series in print and on the internet, the Tudors are a hugely popular commodity. This volume is the first to study this phenomenon in depth, assembling foremost scholars in multiple fields to examine why the Tudors still make such an impact.

Richard III Desmond Seward, 2014-07-15 With the victory of Henry Tudor, the usurping dynasty made an effort to besmirch the last Plantagenet's reputation, and some historians claim that Richard's black legend is nothing more than political propaganda. Yet such an interpretation as Desmond Seward shows in this powerfully argued book suggests a refusal to face the facts of history. Even in the king's lifetime, there were rumours about his involvement in the murders of Henry VI and of his nephews, the Princes in the Tower, while his reign was considered by many to be a nightmare not least for the king himself. The real Richard III was both a chilling and compelling monarch, a peculiarly grim young English precursor of Machiavelli's Prince. Sweeping aside sentimental fantasy, this is a colorful, authoritative biography that offers a definitive picture of both the age and the man.

Growing and Knowing: A Selection Guide for Children's Literature Mary Trim, 2005-04-25 No detailed description available for *Growing and Knowing: A Selection Guide for Children's Literature*.

Hollywood and History Jem Duducu, 2023-09-15 There is no shortage of Hollywood films about historical events, but what do the movies actually get right, and why do they get so much wrong? Hollywood loves a story: good guys versus bad guys, heroes winning the day, and the guy gets the girl. But we all know real life isn't exactly like that, and this is even more true when we look at history. Rarely do the just prevail, and the three-act story cannot exist over continents and decades of human interaction. So when Hollywood decides to exploit history for profit, we end up with a wide array of films. Some are comedies like *Monty Python and the Holy Grail*; others are little more than action films playing dress up like *Gladiator*, and many are Oscar contenders burdened with an enormous sense of self-importance. But very few are historically accurate. From Cleopatra to *Da 5 Bloods*, the reality is no matter what, Hollywood's intentions are almost all historical films are an exaggeration or distortion of what really happened. Sometimes the alterations are for the sake of brevity, as watching a movie in real time about the Hundred Years War would literally kill you. Other additions may be out of necessity, since nobody thought to write down the everyday conversations between King Henry VIII and his second wife Anne Boleyn for *The Other Boleyn Girl*. And some projects twist the facts to suit a more sinister purpose. In *Hollywood and History*, Jem Duducu takes readers through thousands of years of global history as immortalized and ultimately fictionalized by Hollywood, exploring many facets of the representation of history in movies from the medieval times to the wild west and both World Wars. Along

the way readers will also better understand Hollywood's own history as it evolved from black and white silent shorts to the multiplex CGI epics of today. As studios and audiences have matured through the years, so too have their representations of history. Armies will clash, leaders will be slain, empires will fall, and a few historical inaccuracies will be pointed out along the way. A must read for film and history fans alike.
