

A black and white photograph of Mount Everest. The mountain's massive, snow-covered peak dominates the upper half of the frame, with sharp ridges and deep crevasses visible. In the foreground, a high-altitude camp is set up on a rocky, snow-dusted slope. Several tents are visible, and a few figures of people can be seen near them, providing a sense of scale to the immense mountain. The sky is clear and dark.

Everest Summit Of Achievement Venables Stephen,2003 **Everest** Royal Geographical Society (Great Britain),Edmund Hillary,Dalai Lama XIV Bstan-'dzin-rgya-mtsho,2003 On 29 May 1953 New Zealander Edmund Hillary and Sherpa Tenzing Norgay stood atop the highest mountain in the world where no one had ever stood before This magnificent volume celebrates the fiftieth anniversary of their historic climb and chronicles the history of Everest exploration from the early years of the twentieth century to the present It is the first and only book on the subject to benefit from complete access to the Royal Geographical Society s astonishingly rich collection of photographs documents and artifacts Painstakingly selected from over 20 000 subjects more than 400 photographs many never before published record the surveying planning reconnaissance expeditions and ascents that the Royal Geographical Society and the Alpine Club jointly launched beginning in 1921 and culminating in Hillary and Norgay s landmark feat Among the memorable photographs reproduced here are the first aerial views of Mount Everest the last known photograph of George Mallory and Andrew Irvine who perished soon afterward on the slopes of Everest Hillary s iconic photograph of Tenzing Norgay standing triumphant on Everest s summit images showing the daily experience of expedition members along with the dangers they faced portraits of the life and customs of Sherpas and the other Tibetan peoples and the spectacular beauty of the Everest massif itself These unique and breathtaking images are prefaced by Sir Edmund Hillary and His Holiness the Dalai Lama and are accompanied by chapters written by renowned mountaineer Stephen Venables the well known journalist and mountain climber Ed Douglas Judy and Tashi Tenzing grandson of Norgay and noted historian John Keay The result is a work of lasting significance that captures as never before the sense of discovery excitement achievement and exhilaration experienced over the years by those who are brave and determined enough to challenge the world s greatest mountain Above All Things Tanis Rideout,2014-02-04 A New York Times Editor s Choice 1924 George Mallory is arguably the last great British explorer having twice tried and failed to conquer Mount Everest The mountain has haunted him but his attempts have captivated the hearts of a nation desperate to restore its former glory after World War I Yet George has sworn to his wife Ruth that he will not mount a third attempt He will remain with her and their three children instead of again challenging the unreachable peak Then one afternoon Ruth reads a telegram addressed to George Glad to have you aboard again And with this one sentence the lives of the Mallorys and the face of the nation are irrevocably changed A beautifully rendered story about the need for redemption and the quest for glory Above All Things is a captivating blend of historical fact and imaginative fiction It is a heartbreaking tale of obsession sacrifice and what we do for love and honor **Road to Greatness** Pritam S. Achievement Gwen Bradford,2015-01-08 From the magisterial to the mundane achievements play a role in the best kind of human life and many people think that they are of such importance that they are worth pursuing at the expense of serious sacrifices Yet for all that no philosophers have devoted more than a few short passages to discerning what makes achievements valuable or even what makes something an achievement to begin with Gwen Bradford presents the first systematic account of what achievements are and what it is about them that makes them worth doing It turns out that more things count as achievements than we might have thought and that what makes them valuable isn t something we usually think of as good It turns out that difficulty perhaps surprisingly plays a central part in characterizing achievements and their value achievements are worth the effort But just what does it mean for something to be difficult and why is it valuable A thorough analysis of the nature of difficulty is given and ultimately the best account of the value of achievements taps into perfectionist axiology But not just any perfectionist theory of value will do and in this book we see a new perfectionist theory developed that succeeds in capturing the value of achievement better than its predecessors

Keeper of the Mountains Bernadette McDonald,2012-10 Beginning in 1946 Elizabeth Hawley worked for Fortune magazine as a researcher Shortly thereafter she left both her job and the United States itself to travel the world and thus began her lifelong attraction to the exotic and remote sovereign state of Nepal In the years that followed she began reporting on the political and cultural events taking place in her adopted homeland for the likes of Reuters and Time Inc letting the world in on the strange community of mountaineers pilgrims and politicians who were descending on Kathmandu whether in search of adventure enlightenment or prestige Despite the fact that Elizabeth Hawley has never climbed a mountain or visited the hallowed grounds of Everest base camp she has become the most important record keeper and inspirational authority figure regarding the expeditions stories feats scandals and disasters in the Nepal Himalaya Now 90 years of age she has commanded the respect of such legendary personalities as Edmund Hillary Reinhold Messner Chris Bonington Toma Humar and Ed Viesturs With production under way on a film examining her life and legacy it is likely that Hawley will continue to hold a special place in the hearts and minds of all visitors looking to experience the legend and grandeur of the world s most celebrated mountain landscape

Fallen Giants Maurice Isserman,Stewart Angus Weaver,Dee Molenaar,2010-01-01 In the first comprehensive history of Himalayan mountaineering in 50 years the authors offer detailed original accounts of the most significant climbs since the 1890s and they compellingly evoke the social and cultural worlds

that gave rise to those expeditions My Father, Frank Tony Smythe,2015-02-05 Biography of a seminal but often unheralded figure in high altitude climbing Written by his son Tony Frank Smythe was himself a prolific author Important addition to Mountaineer Books Legends and Lore series Frank Smythe like Eric Shipton is associated with early Everest explorations and was a member of three expeditions to the mountain At a time when it was ungentlemanly to make a living by climbing Smythe wrote more than a dozen popular books based upon his travels to high places one of them being the first ascent of Kamet 25 447 feet in 1931 which was the first time any climber had gone beyond 25 000 feet Two years later he reached the highest point climbed on Everest 28 200 feet He also climbed in Britain the Alps Canada and Alaska He and Graham Brown established two new routes on the Brevna face of Mont Blanc In short he has serious climbing credentials As the title hints this is a biography by Frank s son Tony but it isn t based solely on personal memories Frank was away from home for long periods and died when Tony was only fourteen Instead this book is based on thirteen years of research Frank s parents meeting and marriage Frank s early school years his first climbs his training for various jobs his gradual rise to fame and fortune his friendships his war years and his sudden death are all covered Like his father Tony has a strong understanding of how to tell a story that appeals to both climbers and general lovers of nonfiction adventures **Britain and Tibet 1765-1947** Julie G.
