Every Man His Way Readings In Cultural Anthropology:

Every Man His Way Alan Dundes, 1968 Collection of articles on many subjects **Dictionary of Concepts in Cultural Anthropology** Robert H. Winthrop, 1991-11-18 The field of cultural anthropology describes and interprets the thought and behavior of contemporary and near contemporary societies Inherently pluralistic it offers a framework in which the distinctive perspectives of each cultural world can be appreciated Robert Winthrop's dictionary describes the major concepts that have shaped the discipline both historically and theoretically It sets modern anthropology in its proper context within the broader intellectual tradition Eighty entries review the key concepts culture race nature symbolism adaptation the primitive etc that have established the fundamental problems and issues guided research and served as the focus for debate in key areas of the discipline The entries which range from 2 000 to 6 000 words in length are both thorough in treatment and contemporary in relevance Some entries are primarily of historical significance while others describe recent developments Each entry contains an annotated bibliography and a guide to additional reading on the subject While this is not primarily a technical lexicon many terms have been glossed and explained Designed to be useful to students of anthropology this dictionary will assist those in other disciplines to find their way through the anthropological labyrinth

Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul **I Heard It Through the Grapevine** Patricia A. Contemporary Theatre in Mayan Mexico Tamara L. Underiner, 2010-01-01 From the dramatization of local legends to the staging of plays by Shakespeare and other canonical playwrights to the exploration of contemporary sociopolitical problems and their effects on women and children Mayan theatre is a flourishing cultural institution in southern Mexico Part of a larger movement to define Mayan self identity and reclaim a Mayan cultural heritage theatre in Mayan languages has both reflected on and contributed to a growing awareness of Mayans as contemporary cultural and political players in Mexico and on the world's stage In this book Tamara Underiner draws on fieldwork with theatre groups in Chiapas Tabasco and Yucatán to observe the Maya peoples in the process of defining themselves through theatrical performance She looks at the activities of four theatre groups or networks focusing on their operating strategies and on close analyses of selected dramatic texts She shows that while each group works under the rubric of Mayan or indigenous theatre their works are also in constant dialogue confrontation and collaboration with the wider non Mayan world Her observations thus reveal not only how theatre is an agent of cultural self definition and community building but also how theatre negotiates complex relations among indigenous communities in Mayan Mexico state governments and non Mayan artists and researchers

Claiming Space Sheila Bock, 2023-10-09 Claiming Space examines the growing tradition of decorating mortarboards at college graduations offering a performance centered approach to these material sites of display Taking mortarboard displays seriously as public performances of the personal this book highlights the creative playful and powerful ways graduates use their caps to fashion their personal engagement with notions of self community education and the unknown future Claiming the space of these graduation caps is a popular and widespread way that individuals make their voices heard or rather seen in the visual

landscape of commencement ceremonies The forms and meanings of these material displays take shape in relation to broader ongoing conversations about higher education in the United States conversations grounded in discourses of belonging citizenship and the promises of the American Dream Integrating observational fieldwork with extensive interviews and surveys author Sheila Bock highlights the interpretations of individuals participating in this tradition She also attends to the public framings of this tradition including how images of mortarboards have grounded online enactments of community through hashtags such as LatinxGradCaps and LetTheFeathersFly as well as what rhetorical framings are employed in news coverage and legal documents in cases where the value of the practice is both called into question and justified As university administrators and cultural commentators seek to make sense of the current state of higher education these forms of material expression offer insight into how students themselves are grappling with higher ed s promises and shortcomings Claiming Space is a meaningful contribution to folklore cultural studies media studies and education

Ecology of the Body Joseph Lyons,1987 Ecology of the Body presents an argument for describing our behavior in accordance with the ways we experience our bodies Increasingly psychologists are recognizing that human beings show great diversity in the ways they perform the vast repertoire of human behaviors such as perceiving reasoning remembering forgetting that we may well possess not simply different levels of intelligence but also different forms of it in varying combinations just as we show differing degrees of emotion goal directed activity and creativity Lyons puts forward a hypothesis in which he argues for the utility of understanding these differences as stylistic variations that are inseparable from our physical experience of ourselves

Klymasz,1973-01-01 This paper presents a survey of the Ukrainian Canadian folk narrative corpus as recorded in Western Canada in the 1960s The four introductory chapters discuss the various changes illustrated by the collected field materials A total of seventy four selected folk narratives and other samples of oral traditions appear in the appendices Published in English

The Spirituality of the Igbo People of Nigeria as an Example of Religious Modernization in a Global World Henry CHUKWUDI OKEKE,2020-02-18 If there is no religion in the world the world would more or less become a jungle The world will be inhuman Religion touches all aspects of human life Identifying God s will in our world today has become a major problem for many religions of the world In the past in Igbo Traditional Religion human sacrifice as well as the killing of twins were practised For the Igbo traditionalists then that was the will of the deities and equally not against God s will But following the encounter of Igbo Traditional Religion with Christianity these are no longer practised Misinterpretation of God s will by some religions of the world has given rise to religious violence religious extremism fanaticism and terrorism we are experiencing today in the world For these problems to be resolved it is pertinent that the study of various religions be taken seriously This study should be aiming at better understanding co existence respect for one another and frequent inter religious dialogues among the various religions of the world When this is achieved the believers of various religions would realize that many are worshipping one

God and their desire is to communicate with Him although they may approach Him differently The Theory of Archetypes
James S. Larson,2004 The central thesis of the book is that man s perception of mind body and spirit has influenced his thinking in the social sciences Mind body and spirit serve as archetypes for social thinking and social institutions The book applies these concepts to major theories in the social sciences and also suggests ways to improve social institutions and practices by understanding the relationships between mind body and spirit Explaining Traditions Simon
Bronner,2011-08-26 Why do humans hold onto traditions Many pundits predicted that modernization and the rise of a mass culture would displace traditions especially in America but cultural practices still bear out the importance of rituals and customs in the development of identity heritage and community In Explaining Traditions Folk Behavior in Modern Culture Simon J Bronner discusses the underlying reasons for the continuing significance of traditions delving into their social and psychological roles in everyday life from old time crafts to folk creativity on the Internet Challenging prevailing notions of tradition as a relic of the past Explaining Traditions provides deep insight into the nuances and purposes of living traditions in relation to modernity Bronner s work forces readers to examine their own traditions and imparts a better understanding of raging controversies over the sustainability of traditions in the modern world The Importance of Not Being Earnest
Wallace Chafe,2007-02-01 The thesis of this book is that neither laughter nor humor can be understood apart from the feeling that underlies them This feeling is a mental state in which people exclude some situation from their knowledge of how the world really is thereby inhibiting seriousness where seriousness would be counterproductive Laughter is viewed as an expression of this feeling and humor as a set of devices designed to trigger it because it is so pleasant and distracting Beginning with phonetic analyses of laughter the book examines ways in which the feeling behind the laughter is elicited by both humorous and nonhumorous situations It discusses properties of this feeling that justify its inclusion in the repertoire of human emotions Against this background it illustrates the creation of humor in several folklore genres and across several cultures Finally it reconciles this understanding with various already familiar ways of explaining humor and laughter
