**Ten Years in the Tub** Nick Hornby,2016-04-12 How often do you begin reading a book that makes you immediately urgently desperately want to read more books Booklist Nick Hornby has managed to write just such a book in this hilarious insightful and infectious volume Ten Years in the Tub chronicles Hornby s journey through a decade s worth of books as related in his wildly popular Believer column Stuff I ve Been Reading Ten Years in the Tub is a one way ticket into the mind of one of the most beloved contemporary writers on his favorite pastime but it s also a meditation on what Celine Dion can teach us about ourselves a warning about how John Updike can ruin our sex lives and a recommendation for the way Body Shop Vanilla Shower Gel can add excitement to our days This decade long addiction for many makes standing in line at the bank a blessed interval for snorting another page the New York Times Book Review Trauma, Memory, and Narrative in the Contemporary South African Novel ,2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony

such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid s laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here
