Daily Lives of Civilians in Wartime Latin America Pedro Santoni, 2008-09-30 The countries of Latin America have suffered

through numerous foreign interventions and domestic wars in the nearly two centuries that have followed its independence. These conflicts have also given rise to mass mobilizations of middle class professionals, women, peasants, urban workers, and Indians who sought to carve out a more active public role in the new states that emerged from these struggles. In some cases, elites and their military allies violently repressed the newly emerging forces. Recent research has begun to place greater emphasis on the lives of common people and the interventions they had on the larger events of the day. Eight chapters written by different scholars show the importance of the actions of civilians in wars in Latin America. Chapters describing civilians' roles and lives through wars in Latin America are supplemented by recommended print and online resources for further study, a glossary defining important terms and concepts, and a timeline putting events into a chronological context.

Caring for Latinxs with Dementia in a Globalized World, Hector Y. Adames, Yvette N. Tazeau, 2020-03-25. This volume provides a broad and critical presentation of the behavioral and psychosocial treatments of Latinxs with dementia in the United States (U.S.) and across a representative sample of Spanish speaking countries in the world. The compendium of chapters written by researchers, practitioners, and policy analysts from multiple disciplines provides a deep exploration of the current state of dementia care for Latinxs in the U.S. and around the globe. The volume is designed to increase and strengthen the collective scientific and sociocultural understanding of the epidemiological and biopsychosocial factors as well as the overlapping systemic challenges that impact diagnosis and symptom management of Latinxs with dementia. The authors introduce policy options to reduce risk factors for dementia and present culturally responsive interventions that meet the needs of Latinx patients and their caregivers. Highlighted topics featured in the book include: Contextual cultural and socio-political issues of Latinxs with dementia; New meta-analysis of dementia rates in the Americas and Caribbean; Dementia-related behavioral issues and placement considerations; Educational, diagnostic, and supportive psychosocial interventions; Pharmacological, non-pharmacological, and ethnocultural healthcare interventions; Intersectionality as a practice of dementia care for sexual and gender minoritized Latinxs; Prescriptions for policy and programs to empower older Latinxs and their families. *Caring for Latinxs with Dementia in a Globalized World: Behavioral and Psychosocial Treatments* is a resource that accentuates and contextualizes the heterogeneity in nationality, immigration, race, sexual orientation, gender, and political realities. It is a key reference for a wide range of fields inclusive of demography, geriatrics, gerontology, medicine, mental health, neurology, neuropsychology, nursing, occupational therapy, pharmacology, psychiatry, psychology, rehabilitation, social work, sociology, and statistics, all of which collectively bear on the problem and the solutions for better care for Latinxs affected by dementia.

conditions while other conditions have seen only moderate change or even little or no change Gaps remain both in research areas and in the application of results to benefit women in general and across multiple population groups Given the many and significant roles women play in our society maintaining support for women's health research and enhancing its impact are not only in the interest of women they are in the interest of us all

MH/CHAOS Frank J Rafalko, 2011-10-15 Operation MH CHAOS was the code name for a domestic espionage project conducted by the Central Intelligence Agency in the late 1960s and early 1970s MH CHAOS The CIA's Campaign Against the Radical New Left and the Black Panthers is an insider's account of the CIA's Counterintelligence Staff's Special Operations Group first charged by Presidents Lyndon Johnson and later by Richard Nixon to find foreign intelligence terrorist organizations or government contacts controlling or influencing Anti Vietnam War activists or American black extremists protesting bombing and carrying out other anti government unlawful or illegal activities in the United States The operation was launched under Director of Central Intelligence Richard Helms by chief of counter intelligence James Jesus Angleton and headed by Richard Ober The program's goal was to unmask possible foreign influences on the student antiwar movement The MH designation signified that the program had a worldwide area of operations When President Nixon came to office in 1969 all of the existing domestic surveillance activities were consolidated into Operation MH CHAOS and used CIA stations abroad to report on antiwar activities of United States citizens traveling abroad employing methods such as physical surveillance and electronic eavesdropping utilizing liaison services in maintaining such surveillance The operations were later expanded to include 60 officers In 1969 following the expansion the operation began developing its own network of informants for the purposes of infiltrating various foreign antiwar groups located in foreign countries that might have ties to domestic groups Eventually CIA officers expanded the program to include other leftist or counter cultural groups with no discernible connection to Vietnam such as groups operating within the women's liberation movement including Students for a Democratic Society the Black Panther Party and Women Strike for Peace Also targeted was the Israeli embassy and domestic Jewish groups such as the B'nai B'rith As a result of the Watergate break in involving two former CIA officers Operation MH CHAOS was discontinued The secret nature of the program was exposed by Seymour Hersh in the New York Times on December 22 1974 The following year further details were revealed during Representative Bella Abzug's House Subcommittee on Government Information and Individual Rights The government in response to the revelations launched the Commission on CIA Activities Within the United States The Rockefeller Commission lead by then Vice President Nelson Rockefeller to investigate the depth of the surveillance In Operation MH CHAOS the author who is a former CIA officer refutes the charges made by the New York Times and the Washington Post at the time that this domestic spying program first made headlines and takes issue with conclusions of the Rockefeller Commission and the Church Committee He relates how the Special Operations Group began was staffed and how it was transformed into an anti terrorist unit before it ceased operation Rafalko details the information

that Special Operations Group collected against the New Left and Black extremists and makes the case that the MHCHAOS program was justified why the CIA was the logical agency to conduct the collection and the consequences suffered later by American counterintelligence because of these investigations Public Health Reports ,2002 **The New York Daily Tribune Index** ,1893 Peru in Theory P.
