**The European Dynastic States, 1494-1660** Richard Bonney, 1992 **The Hebrew Portuguese Nations in Antwerp and London at the Time of Charles V and Henry VIII** Aron Di Leone Leoni, 2005 Based on documents which appear in the appendix on pp 129 238 reconstructs the activities of Conversos who fled the Portuguese Inquisition to Antwerp and to

London These Portuguese Nations established the Sedakah Rescue Organization to help smuggle fellow Conversos from Lisbon to Antwerp and over the Alps to Italy or to the Ottoman Empire England served only as a temporary refuge for Conversos who were persecuted in the Low Countries However they were generally despite occasional persecution allowed to remain in Antwerp due to the policies of Emperor Charles V and local authorities both of whom were guided by economic considerations Disputes the view that Charles who was responsible for the contemporary Inquisition in Spain instituted one also in the Netherlands Stresses that the Emperor used civil not ecclesiastical institutions to attain his goal which in the case of the Conversos as opposed to the Protestants was greed rather than the persecution of heresy The Rescue Organization headed among others by Diogo Mendes Benveniste helped Conversos reach among other places Ferrara where Duke Ercole II of Este provided them with good conditions including the right to practice Judaism in return for their role in developing the local economy

*The Parliaments of Early Modern Europe* M.A.R. Graves, 2014-06-06 A comparative survey of the emergence and development of Parliaments in Catholic Christendom from the thirteenth century the chief focus of this work is the period between the fifteenth and seventeenth centuries when Europe was dramatically changed by the Renaissance the Reformation and the growth of composite monarchies which brought together diverse territories under their rule European Parliaments experienced a variety of challenges fortunes and fates some survived even flourished but others succumbed to powerful monarchies By investigating the powers and privileges and responsibilities of these institutions Graves illuminates the whole business of government the nature of executive power the relations of ruler and ruled the restraints of consent and the realities of the tension between central authority and local custom

*Germany and the Holy Roman Empire* Joachim Whaley, 2012 In the first single author account of German history from the Reformation to the early nineteenth century since Hajo Holborn's study written in the 1950s Dr Whaley provides a full account of the history of the Holy Roman Empire Volume I extends from Maximilian I to the Peace of Westphalia

**Personal Agency at the Swedish Age of Greatness 1560-1720** Petri Karonen, Marko Hakanen, 2017-12-08 Internationally the case of early modern Sweden is noteworthy because the state building process transformed a locally dispersed and sparsely populated area into a strongly centralized absolute monarchy and European empire at the beginning of the 17th century This anthology provides fresh insights into the state building process in Sweden During this transitional period many far reaching administrative reforms were carried out and the Swedish state developed into a prime example of the early modern powerstate The contributors approach Sweden's rise to greatness from the point of view of personal agency In early modern studies agency has long remained in the shadow of the study of structures and institutions This novel approach enables us to expose the difficulties setbacks and false steps that the administration had to deal with State building was a more diversified and personalized process than has previously been assumed Numerous individuals were also crucially important actors in the process and that development itself was not straightforward progression at the macro level but was intertwined with lower level actors Each chapter in this volume

employs partially different methods depending on the source material and subject. This means that both qualitative and quantitative material is combined in different ways of making sense of it, i.e. research traditions are brought together and a multi-method design is used in analyzing source material. One of the central methods is the systematic use of previous biographical research. We want to give the individuals and their actions under discussion a background that reflects the contemporary structures of individual life cycles. With the existing biographical research, it is possible to create a comprehensive set of data that provides the general outlines of individual lives or the career tracks of various estates or social groups and even to construct collective biographies of certain groups.

*The Early Modern State: Drivers, Beneficiaries and Discontents* Pepijn Brandon, Lex Heerma van Voss, Annemieke Romein, 2022-06-30. In the course of the early modern period, the capacity of European states to raise finances, wage wars, subject their own and far away populations, and exert bureaucratic power over a variety of areas of social life increased dramatically. Nevertheless, these changes were far less absolute and definitive than the literature on the rise of the modern state once held. While war pushed the boundaries of the emerging fiscal-military states of the seventeenth and eighteenth centuries, rulers remained highly dependent on negotiations with competing elite groups and the private networks of contractors and financial intermediaries. Attempts to increase control over subjects often resulted in popular resistance that in their turn set limits to and influenced the direction of the development of state institutions. Written in honour of the leading historian of war and state formation in the early modern Low Countries, Marjolien Hart, the chapters gathered in this volume examine the main drivers, beneficiaries, and discontents of state formation across and beyond Europe in the early modern period.

*From Empires to Imperialism* Boris Kagarlitsky, 2014-06-27. Translated from the original Russian, this book analyzes the economic development of leading European empires and the United States of America. The author exposes the myths of the spontaneous emergence of the market economy and the role of government as a disincentive towards private initiative when for centuries the state power has been carrying out a coercing to the market with all its strength. This book presents a somewhat epic depiction of the development of Western hegemonic powers within the capitalist world system from the struggles of the late Middle Ages to the rise and crisis of the American Empire. It both develops and questions some of the traditional assumptions of the world system theory, arguing that it was very much the political form of the state that shaped capitalism as we know it, and that though the existence of a hegemonic power results from the logic of the system, hegemony is often missing in reality. A major work of historical Marxist theory, this book is essential reading for students of international political economy, globalisation, and the crisis of capitalism. This book is also ideal for students of politics, history, economics, and international relations.

Does War Make States? Lars Bo Kaspersen, Jeppe Strandsbjerg, 2017-03-02. Arising from renewed engagement with Charles Tilly's canonical work on the relationship between war and state formation, this volume situates Tilly's work in a broader theoretical landscape and brings it into contemporary debates on state formation theory. Starting with Tilly's famous

dictum war made the state and the state made war the book takes his claim further examining it from a philosophical theoretical and conceptual view and asking whether it is applicable to non European regions such as the Middle East South America and China The authors question Tilly s narrow view of the causal relationship between warfare and state making and use a positive yet critical approach to suggest alternative ways to explain how the state is formed Readers will gain a comprehensive view of the most recent developments in the literature on state formation as well as a more nuanced view of Charles Tilly s work

*Russia and Courtly Europe* Jan Hennings,2016-10-27 This book explores diplomacy and ritual practice at a moment of new departures and change in both early modern Europe and Russia

Lutheran Theology and the shaping of society: The Danish Monarchy as Example Bo Kristian Holm,Nina J. Koefoed,Christopher B. Brown,Günter Frank,Bruce Gordon,Barbara Mahlmann-Bauer,Tarald Rasmussen,Violet Soen,Zsombor Tóth,Günther Wassilowsky,Siegrid Westphal,2018-06-11 From different perspectives this book studies the role of Reformation theology in the shaping of Danish society and the social dimensions of Lutheran confessional culture The book develops an approach making it possible to draw strong conclusion about the social teaching of Luther and its impact on the development of the Danish society It works on a conceptual level by analyzing the social dimensions of key Lutheran concepts and their translation into the doctrine of the three estates church household and state and on the level of lived experience of life within these three orders not at least within the household forming the ideal form also for church and state Thus the chapters in the book endeavor to connect the social ideas inherent in the Lutheran confession with the social formation of the Danish state from the Reformation into the period of Absolutism A long mono confessional situation within the Danish Monarchy makes it possible to study the impact of Lutheranism and the development of a confessional culture within a uniquely long timeframe The focus is on basic mediums for the translation of Lutheran ideas into social practice law primarily connected to marriage and family and the role of household both as primary social relations and as basic social and political model In this way the book offers important insights for theologians historians sociologists and academically anyone interested in the relation between theology and sociality confession and culture

**Russian Notions of Power and State in a European Perspective, 1462-1725** Endre Sashalmi,2022-10-25 Winner of the 2023 Marc Raeff Book Prize A 2023 REFORC Book Award Longlist TitleThis book highlights the main features and trends of Russian political thought in an era when sovereignty state and politics as understood in Western Christendom were non existent in Russia or were only beginning to be articulated It concentrates on enigmatic authors and sources that shaped official perception of rulership or marked certain changes of importance of this perception Special emphasis is given to those written and visual sources that point towards depersonalization and secularization of rulership in Russia A comparison with Western Christendom frames the argument throughout the book both in terms of ideas and the practical aspects of state building allowing the reader to ponder Russia s differentia specifica

Catholics and Treason Michael Questier,2022-03-08 Catholics and Treason takes the narratives generated by the

contemporary law of treason as it applied to Roman Catholics during and after the Reformation of the Church in the sixteenth century and uses them to explore the Catholic community's writing of its own history. Prosecutions of Catholics under the existing law and via new legislation produced a great deal of documentation which tells us much about contemporary politics that we could not garner from any other source. The intention here is to locate the narratives of persecution inside the context of the mainstream history of the period from which for the most part they have been routinely excluded but out of which they partly emerged. In that respect this is the history of the post-Reformation Church and State with the politics of violence put back. This volume takes as its starting point the magnum opus of Bishop Richard Challoner his *Memoirs of Missionary Priests* and it works backwards from that book into the period that Challoner describes. Historian Michael Questier seeks to reassemble as far as possible the historical jigsaw puzzle on which Challoner laboured but which he could not complete thinking about the implications for our view of the post-Reformation and of the way in which Challoner and others described the Catholic experience of intolerance. *Celtic Dimensions of the British Civil Wars* University of Strathclyde. Research Centre in Scottish History. Conference, 1997. Recent historiographers of the English Civil War period have noted an increased awareness of the Scottish and Irish dimensions of that era in the history of the British archipelago. The contributors to this symposium bring together a new generation of historians at the cutting edge of research in Scottish and Irish history of the period and in many instances their recent research may be seen to challenge traditional historical interpretations.

**Kriegslegitimation in der Frühen Neuzeit** Julian Katz, 2021-06-21. Seit einiger Zeit sind humanitäre Militärinterventionen verstärkt im Fokus der Geschichtswissenschaft. Die Frage nach den frühneuzeitlichen Wurzeln der humanitären Intervention ist dabei lange am Rande behandelt worden. Neuere Forschungen zeigen aber, dass militärische Gewalt zwischen 1500 und 1800 nicht selten mit dem Schutz fremder Untertanen legitimiert wurde. Hier setzt die Studie von Julian Katz an und untersucht mit dem anglo-spanischen Krieg 1585-1604 ein Fallbeispiel, bei dem beide Parteien ihre Kriegsführung als Schutzintervention zugunsten der Untertanen des Gegners rechtfertigten. Die Begründung der Intervention erfolgte anhand drei wesentlicher argumentativer Kategorien: Sicherheit, Recht und Religion/Konfession. Möglich wurde dies durch grenzübergreifende Dynamiken der nachreformatorischen Glaubenskonflikte, die neue Allianzen zwischen Herrschenden und konfessionsverwandten Untertanen anderer Souveräne hervorbrachten. Die Analyse der Entwicklung und Anwendung dieser Rechtfertigungskategorien wirft ein Schlaglicht auf zentrale Normen der politischen Kultur und Machtbeziehungen im frühneuzeitlichen Europa und liefert einen wichtigen Beitrag zum Verständnis internationaler Politik während des konfessionellen Zeitalters.
