Program of the ... Annual Meeting Organization of American Historians. Meeting, 2003 Echoes of War Michael

C.C. Adams, 2021-10-21 Americans are often accused of not appreciating history but this charge belies the real popular interest in the past. Historical reenactments draw thousands of spectators, popular histories fill the bestseller lists, PBS A and Hollywood war movies become blockbusters. Though historians worry that these popular representations sacrifice authenticity for broad appeal, Michael C. Adams argues that living history, even if it is an incomplete depiction of the past, plays a vital role in stimulating the historical imagination. In *Echoes of War*, he examines how one of the most popular fields of history is portrayed, embraced and shaped by mainstream culture. Adams argues that symbols of war are of intrinsic military significance and help people to articulate ideas and values. We still return to the knight as a symbol of noble striving; the bowman appeals as a rebel against unjust privilege. Though Custer may not have been the Army's most accomplished fighter, he achieved the status of cultural icon. The public memory of the redcoated British regular soldier shaped American attitudes toward governments and gun laws. The 1863 attack on Fort Wagner by the black Fifty-fourth Massachusetts regiment was lost to public view until racial equality became important in the late twentieth century. *Echoes of War* is a unique look at how a thousand years of military history are remembered in popular culture through images ranging from the medieval knight to the horror of U.S. involvement in the My Lai massacre. *Choice*, 2008 **Splendidly Victorian** Michael Shirley, Todd Larson, 2017-11-22 This title was first published in 2001. The eminent historian of Victorian Britain, Walter L. Arnstein, has over the course of a career spanning more than 40 years arguably introduced more students to British history than any other American historian. This collection of essays by some of his former students celebrates Arnstein's inspirational teaching and writing with surveys and analyses of various aspects of the social, cultural, economic and political history of nineteenth and early twentieth century Britain. Nineteenth century topics covered in the volume include early Victorian caricatures and the thin legal lines that they often trod; British Army fashion and its contribution to Royal spectacles; Free Trade Radicals and how they viewed educational reform and moral progress; the persistence of Chartist ideology following the failure of the movement in 1848; Disraeli and Derby's involvement with the Navy's administration; religious periodicals and their influence; the myth of Bismarck as an honest broker of peace and the subsequent collapse of the myth as a later source of enmity in Anglo-German relations; the powerful mystique evoked back in England by the London Missionary Society's Mongolian missions; Victorian urban planning and the re-introduction of the market place. [Writing, Teaching and Researching History in the Electronic Age](#) Dennis A. Trinkle, 2015-04-29 This volume focuses on the role of the computer and electronic technology in the discipline of history. It includes representative articles addressing H-Net scholarly publication on line, reviewing enhanced lectures using the World Wide Web and historical research.
