Gulddal,2011-12-19 Pursues the hypothesis that fictional literature has been instrumental in the development and dissemination of European anti Americanism from the early 1800s to today Focusing on Britain France and Germany it offers analyses of a range of canonical literary works in which resentful hostility towards the United States is a predominant feature **9/11 in European Literature** Svenja Frank,2017-11-28 This volume looks at the representation of 9 11 and the resulting wars in European literature In the face of inner European divisions the texts under consideration take the terror attacks as a starting point to negotiate European as well as national identity While the volume shows that these identity formations are frequently based on the construction of two Others the US nation and a cultural ethnic idea of Muslim communities it also analyses examples which undermine such constructions This much more self critical strand in European literature unveils the Eurocentrism of a supposedly general humanistic value system through the use of complex aesthetic strategies These strategies are in itself characteristic of the European reception as the Anglo Irish British Dutch Flemish French German Italian and Polish perspectives collected in this volume perceive of the terror attacks through the lens of continental media and semiotic theory **Periods of European Literature: The dark ages** William Paton Ker,1923 [Europe in Law and Literature](#) Laura Anina Zander,Nicola Kramp-Seidel,2023-05-08 Europe is a broad and multifaceted construct variously understood as a geographical political legal institutional social or cultural formation It is characterized by numerous conflicts

and processes of negotiation that have accompanied or sustained the development of normative orders and divergent conceptions of law both in relation to individual states and to Europe as a whole The same applies to the field of literature language and aesthetics numerous myths and ideologies have shaped today s understanding of Europe and still support it today This volume examines how such processes were legally structured and literarily addressed criticized and complemented Its interdisciplinary perspective and open and dynamic both dialogical and dialectical format intends to replicate the fragmented sometimes conflicting but always productive mosaic of voices ideas and concepts that have constituted and still constitute Europe whether in the past present or future Instead of resolving any of the complexities and contradictions that frame discussions on law literature and Europe it aims to induce further engagement and confrontations with new and alternative visions of Europe

European Culture in Diversity Krystyna Kujawińska Courtney, Evan Williams, 2011-08-08 This collection of articles devoted to Europe was born from the urgent need to present the specificity of European culture both its unity and diversity and at the same time create a stimulating dialogue about European culture and its complexities European culture considered as all inherited beliefs and values behind social action has been treated in the past as a complex phenomenon of superior value as the result of a common past among European nations the permeation of various cultural elements between cultures and their absorption in different contexts In the past the process of shaping European identity was often fierce and dramatic influenced by the events taking place within but also outside European borders Now it has undergone various transformations as a result of new political economic and cultural challenges For this reason the authors and editors of this volume place emphasis on diachronic perspectives their approaches often consider local European issues against a global background
