McKay, 2020-10-13 A History of World Societies provides a comprehensive overview of world history by sharing the cultural stories of global people all through a regional lens. The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott, 2015-07-23 This Handbook re-examines the concept of early modern history in a European and global context. The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing. More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned. The Oxford Handbook of Early Modern European History 1350-1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing. It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study. The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity. Volume I examines Peoples and Place assessing structural factors such as climate, printing and the revolution in information social and economic developments and religion including chapters on Orthodoxy, Judaism and Islam. **War and the State in Early Modern Europe** Jan Glete, 2002-09-11 The sixteenth and seventeenth centuries saw many ambitious European rulers develop permanent armies and navies. Jan Glete examines this military change as a central part of the political, social and economic transformation of early modern Europe. **Early Modern Confraternities in Europe and the Americas** Christopher F. Black, Pamela Gravestock, 2006 Scholars have long recognized the significant role that confraternities or lay brotherhoods played in the religious life of medieval and early modern Catholicism. Taking a broad chronological and geographical approach, this collection of essays addresses the varied and fluid nature of confraternities and their relationship to wider society. **The Renaissance** James A. Corrick, 1998 Traces developments in European art, architecture, music, literature, philosophy, science and exploration between 1300 and 1600. El-Hi Textbooks & Serials in Print, 2003, 2003. **A Student's Note-book of European History, 1789-1848** J. S. Lindsey, 1904. Lay Prophets in Lutheran Europe (c. 1550-1700) Jürgen Beyer, 2017-03-27 Lay prophets in Lutheran Europe c. 1550-1700 is the first transnational study of the phenomenon of angelic apparitions in all Lutheran cultures of early modern Europe. Jürgen Beyer provides evidence for more than 350 cases and analyses the material in various ways, tracing the medieval origins, studying the spread of news about prophets, looking at the performances legitimising their calling, noting their comments on local politics, following the theological debates about prophets and interpreting the early modern notions of holiness within which prophets operated. A

full chronology and bibliography of all cases concludes the volume Beyer demonstrates that lay prophets were an accepted part of Lutheran culture and places them in their social political and confessional contexts

A History of Sixteenth Century France, 1483-1598 Janine Garrisson, 1995-06-14 A masterful new survey of sixteenth century France which examines the vicissitudes of the French monarchy during the Italian Wars and the Wars of Religion It explores how the advances made under a succession of strong kings from Charles VIII to Henri II created tensions in traditional society which combined with economic problems and emerging religious divisions to bring the kingdom close to disintegration under a series of weak kings from Francois II to Henri III The political crisis culminated in France's first succession conflict for centuries but was resolved through Henri IV's timely reconnection of dynastic legitimacy with religious orthodoxy

**Memory's Library** Jennifer Summit, 2008-11-15 In Jennifer Summit's account libraries are more than inert storehouses of written tradition they are volatile spaces that actively shape the meanings and uses of books reading and the past Considering the two hundred year period between 1431 which saw the foundation of Duke Humfrey's famous library and 1631 when the great antiquarian Sir Robert Cotton died Memory's Library revises the history of the modern library by focusing on its origins in medieval and early modern England Summit argues that the medieval sources that survive in English collections are the product of a Reformation and post Reformation struggle to redefine the past by redefining the cultural place function and identity of libraries By establishing the intellectual dynamism of English libraries during this crucial period of their development Memory's Library demonstrates how much current discussions about the future of libraries can gain by reexamining their past
