European Union And The Promotion Of Democracy:

The European Union and the Promotion of Democracy Richard Youngs, 2002-01-03 This book assesses European Union policies aimed at encouraging democratization in East Asia and the North African and Middle Eastern States within the Euro Mediterranean Partnership these two regions being the source of some of the strongest conceptual challenges to Western liberal democracy since the end of the cold war The book addresses theoretical debates over the international dimensions of political change and the EU s characteristics as an international actor The factors both driving and inhibiting European democracy promotion policies are explored The book outlines the EU s distinctive bottom up philosophy aimed at constructing the socio economic and ideational foundations for political liberalization but argues that the EU has in practice failed to develop a fully comprehensive and coherent democracy promotion strategy *The European Union and the Promotion of Democracy* Richard Youngs, 2001 This book assesses European Union policies aimed at encouraging democratization in East Asia and the North African and Middle Eastern States within the Euro Mediterranean Partnership these two regions being the source of some of the strongest conceptual challenges to Western liberal democracy since the end of the cold war The book addresses theoretical debates over the international dimensions of political change and the EU s characteristics as an international actor The factors both driving and inhibiting European democracy promotion policies are explored The book outlines the EU s distinctive bottom up philosophy aimed at constructing the socio economic and ideational foundations for political liberalization but argues that the EU has in practice failed to develop a fully comprehensive and coherent democracy promotion strategy

Promoting Democracy and the Rule of Law A. Magen, T. Risse, M. McFaul, 2009-07-31 European and American experts systematically compare U S and EU strategies to promote democracy around the world from the Middle East and the Mediterranean to Latin America the former Soviet bloc and Southeast Asia In doing so the authors debunk the pernicious myth that there exists a transatlantic divide over democracy promotion Democracy Promotion in the EU's Neighbourhood Sandra Lavenex, Frank Schimmelfennig, 2013-09-13 EU external democracy promotion has traditionally been based on linkage i e bottom up support for democratic forces in third countries and leverage i e the top down inducement of political elites towards democratic reforms through political conditionality The advent of the European Neighbourhood Policy and new forms of association have introduced a new third model of democracy promotion which rests in functional cooperation between administrations This volume comparatively defines and assesses these three models of external democracy promotion in the EU s relations with its eastern and southern neighbours It argues that while linkage has hitherto failed to produce tangible outcomes and the success of leverage has basically been tied to an EU membership perspective the governance model of democracy promotion bears greater potential beyond the circle of candidate countries This third approach while not tackling the core institutions of the political system as such but rather promoting transparency accountability and participation at the level of state administration may turn out to

remain the EU's most tangible form of democratic governance promotion in the future. This book was originally published as a special issue of *Democratization*. **The Substance of EU Democracy Promotion** A. Wetzel, J. Orbie, 2015-02-17. The book investigates the substance of the European Union's EU democracy promotion policy. It focuses on elections, civil and political rights, horizontal accountability, effective power to govern, stateness, state administrative capacity, civil society and socio-economic context as components of embedded liberal democracy. **The European Union and Democracy Promotion** Richard Gillespie, Richard Youngs, 2010-10-15. The *European Union and Democracy Promotion 2002* offers a critical assessment of the strategy upon which the EU promotion of democracy and human rights activity has been based, along with an analysis of its strengths and weaknesses. Contributors from a variety of European and North African countries show how the obstacles to political change in Algeria, Morocco, Tunisia and Egypt are not only to be found within these countries but also in EU member states such as France and Spain. **The European Union's Democratization Agenda in the Mediterranean** Michelle Pace, Peter Seeberg, 2013-09-13. Democracy promotion in the Middle East and North Africa (MENA) remains a central pillar of the foreign policy of the European Union (EU). Rather than concentrating on the relations between the incumbent authoritarian regimes and the opposition in the relevant countries and on the degree to which these relations are affected by EU efforts at promoting democracy, human rights and the rule of law, an outside-in approach. This collection of articles inverts the focus of such relationships and attempts to look at them inside-out. While some contributions also emphasise the outside-in axis, given that this continues to be analytically rewarding, the overarching thrust of this book is to provide some empirical substance for the claim that EU policy making is not unidirectional and is influenced by the perceptions and actions of its targets. Thus the focus is on domestic political changes on the ground in the MENA and how they link into what the EU is attempting to achieve in the region. Finally, the self-representation of the EU and its lack of a clear regional role is discussed. This book was published as a special issue of *Democratization*. **The European Union and Democracy Promotion** Richard Youngs, 2010-10-15. Richard Youngs is the director of Fride Madrid and an associate professor at the University of Warwick. He has authored five books, including *Europe on the March*, *Global Politics: A Retreat from Liberal Internationalism*. Book Jacket **Interregionalism and the European Union** Mario Telò, Louise Fawcett, Frederik Ponjaert, 2016-03-09. Is the EU isolated within the emergent multipolar world? Concentrating on interregional relations and focussing on the European Union's EU evolving international role with regards to regional cooperation, this innovative book collects a set of fresh empirical analyses of interregional ties binding the EU with its Eastern and Southern neighbourhood as well as with Asia, Africa and the Americas. The 25 leading authors from 5 continents have contributed original and diverse chapters, and the book advances a novel theoretical post-revisionist approach beyond both the Eurocentrism of Europe First perspectives as well as the Euroscepticism of those advocating to simply move beyond Europe. After a Foreword by A. Acharya, the book's five sections reflect the main drivers of EU interregional policies: The European Union as a Sophisticated Laboratory of Regional and

What has been used What is used What are the results What can be what has to be changed A working definition of democracy is the scale of success which can be applied to the objectives and means in the European Union s foreign policy The strategies are depicted as well as the level of ambition in democracy promotion of the European Union The means to realize this ambition are be shown in comparison to the the successes or failures in application The conflict of priorities in the European Union concerning external relations of the last thirty years is depicted against the backcloth of the normative set of standards drawn from the treaty

EU Human Rights and Democratization Policies Felipe Gómez Isa,Cristina Churruza Muguruza,Jan Wouters,2018-05-15 Though the EU has tried to place human rights and democracy at the heart of its external action there are serious concerns about its capacity to have a significant impact on the situation of human rights and human rights defenders as well as on the democratization processes taking place in different regions of the world This edited volume sheds light on the achievements of EU policies and programmes in the field of human rights and democracy also taking into account the challenges ahead Analysing the changing global context s effect on the ability of the EU to have a meaningful impact in the field of human rights and democratization it examines relevant policies and programmes of the EU to see their impact on the ground Combining various methodologies the authors examine primary agreements and other EU documents secondary sources such as evaluations of EU s policies and programmes in the field of human rights and democracy promotion and have interviewed EU officials academics and other key stakeholders From these the book sheds light on specific programmes such as the EIDHR the EOM and the EU Guidelines on Human Rights Defenders illuminating the increasingly hostile environment to work for human rights and democracy in a number of countries This text will be of key interest to scholars and students of EU human rights and law to practitioners in Europe and beyond and more broadly to EU studies democracy studies and international relations

European Union Foreign Policy in a Changing World Karen E. Smith,2013-04-18 The second edition of European Union Foreign Policy in a Changing World provides a clear introduction to the complexities of contemporary European foreign policy and offers a fresh and distinctive perspective on the nature of the EU s international identity Thoroughly revised and expanded the book explores how and why the EU tries to achieve five core foreign policy objectives the encouragement of regional cooperation the advancement of human rights the promotion of democracy and good governance the prevention of violent conflicts and the fight against international crime including terrorism In pursuing these goals the book illustrates how the EU is faced with acute policy dilemmas because the five objectives not only clash with each other but also with additional policy priorities such as securing energy supplies or establishing strategic partnerships with key powers The uniqueness of the EU as a global actor is carefully assessed and its key policies and the related dilemmas it faces compared with those of other international actors This well written and thoroughly researched book will be a valuable resource for undergraduate and postgraduate students of European politics foreign policy analysis international relations and related disciplines

The European Union and Human Rights Jan

Wouters, Manfred Nowak, Anna-Luise Chané, Nicolas Hachez, 2020-12-17 With the adoption of the Lisbon Treaty the profile of human rights issues has greatly risen in relation to EU policies whether internal or external The EU has thereby made the commitment to ensure that all its actions are compliant with human rights and seek to promote them Yet the EU's commitment has come under scrutiny not only for its ground breaking character but also because recent events have put it to the test This volume has been designed to take stock of these developments to comprehensively discuss the conceptualization and operationalization of the EU's commitment to human rights throughout the EU's relationships policies actions and legislative activity and to critically assess its outcome This title is divided into four parts Framework presents the issues related to human rights promotion by the EU Actors delves into the relationships that play a part at home or abroad in regards to human rights policies and judgements Policies takes a case study approach and systematically reviews a range of EU internal and external policies to assess their human rights impact and implementation and finally Strategies provides an integrated assessment of the design and implementation of the EU's commitment to human rights This book brings together essays from around the world each discussing different aspects of EU commitment and evaluating the extent to which the EU is delivering on it Each chapter provides an introduction to the state of affairs discusses opportunities and challenges and provides recommendations As such it is an essential reference book on human rights policies throughout the EU and their impact throughout the world

Democracy Promotion in the EU's Neighbourhood Sandra Lavenex, Frank Schimmelfennig, 2013-09-13 EU external democracy promotion has traditionally been based on linkage i.e bottom up support for democratic forces in third countries and leverage i.e the top down inducement of political elites towards democratic reforms through political conditionality The advent of the European Neighbourhood Policy and new forms of association have

introduced a new third model of democracy promotion which rests in functional cooperation between administrations This volume comparatively defines and assesses these three models of external democracy promotion in the EU's relations with its eastern and southern neighbours It argues that while linkage has hitherto failed to produce tangible outcomes and the success of leverage has basically been tied to an EU membership perspective the governance model of democracy promotion bears greater potential beyond the circle of candidate countries This third approach while not tackling the core institutions of the political system as such but rather promoting transparency accountability and participation at the level of state administration may turn out to remain the EU's most tangible form of democratic governance promotion in the future This book was originally published as a special issue of Democratization

The Foreign Policies of the European Union and the United States in North Africa Francesco Cavatorta, Vincent Durac, 2013-09-13 The war in Iraq seemed to bring to a head underlying differences between the United States and the vast majority of European countries regarding the best means to maintain international peace and stability The unilateralism of the United States as opposed to the multilateralism of the European Union is seen as a very significant source of potential rivalry between the two actors This volume examines in detail whether the policies of the United States and the EU are truly diverging with respect to the most pressing issues facing North Africa or whether in fact they are converging in terms of objectives to be achieved and strategies for their implementation Through a number of papers that include both comparative and case specific studies this book enables a better understanding of the differences and similarities in EU and US foreign policies and security strategies for the region a clearer analysis of their respective democracy promotion policies and a better examination of their respective approach to the Islamist question in light of the continued success of such movements This book was originally published as a special issue of the Journal of North African Studies

EU Democracy Promotion and the Arab Spring Vera van Hüllen, 2015-08-11 The author explores the practice and effects of the European Union's democracy promotion efforts vis vis its authoritarian neighbours in the Middle East and North Africa She argues that the same set of factors facilitated both international cooperation of authoritarian regimes on democracy promotion and their persistence during the Arab Spring
