The European Union in International Politics Roy H. Ginsberg, 2001 As the world looks to Europe to take on more responsibility in international politics and security in the devastating aftermath of Bosnia and Kosovo this pathbreaking book provides the first systematic evaluation of the political impact of the European Union EU on a global scale Little is known of the EU s international political influence yet if the EU is to develop a viable Common Foreign and Security Policy other actors will have to perceive the Union as an important player Roy Ginsberg fills this vital gap by first linking the contexts and sources of EU foreign policy actions with the processes and outputs of decisionmaking and then examining how outsiders view the EU Combining a masterly synthesis of the literature with invaluable primary interviews and case studies that document the reach of and limits to the EU s political influence Ginsberg takes the study of EU foreign policy to a new level of analysis By defining describing and explaining the different levels and degrees of external political impact the book serves as a model for the advancement of conceptual knowledge rigorous political science research and state of the art survey techniques and methodology Scholars students and practitioners alike will find this rounded and nuanced work indispensable for understanding EU involvement in international politics seen from the perspective of non EU players particularly after the war in Kosovo the enactment of the Treaty of Amsterdam the Irish no vote for the Treaty of Nice and the efforts forged by the Europeans to operationalize the new political security and military committees associated with the European Security and **Defense Policy** The European Union's Roles in International Politics Ole Elgström, Michael Smith, 2006-08-21 This volume sets out explicitly and systematically to bring together the two strands of political science the study of the EU s international activities and IR theory and thus to make a significant original contribution to a developing literature It provides both a conceptual and empirical argument the volume provides an innovative perspective on the analysis of the European Union as an international actor and on the ways in which EU actions are formed and have impact The volume deals with a number of topical issues in such areas as human rights global governance and the roles of international organizations It offers a research agenda based on rigorous development of the framework for role analysis and demonstrates the ways in which this agenda might be furthered *The European Union and Global Politics* Richard Youngs, 2021-03-31 This accessible new textbook situates the European Union in a dramatically changed world order Resisting a more traditional and abstract introduction to the institutions structures and policy making processes of the EU this innovative new text cuts through the jargon to demonstrate how hard the EU must work to retain its international influence Taking into account the latest empirical developments including the spread of war and violence in the East with Ukraine and the ongoing turbulent politics of North Africa and the Middle East Richard Youngs an expert in the field introduces us to how the EU has been forced to act differently The book is unique in offering an outside in conceptual framework that inverts the way that the EU external action is studied and understood It unpacks the different international challenges the EU has faced in recent years

including the weakening of global order the need for more protective security geo economic competition climate change and conflicts to its east and south In each case the book examines how the EU has responded and how its core international identity has changed as a result assessing whether the Union still retains strong global influence This book is the ideal companion for students taking modules on the European Union s foreign policy global politics and for students of European Union Politics more broadly at both undergraduate and postgraduate levels **Routledge Handbook on the European Union and International Institutions** Knud Erik Jørgensen, Katie Verlin Laatikainen, 2013 This Handbook addresses the increasingly contested issue of profound political importance Europe s presence in multilateral institutions It assesses both the evolving role of Europe in international institutions and the transformations in international institutions themselves

**European Union Foreign Policy in a Changing World** Karen E. Smith, 2013-04-18 The second edition of European Union Foreign Policy in a Changing World provides a clear introduction to the complexities of contemporary European foreign policy and offers a fresh and distinctive perspective on the nature of the EU s international identity Thoroughly revised and expanded the book explores how and why the EU tries to achieve five core foreign policy objectives the encouragement of regional cooperation the advancement of human rights the promotion of democracy and good governance the prevention of violent conflicts and the fight against international crime including terrorism. In pursuing these goals the book illustrates how the EU is faced with acute policy dilemmas because the five objectives not only clash with each other but also with additional policy priorities such as securing energy supplies or establishing strategic partnerships with key powers The uniqueness of the EU as a global actor is carefully assessed and its key policies and the related dilemmas it faces compared with those of other international actors This well written and thoroughly researched book will be a valuable resource for undergraduate and postgraduate students of European politics foreign policy analysis international relations and related disciplines The Institutions of the European Union Dermot Hodson, John Peterson, 2017 This book is the key text for anyone wishing to understand the functions powers and composition of the EU s institutions From the Council of Ministers to the European Central Bank all of the most important organizations are analysed and explained by international experts providing students with everything they need to know The European Union as an Actor in Security Sector **Reform** Oya Dursun-Ozkanca, 2017-09-19 This book critically analyzes the European Union's role in Security Sector Reform SSR a topical issue with regards to European security While the literature on SSR has increased significantly in the past decade too little remain in the way of comparative analyses of SSR case studies that are geared toward theory development This collection strives to push the SSR literature in that direction One key question it focuses on is whether the EU pursues a holistic approach vis vis SSR Another question the book addresses is why and how the EU activities towards SSR in conflict management peacebuilding and statebuilding have produced a wide variety of outcomes that range from the failure to reform any or all of the sub set of security sectors police justice military etc to complete and integrated reform The volume

encompasses all relevant cases of SSR in terms of the financial human and political resources involved at the EU level Cases are drawn from the Balkans Kosovo Bosnia Herzegovina Africa Democratic Republic of Congo the Middle East Palestinian Territories Post Soviet Space Georgia and Asia Aceh Indonesia The end product is a welcome contribution to the literature providing both an empirically and theoretically grounded approach to the study of SSR This book was originally published as a special issue of European Security **Insight Turkey 2020/04 - The Future of The Libyan Crisis** ,2020-12-01 Libya is one of the most important regional actors in the Middle East and North Africa region in terms of its geographical location and geostrategic importance In 2011 Qaddafi was ousted from power raising the hopes of the Libyan people for a democratic regime Unfortunately Libya one of the most interesting fronts of the Arab insurgencies and revolutions has disintegrated into a severe civil war and a regional crisis The reasons behind this are both internal and external While the clash between the state non state and armed actors within Libya have threated the internal stability the intervention of some regional and global actors has incited the conflict further Authoritarian regimes and pro status quo states such as the United Arab Emirates UAE Saudi Arabia and Egypt have been against the Arab uprisings as they did not want the will of the people to be reflected in the Middle East and Arab countries administrations Within this context these states did not allow the emergence of an encompassing and pluralist political structure in Libya Furthermore most international and regional powers such as France Russia and the United States have also been supporting this authoritarian coalition Haftar who had little influence during the revolution and lived outside of Libya for a long time attempted a military coup in 2014 by rejecting the authorities of legitimate political actors in the country with the support of these states The Government of National Accord GNA which is recognized as the only legitimate representative of the Libyan state and people by many international institutions most notably the United Nations suppressed Haftar's coup attempt However the abovementioned states continue to invest in Haftar's forces After having amassed enough armed forces with the support of a large coalition of states Haftar launched a comprehensive military attack to take over the capital city of Tripoli in April 2019 to offset up another autocratic regime in Libya While everyone saw the capital Tripoli passing into the hands of Haftar as inevitable and only a matter of time turning a blind eye to the situation Turkey stepped in and upset all the calculations As a result Turkey increased its presence in Libya after two memorandums of understanding MoUs were signed with the GNA in November 2019 With these two memorandums Turkey has determined and declared its sea border in the Eastern Mediterranean and made a commitment to the GNA Accordingly when needed and requested by GNA Turkey is ready to provide all kinds of military support Especially since January 2020 Turkey has supported the GNA militarily and financially in its struggle against Haftar The GNA forces supported by Turkey defeated the Haftar troops and forced them to withdraw from a large area in the Western part of the country Turkey which has altered the whole balance of power in Libya within a short time with the new dynamics has changed the course of the crisis and the civil war in the country Haftar and his supporters who preferred only military

methods had to declare a unilateral ceasefire and to sit down at the diplomatic negotiation table At the same time Turkey persuaded some countries that are flirting with both sides to strengthen their relationship with the GNA Developments in Libya directly influence Turkey since Libya is a very important country for Turkey in the context of both the history of bilateral relations as well as the regional balance of power Therefore since the first days of the revolution Turkey has been in close relations with the legitimate actors in order to protect the territorial integrity and political independence of the Libyan state With its support both in the conflict area and at the negotiating table Turkey ensured that the GNA remains an effective actor Thus Turkey has prevented the persons and groups which are under the control of the anti Turkish coalition during the post Arab spring period On the other hand Turkey has negated all anti Turkey moves formations and processes within the newly emerged strategic regional equation In this sense the legitimate Libyan government came to the fore as a regional actor that it can work with After signing a ceasefire agreement in October 2020 in Geneva the political peace talks started under the auspices of the United Nations acting envoy to Libya Stephanie Williams and the warring sides have reached a preliminary agreement to a roadmap for elections The two rival sides have agreed to hold both parliamentary and presidential elections in December 2021 If the process is completed successfully the future of the country will be determined after these elections hopefully with an end to the discord in the country The Libyan issue is a complex crisis with which many local regional and global actors have become involved Therefore the resolution of the crisis will only be possible with international consensus In order to solve the crisis a negotiation process must begin after securing a sustainable ceasefire agreement all segments of the Libyan society must be included and the two sides must reconcile on civil and democratic principles Only then can a reconstruction of the state and a reform process in political economic and security spheres be initiated This issue of Insight Turkey focuses on underscoring both promises of internal reconstruction and challenges fueled by different external actors intervening in the Libyan crisis This latest issue includes five commentaries and three insightful research articles that explore the Libyan conflict from different perspectives While some pieces focus on the role of different actors in the crisis others analyze the reconstruction efforts While the civil war has pitted Libyans against each other foreign interventions have hindered the resolution of the civil war In this regard Yahia H Zoubir's commentary presents a coherent framework of the foreign powers involved in the Libyan conflict and their interests Zoubir argues that unless those foreign powers have achieved their goals in Libya an end to the civil war anytime soon remains unlikely Talha K se and Bilgehan zt rk provide a rigorous analysis of the external interventions in Libya and the logic behind each intervention between offensive defensive opportunistic or ideological Understanding the full picture in Libya requires us to fully grasp the Turkish role and motivation for the Libyan conflict To do so smail Numan Telci underlines the factors and challenges that made it difficult for Turkey to implement its peaceful plans in Libya and argues that Turkey will continue to be an active supporter of peace and stability in the country Tarek Megerisi briefly analyzes Europe s relations with post revolutionary Libya and European

Laatikainen, K. Smith, 2006-04-13 This is the first book to examine in depth the EU s relationship with the UN and to analyze critically the EU s contribution to effective multilateralism The contributors show that the EU most often fails to make the UN as effective as it should be in addressing global challenges The Routledge Handbook on the European Neighbourhood Policy Tobias Schumacher, Andreas Marchetti, Thomas Demmelhuber, 2017-12-06 The Routledge Handbook on the European Neighbourhood Policy provides a comprehensive overview of the EU s most important foreign policy instrument provided by leading experts in the field Coherently structured and adopting a multidisciplinary approach this handbook covers the most important themes developments and dynamics in the EU s neighbourhood policy framework through a series of cutting edge contributions With chapters from a substantial number of scholars who have been influential in shaping the study of the ENP this handbook serves to encourage debates which will hopefully produce more conceptual as well as neighbourhood specific perspectives leading to enriching future studies on the EU s policies towards its neighbourhood It will be a key reference point both for advanced level students scholars and professionals developing knowledge in the fields of EU European Studies European Foreign Policy Analysis Area studies EU law and more broadly in political economy political science comparative politics and international relations The European Union as a **Global Actor** Charlotte Bretherton, John Vogler, 2005-03-15 This comprehensive up to date and theoretically informed text examines the full range of the European Union's external relations including the Common Foreign and Security Policy It look at the increasingly important part the EU plays in global politics. The authors argue that the EU s significance cannot be grasped by making comparisons with traditional states Issues covered include the status coherence consistency and roles of the EU as an actor and what being an actor means in practice how the field of trade relations forms the basis of the EUs activities the EU in global environmental diplomacy North South relations and in relation to the Mediterranean and East Central Europe the EUs controversial relationship to the Common Foreign and Security Policy and defence European <u>Union Foreign and Security Policy</u> Roland Dannreuther, 2004 The end of the Cold War presented a major challenge to Western Europe and to the European Union It led not only to a whole new set of countries seeking to join the EU but also to a strong demand for a more intensive EU engagement in the broader regional context This book assesses whether the EU has successfully faced up to this challenge and has adapted its policies towards its immediate neighbourhood in a coherent and strategic manner This volume examines EU policy from all its major regional dimensions including assessments of the enlargement process to East Central Europe the increasing engagement of the EU in conflict resolution most notably in the Balkans but also in the Arab Israeli conflict policies towards the countries of the former Soviet Union such as Russia Ukraine

and the Caucasus the complexities of EU policy towards Turkey and the Middle East the transatlantic dimensions of the EU s neighbourhood policies EU Security Missions and the Israeli-Palestinian Conflict Amr Nasr El-Din, 2016-12-19 This book explores and analyses the various factors that affected the formulation of the common EU policy towards the Middle East Peace Process MEPP as well as the specifics of the process by which the EU created EUPOL COPPS and EUBAM Rafah It answers two central questions firstly why and how did the EU decide to create and deploy these missions Secondly where do these two missions fit into the general EU approach to the conflict in the Middle East Based on confidential interviews with various actors in the process uniquely granted to the author it reveals the mechanics of decision making behind the scenes and argues that the EU decision to expand its role in the MEPP through the creation of the two missions was closely related to the EU s defined common interests in the Middle East Further it shows the missions were mainly the result of the EU s already established approaches to further its role in the international political arena This text will be of key interest to scholars and students of European foreign policy EU Politics Middle East politics and studies foreign policy analysis and more broadly to international relations **EU foreign and security policy in Bosnia** Ana Juncos, 2015-11-01 This book represents the first ever comprehensive study of the EU s foreign and security policy in Bosnia Drawing on a wealth of fresh empirical material it demonstrates that institutions are a key variable in explaining levels of common foreign security policy CFSP coherence and effectiveness over time In doing so it also sheds new light on the role that intergovernmental bureaucratic and local political contestation have played in the formulation and implementation of a European foreign policy The study concludes that the EU s involvement in Bosnia has not only had a significant impact on this Balkan country in its path from stabilisation to integration but has also transformed the EU its foreign and security policy and shaped the development of the EU s international identity along the way The book will be of great interest to researchers and students of EU politics International Relations and Bosnian politics The EU and the European Security Order Rikard Bengtsson, 2009-09-10 This book attempts to conceptualise EU action in the field of regional security Drawing on constructivist theory the framework of the book focuses on the meeting or interface of actors a situation reflecting the mutual construction of self other and situation The analytical framework applied here to European security politics is potentially open ended as the theoretical logic that informs the framework is general and abstract in character and not limited to state actors in an international setting The empirical aim of this book is to further our understanding of the EU as a security actor in a regional perspective The book thus links International Relations scholarship with that of EU studies By analyzing a number of different interfaces such as with Russia the US and other states we can learn more about the circumstances and preconditions and with what resources and power the EU acts in a regional security setting This book will be of great interest to students of European security EU policy IR theory and security studies in general Rikard Bengtsson is Assistant Professor of Political Science at Lund University Sweden He has a PhD in Political Science from Lund University

Sweden **Demystifying the European Union** Roy H. Ginsberg, 2010-04-15 Annotation Written by one of the premier scholars on the European Union and hailed as the best undergraduate text on the subject this book has been thoroughly updated revised and streamlined Clear and comprehensive it is dedicated to demystifying one of the world's most important and least understood institutions Ginsberg begins with the foundation blocks of history law economics and politics to provide the context for understanding integration He then breaks the EU down into its individual elements so that they easily can be understood on their own as well as in relation to one another and to the whole Ensuring that students knowledge of the EU rests on a solid foundation the author challenges them to see it as a remarkable experiment in regional cooperation with profound implications for the peaceful resolution of conflict in many of the world's troubled regions **European Russia Policy** Liana Fix,2021-04-24 This book contributes to the debate about a new German power in Europe with an analysis of Germany s role in European Russia policy It provides an up to date account of Germany s Ostpolitik and how Germany has influenced EU Russia relations since the Eastern enlargement in 2004 partly along partly against the interests and preferences of new member states. The volume combines a rich empirical analysis of Russia policy with a theory based perspective on Germany's power and influence in the EU The findings demonstrate that despite Germany's central role exercising power within the EU is dependent on legitimacy and acceptance by other member states US Foreign Policy Münevver Cebeci, 2011-01-06 Issues in E U and U S Foreign Policy edited by M nevver Cebeci aims at analyzing the perceptions interests and policies of the EU and the US on various international issues It portrays their convergences and divergences and reflects on their interplay The book has a geographical focus rather than a thematic one however some themes such as weapons of mass destruction dual use technology transfer energy security and democratization are unavoidable within their respective geographical contexts For example the authors inquire into the case of Iran with a special focus on nuclear proliferation they investigate Russia with a significant emphasis on energy security Iraq is examined with a discussion on the withdrawal of occupation troops and finally the authors address the case of China with a debate on dual use technology transfer Issues in European Union and U S Foreign Policy is composed of two parts The first involves an inventive theoretical framework for understanding EU and US foreign policy The analysis extends beyond traditional approaches that seek to explain US and EU foreign policy through various dichotomies such as soft power versus hard power without overlooking the significance of such dichotomies This section further discusses how European and American scholars approach transatlantic relations in different ways The second section covers an intensive comparative analysis of EU and US foreign policy on specific issue areas Some chapters also deal with the impact of their policy divergences and convergences on transatlantic relations and NATO Nevertheless the book aims to go beyond the parochial debates of burden sharing or division of labor in transatlantic relations It focuses on and actually proposes a broader framework of cooperation and coordination for the EU and the US Germany and the Common Foreign and Security

Policy of the European Union A. Miskimmon, 2007-09-20 This study assesses the influence of German policy makers on EU policy and the impact of EU membership on foreign policy making at the national level The book concludes that limitations remain on the Europeanization of German foreign and security policy and Germany's ability to play a leading role in military crisis management International Politics & State Strength Thomas J. Volgy, Alison Bailin, 2003 Although it has been more than a decade since the Cold War global structure collapsed neither scholars nor policymakers have clearly identified its replacement What is the new world order ask Thomas Volgy and Alison Bailin and in the midst of declining state strength who sustains it They find their answers in the system collectively constructed by the major powers The authors consider both the nature of state strength and the changing capabilities of the states most likely to construct global architecture Demonstrating that the traditional structures of global order hegemony bipolarity and multipolarity are inconsistent with existing and projected patterns of state strength they present a provocative alternative model that reflects the creeping incrementalism of multilateral institutions and the institutionalized group hegemony of the G 7 states In their final chapter they explore the weaknesses of the present architectural arrangements and discuss alternative scenarios
