**A handbook to the public picture galleries of Europe** Kate Mary M. Thompson, 1878      **A Handbook to the Public Picture Galleries of Europe**, 1878      Handbook to the Public Picture Galleries of Europe Kate Thompson, 1880      *A Handbook to the Public Picture Galleries of Europe* Kate Thompson, 1880      *National Galleries* Simon Knell, 2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism      A Gallery of Her Own Elree I. Harris, Shirley R. Scott, 2013-11-26 First Published in 1997 This book is intended as a resource for anyone interested in the artistic contributions and activities of women in nineteenth century Britain It is an index as well as an annotated bibliography and provides sources for information about women well known in their own time and about women who were little known then and are forgotten now      **Masterworks of European Painting in the California Palace of the Legion of Honor** Steven A. Nash, Lynn Federle Orr, California Palace of the Legion of Honor, Marion C. Stewart, 1999 This beautiful volume presents colorplates and essays covering 100 masterpieces of European art from one of America's finest collections housed in the California Palace of the Legion of Honor      *The Social World of Galleries* Alain Quemin, 2024-10-17 This book presents the first detailed study of the place of contemporary art galleries and gallerists especially within the art markets of Europe and the United States Based on the author's field research carried out for over a decade and combining ethnographic material with quantitative data the book reveals the major role galleries play in the creation of art value Despite being pillars of the art market there has been very little in depth research on galleries especially when compared with the analysis of artists critics and dealers Written by a sociologist who has spent a decade as an art critic the book builds on work conducted by art historian and sociologist Raymonde Moulin from the 1960s to the 1990s Drawing on ethnographic observations and interviews with those working in the field today it provides a

thorough and up to date analysis of what contemporary art galleries really are the spaces they occupy both physically and online their position within gallery districts their relation to art fairs and biennials and how friendship with clients is built and trends within the business in turn illuminating the hierarchized structure of the sector The book concludes by addressing a significant gap in data on the art market by providing a sociological ranking of international contemporary art galleries Offering a detailed analysis to a topic that has never been fully studied The Social World of Galleries is essential reading for scholars and students of art sociology art history and art business as well as gallerists collectors or art lovers and artists themselves

Diversity Counts Anne Dymond, 2019-06-30 Despite the common belief that art galleries will naturally become more gender equitable over time the fact is that many art institutions in Canada have become even less so over the last decade with female artists making up less than 25 per cent of the contemporary exhibitions of several major galleries In the first large scale overview of gender diversity in Canadian art exhibitions Anne Dymond makes a persuasive plea for more consciously equitable curating Drawing on data from nearly one hundred institutions Diversity Counts reveals that while some galleries are relatively equitable many continue to marginalize female and racialized artists The book pursues an interdisciplinary approach considering the art world's resistance to numeric data discourses on representation and identity changing conceptualizations of institutional

responsibility over time and different ways particular institutions manage inclusion and exclusion A thoughtful examination of the duty of public galleries to represent underserved communities Dymond s study bravely navigates the unspoken criteria for acceptance in the curatorial world Demonstrating how important hard data is for inclusivity Diversity Counts is a timely analysis that brings the art world up to date on progressive movements for social transformation **Entangled Art**

War II and the early Cold War and explains how the War provided the government with an impetus to create a national arts policy. It discusses how national diplomacy exhibitions on US soil were deployed as persuasive tools to influence public opinion to reconcile discrepancies between high art and democracy and to resolve America's lagging art status and difficulties with the foreign. The type of soft diplomacy that art museums provide by initiating national diplomacy exhibitions has not received emphasis in the scholarly community and art museums have essentially been ignored in cultural studies of the early Cold War. Scholarly analysis of museum exhibitions in the last quarter of the 20th century is now a popular topic but investigations of exhibitions between 1939-1960 have been thin. By scrutinizing major exhibitions during those formative years, this book takes a new perspective and examines the foundational development of the so-called blockbuster exhibition stimulated by World War II. The book will interest readers in visual studies, history, museums, cultural affairs, government, and international diplomacy.
