

AQA History

The Quest for Political Stability: Germany 1871-1991

Transition work

Activity One – Research

This work can be produced in whichever format you choose e.g. Word document, PowerPoint, poster, handwritten notes.

(1) Germany was established as a single country in 1871. This unit starts with the Second Reich being declared, with Wilhelm I as Kaiser and Bismarck as Chancellor.

It will be useful for you to gain an understanding of how Germany became unified. To do this, you should research the following points:

- Which states made up the Holy Roman Empire
- How it was destroyed in 1806
- 1815 Congress of Vienna
- Creation 'North German Confederation' in 1867
- The Franco-Prussian War of 1870-1871.

(2) A knowledge of the geography of Germany will help you understand its history. Consequently, you should research the following points to gain a greater awareness:

- The geographical location of Germany
- The countries it shares a border with
- Access to the sea
- Its terrain
- Its natural resources.

Activity Two – Extended writing

Use your research to answer the following question.

What role did Bismarck play in the unification of Germany in 1871?

For further queries or to submit work, please email naddison@wigstonmat.org.

European History For As Level Germany 18661945

Richard J. Evans

European History For As Level Germany 18661945:

William Simpson and Martin Jones combine accounts of the most important countries with the wider political economic social and cultural themes affecting Europe as a whole including the impact of the French Revolution and Napoleon the rise of industry the growth of nationalism the 1848 revolutions Imperialism Marxism and left wing movements This second edition has been significantly expanded with additional sections on Science and Technology and Thought and Culture There are two entirely new chapters Changes in the World of Ideas which explores European responses to the Enlightenment and the French Revolution as reflected in literature music and painting and Europe and the United States which examines the reciprocal relationship between these two continents during this critical period The final chapter Retrospect and Prospect now addresses the changing intellectual climate under the influence of figures such as Darwin Freud and Nietzsche and new departures in the arts evident at the dawn of the twentieth century Every chapter features a list of key dates concise background information and suggestions for further reading as well as a concluding Topics for Debate section which contains relevant contemporary sources and outlines the contrasting views of recent historians on the key issues Extensively illustrated throughout with maps contemporary cartoons and portraits Europe 1783 1914 is a clear detailed and highly accessible analysis of this turbulent and formative period of European History **Nazism as Fascism** Geoff

Eley,2013-05-29 Offering a dynamic and wide ranging examination of the key issues at the heart of the study of German Fascism Nazism as Fascism brings together a selection of Geoff Eley s most important writings on Nazism and the Third Reich Featuring a wealth of revised updated and new material Nazism as Fascism analyses the historiography of the Third Reich and its main interpretive approaches Themes include Detailed reflection on the tenets and character of Nazi ideology and institutional practices Examination of the complicated processes that made Germans willing to think of themselves as Nazis Discussion of Nazism s presence in the everyday lives of the German People Consideration of the place of women under the Third Reich In addition this book also looks at the larger questions of the historical legacy of Fascist ideology and charts its influence and development from its origin in 1930 s Germany through to its intellectual and spatial influence on a modern society in crisis In Nazism as Fascism Geoff Eley engages with Germany s political past in order to evaluate the politics of the present day and to understand what happens when the basic principles of democracy and community are violated This book is essential reading not only for students of German history but for anyone with an interest in history and politics more generally *European History for AS Level* Steve Eddy,Tony Lancaster,2002-01-01 Meeting your AS A Level History needs

European History for As Level Steve Eddy,Mark Cottingham,Tony Lancaster,2002 Answer book offers suggested answers to all activities in the students books **Peasants and Lords in Modern Germany** Robert G. Moeller,2017-07-06 This collection of essays first published in 1986 provides an exciting introduction to modern German agrarian history The essays offer a revised account of the agricultural sector in an industrial Germany and provide an extensive methodological conceptual and thematic range This collection challenges accepted interpretations suggests some alternatives and at the

same time offers a context in which new questions can be posed and answers can be sought *Rethinking German History* (Routledge Revivals) Richard J. Evans, 2015-08-11 In *Rethinking German History* first published in 1987 Richard J. Evans argues for a social historical approach to the German past that pays equal attention to objective social structures and subjective values and experiences. If German history has been seen as an exception to the normal development of Western society, this is not least because historians have until recently largely failed to look beyond the world of high politics, institutions, organizations, and ideologies to broader historical problems of German society and German mentalities. By applying and adapting approaches learned from French and British social history as they have been developed over the last quarter of a century, it is possible to achieve a rethinking of German history which does away with many of the textbook myths that have encrusted the historiography of Germany for so long. This book will be valuable for students of German history and politics and brings together essays widely used in teaching. Its broad coverage of social history will also be useful to all those interested in contemporary historiography or the comparative study of European history.

Germany at War David T. Zabecki, 2014-10-28 Written by experts for use by nonexperts, this monumental work probes Germany's Genius for War and the unmistakable pattern of tactical and operational innovation and excellence evident throughout the nation's military history. Despite having the best military forces in the world, some of the most advanced weapons available, and unparalleled tactical proficiency, Germany still lost both World Wars. This landmark four-volume encyclopedia explores how and why that happened at the same time, examining Germany as a military power from the start of the Thirty Years War in 1618 to the present day. Coverage includes the Federal Republic of Germany, its predecessor states, and the kingdoms and principalities that combined to form Imperial Germany in 1871. The Seven Years War is discussed, as are the Napoleonic Wars, the Wars of German Unification, including the Franco-Prussian War, World War I, World War II, and the Cold War. In all, more than 1,000 entries illuminate battles, organizations, leaders, armies, weapons, and other aspects of war and military life. The most comprehensive overview of German military history ever to appear in English, this work will enable students and others interested in military history to better understand the sociopolitical history of Germany, the complex role conflict has played in the nation throughout its history, and why Germany continues to be an important player on the European continent.

The ^A Populist Temptation Barry Eichengreen, 2018-05-03 Lucidly explaining both the appeals and dangers of populism across history, this book is essential reading for anyone seeking to understand not just the populist phenomenon but more generally the lasting political fallout that follows in the wake of major economic crises.

European Powers in the First World War Spencer Tucker, 2018-12-07 First published in 1996, *The First World War* was the single most important event of the twentieth century. This volume concentrates on non-U.S. aspects of the conflict. Organized alphabetically, its more than 600 detailed entries offer information and insight on such subjects as the causes of the conflict, major battles, and campaigns, weapons systems, including military aviation, chemical warfare, the submarine, and the tank, and the terms of the peace. Some

350 biographies provide information on the roles played in the conflict by generals admirals and civilian leaders There are also biographies of individuals who were shaped by the war such as Charles De Gaulle Adolf Hitler Benito Mussolini and Joseph Stalin essays on each of the countries involved in the conflict new appraisals of such subjects as military medicine and artillery tactics and essays on such diverse subjects as art literature and music in the war Each entry has references for additional reading and a subject index provides easy access The volume is an excellent reference source for scholar and neophyte alike

Afro-Eurasia: Assessing Sustainability Ray C. Anderson, Louis Kotz, Stephen Morse, 2012-10-31 Afro Eurasia Assessing Sustainability focuses on the geographic area where humans originated and first began to make use of the natural world Earth's largest landmass stretching from Portugal in the west across the steppes of Russia and south across Africa to the Cape of Good Hope By examining the history of human expansion as well as 21st century pressures to address ecosystem damage across the region international scholars and regional experts weave sustainability into core curricular subjects The interdisciplinary coverage includes national and regional environmental histories as well as business and commerce migration educational institutions law and government and the lifestyles of diverse populations

Forthcoming Books Rose Arny, 1999 **Ornamental Nationalism** Seonaid Valiant, 2017-09-25 In Ornamental Nationalism Archaeology and Antiquities in Mexico 1876-1911 Seonaid Valiant examines the Porfirian government's reworking of indigenous particularly Aztec images to create national symbols She focuses in particular on the career of Mexico's first national archaeologist Inspector General Leopoldo Batres He was a controversial figure who was accused of selling artifacts and damaging sites through professional incompetence by his enemies but who also played a crucial role in establishing Mexican control over the nation's archaeological heritage Exploring debates between Batres and his rivals such as the anthropologists Zelia Nuttall and Marshall Saville Valiant reveals how Porfirian politicians reinscribed the political meaning of artifacts while social scientists both domestic and international struggled to establish standards for Mexican archaeology that would undermine such endeavors

Audrey Hepburn Nick Yapp, Nicholas Yapp, 2009 Audrey Hepburn was the epitome of elegance and style Her beauty fragility grace and warmth set her apart from her Hollywood contemporaries She spent World War II in poverty in Holland then moved to London where she trained as a ballerina After making her stage debut on Broadway in Gigi she became one of the world's best loved screen actresses Her performances in Roman Holiday My Fair Lady and Breakfast at Tiffany's are unforgettable For many her extensive humanitarian work which marked her later life remains her greatest achievement As well as photos by the likes of Richard Avedon and Slim Aarons this unusually candid and intimate volume features less wellknown work such as Bert Hardy's very early shots for Picture Post from the 1950s and photos from the Time Life archive by Leonard McCombe and Ralph Morse

The Periodical, 1978 **Geostrategic Psychology and the Rise of Forbearance** JIANG Peng, 2022-09-30 Based on the framework of geostrategic psychology this book elucidates the intrinsic law of the rise and fall of great powers and gives insights into the quandary of China's rise and the mechanism behind the

strategy Conflating geopolitics and strategic psychology geostrategic psychology is rooted in the historical study of strategy and premised on an assumption that human beings bear resemblance in psychology and behavior when facing the same structure of geopolitical circumstance The book analyzes intriguing phenomena from strategic psychology including trend anxiety and conflict willingness the Old Man Phenomenon in international politics the Santa Claus Effect the Myth of the Sunk Cost Fallacy Bidder Myth Gambler s Game Philip Trap William s Dilemma Heartland Myth Domino s Fear Golden Nation Myth Alliance Commitment Dilemma and Corinthian Dilemma among others The author combines theory history and the practice of international politics revealing how a nation can occupy a favorable position in the field of global strategic competition and prospects for China The title will be a valuable reference for observers of international politics as well as researchers and students interested in international relations international politics geopolitics strategic psychology and geostrategic psychology

First Strike Matthew J. Flynn, 2008-07-09 Preemptive warfare is the practice of attempting to avoid an enemy s seemingly imminent attack by taking military action against them first It is undertaken in self defense Preemptive war is often confused with preventive war which is an attack launched to defeat a potential opponent and is an act of aggression Preemptive war is thought to be justified and honorable while preventive war violates international law In the real world the distinction between the two is highly contested In *First Strike* Matthew J Flynn examines case studies of preemptive war throughout history from Napoleonic France to the American Civil War and from Hitler s Germany to the recent U S invasion of Iraq Flynn takes an analytical look at the international use of military and political preemption throughout the last two hundred years of western history to show how George W Bush s recent use of this dubiously honorable way of making war is really just the latest of a long line of previously failed attempts Balanced and historically grounded *First Strike* provides a comprehensive history of one of the most controversial military strategies in the history of international foreign policy
