Europeans On Europe Transnational Visions Of A New Continent:

Europeans on Europe Jolyon Howorth, Mairi Maclean, 1994 **Europeans on Europe** Jolyon Howorth, 2016-07-27

Europeans on Europe offers an assessment of the hopes, fears, expectations and preparedness of Britain, France and Germany at the approach of the 1992 deadline. It examines both at the national and European level the three key areas of business and economics, foreign and defence policy and politics and political culture, both country by country and in a comparative mode.

Governing the New Europe Jack Ernest Shalom Hayward, Edward Page, 1995. *Governing the New Europe* provides a comprehensive and scholarly account of the changing political map of Europe as it emerges from the Cold War. Exploring the variations of liberal democracy and market economy among the European states as well as current trends in these directions, the contributors to this volume, all leading authorities in European politics, consider whether a common political model has begun to emerge out of historic European diversity. Beginning with a discussion of the political, economic and cultural development of Europe from a historical perspective, the focus of the book shifts to an examination of the changing forms of European democracy and the move from public ownership and planning to privatization and deregulated competition. Further essays analyze the challenge to national party systems and electoral performance from emerging social movements and organized interest groups. Political and bureaucratic structures are also examined, as is the new European constitutionalism reflected in the increasingly significant role of the judiciary. Lastly, attention is turned to several major themes in European politics: the changing foundations of foreign and security policy; the function of industrial champion firms; and the retreat from the welfare state. Primarily comparative in its scope, *Governing the New Europe* does devote particular attention to specific major states as well as to the importance of the European Union to the political life of member and non-member countries. Neither exaggerating the common features of the patterns that have emerged in contemporary Europe nor capitulating to the complexity of enduring differences and instabilities between states, *Governing the New Europe* will become one of the standard texts in its field. Contributors: Jack Hayward, Jolyon Howorth, Herbert Kitschelt, Marie Lavigne, Tom Mackie, Michael Mezey, Edward C. Page, Richard Parry, Richard Rose, Anthony Smith, Alec Stone. **France on the World Stage** M.

Maclean, J. Szarka, 2008-04-30. This book examines the ways in which France's relations with the international community have evolved in a period of accelerating globalization. It considers the role of the nation-state and its capacity for political initiative, examining French strategies to reinforce French influence on the world stage. **National Government**

Narratives of the EU Hussein Kassim, Adriaan Schout, 2025-02-26. This book examines and compares government narratives of the EU. It thereby addresses a topical issue of major political importance. Bringing together leading specialists from across Europe, it takes a first step in filling a gap in the scholarly literature where attention has focused mainly on narrative-making at the EU level or societal understandings of Europe. At a time when crises, the rise of Eurosceptic populism and the UK's departure have revealed significant differences in how states view the purpose of the European Union and the significance

and value of EU membership it asks How do governments explain and justify their relationship with the EU How do these narratives change over time What do these visions imply for the EU's future

France, NATO and the Limits of Independence 1981-97 A. Menon, 2000-01-12 This book presents the first in depth assessment of France's policies towards NATO between 1981 and 1997 It also provides a critical assessment of these policies It argues that France's arms length relationship with NATO's integrated military structure served its purpose during the Cold War but increasingly came to impose high costs thereafter

Citizens of Europe? M. Bruter, 2005-08-11 This book shows empirically for the first time how a mass European identity has emerged across the EU member states between 1970 and the present day Beyond this novel approach it also offers a whole new theory of political identities based on two civic and cultural components Michael Bruter shows how multiple identities reinforce rather than exclude each other and studies in depth the unsuspected impact of the media and political institutions on the emergence of new political identities

The European Union and National Defence Policy Jolyon Howorth, Anand Menon, 2005-08-18 Filling a surprising gap in existing studies this book addresses many of the unanswered questions surrounding the role of European integration in shaping national defence policy The impressive array of contributors consider the pressures on state policy emanating from the process of integration The book is divided into three distinct parts an outline of the tortuous history of attempts to link defence with European integration a study of the four larger member states France Germany Italy and the UK as well as a chapter on The Netherlands an analysis of the effects of the nuclear weapons and arms procurement policies This the second book in The State and the European Union series sheds light on an increasingly important and topical aspect of contemporary European security and will be essential reading for those studying European Politics Public Policy and International Relations

Foreign Policy and Discourse Analysis Henrik Larsen, 2005-11-30 Henrik Larsen presents discourse analysis as an alternative approach to foreign policy analysis Through an extensive empirical study of British and French policies towards Europe in the 1980s he demonstrates the importance of political discourse in shaping foreign policy The author discusses key theoretical problems within traditional belief system approaches and proposes an alternative one political discourse analysis The theory is illustrated through detailed analyses of British and French discourses on Europe nation state security and the nature of international relations

Resisting the European Court of Justice Bill Davies, 2012-06-18 Investigates how the fundamental transformations in the European legal system were received in one of the most important European Union member states Germany

The Territorial Factor Gertjan Dijkink, Hans Knippenberg, 2001 Nowadays political territoriality is profoundly put to the test by globalization the rise of the network society international migration and new types of risk that state governments find hard to control Yet new political configurations do not invalidate the relevance of territory and territorial identity right away Moreover people who want to escape or forget foreign dominance still reach for the traditionally sovereign state Eastern Europe Asia In this book an international group of political geographers analyse the meaning of post modern

transformation in territoriality at different geographical scales global international and local They cover such varied topics as the probability of a clash between civilizations the rise of World cities the disintegration of African States ethnic conflicts and politics in Europe the meaning of a supranational territorial order European Union the end of the welfare state nation building and its symbols Israeli cultural politics urban regimes and local conflict defense mechanisms The perspectives put forward match more general theoretical geography and political science and involve case studies from different parts of the World This important new study is of immediate interest to students of all levels of political science sociology social geography administrative science international relations contemporary history and to policy makers and politicians

Remaking The Hexagon Gregory Flynn, Yves Meny, 2019-07-09 In this volume distinguished French and U S historians economists and political scientists explore the dimensions of France's current crisis of identity Although every European nation has been adjusting to the dramatic transformations on the continent since the end of the Cold War France's struggle to adapt has been particularly difficult Responding to a mix of external and internal pressures the nation is now questioning many basic assumptions about how France should be governed what the objectives of national policies should be and ultimately what it means to be French Rather than focusing explicitly on the problem of identity the contributors offer differing perspectives on the issues at the heart of the country's debate about its future They begin by examining how France's historical legacy has influenced the way the nation confronts contemporary problems giving special attention to the manner in which past traumatic experiences socioeconomic and cultural traditions and the belief in French exceptionalism have shaped current political thinking They then consider how favoring a more open approach to trade and building a strong franc have changed the culture of economic policy and created dilemmas for the role of the state as a guarantor of welfare They go on to explore changes in elite structures the evolution of the party system and the spillover of new political conditions that are driving France's efforts to establish a strong national identity in the area of trade Finally the contributors examine the central influence of the changing international framework on France's self definition on its security policies its relationship to the European Union and its basic perceptions of the state and sovereignty They also consider how the answers to these questions are affecting France's relationships with the outside world and the overriding policy dilemmas faced by all the European nations

Why Europe? Problems of Culture and Identity J. Andrew, M. Crook, M. Waller, 2000-02-24 This volume addresses a range of issues which underlie the notions of European identity Among them what does it mean to be a European What place will minorities find in the Europe of the twenty first century What roles will women play in the future communities Will Europe become more open to diversity or become increasingly introspective

Coming in from the Cold War Sabrina P. Ramet, Christine Ingebritsen, 2002 Since the end of the Cold War U S relations with Europe have charted a new course influenced especially by the dissolution of the Warsaw Pact the expansion of NATO and the growing strength of the European Union This volume analyzes U S interactions with Britain France Germany Spain Russia Poland and Ukraine

and examines the new role for NATO and the evolving dynamics in the U S EU partnership Through their assessment of mutual perceptions evolving interests and clashing agendas the contributors offer a fresh and thoughtful exploration of the U S relationship with the major European states *Trajectories* Kuan-Hsing Chen,2005-10-05 *Trajectories* brings together cultural theorists not only from countries with a known historical critical tradition such as America Canada and Australia but from the East Asia locations of Hong Kong Korea Singapore Taiwan Philippines India and Thailand It constitutes a critical confrontation between the imperial and colonial co ordinates of north and south east and west Without rejecting the Anglo American practices of cultural studies the contributors present critical cultural studies as an internationalist and decolonized project *Trajectories* links critical energies together and charts future directions of the discipline The contributors discuss subjects such as Japanese colonial discourse cultural studies out of Europe Chinese nationalism in the context of global capitalism white panic stories from East Timor queer life in Taiwan and new social movements in Korea The book ends with an interview with Stuart Hall *NATO (Not for Individual Sale)* G. Schmidt,2019-06-12 *NATO The First 50 Years* offers the first comprehensive study of the institution s activities and development over the past five decades Written by a team of international scholars it analyses the factors which have made NATO the most successful politico military alliance in history It also addresses the perennial problems of transatlantic relationships the problems that the Alliance grapples with today A wide ranging and masterful survey *NATO The First 50 Years* will be a useful reference work for researchers as well as an accessible guide for students **Democracy, social resources and political power in the European Union** Niilo Kauppi,2018-02-28 In this book Kauppi develops a structural constructivist theory of the European Union and critically analyses through French and Finnish empirical cases the political practices that maintain the Union s democratic deficit Kauppi conceptualises the European Union as both an arena for political contention and a nascent political order In this evolving multi levelled European political field individuals and groups construct material and symbolic structures of political power grounded in a variety of social resources such as nationality culture and gender The author shows how the dominance of both executive political resources and domestic political cultures has prevented the development of European democracy Supranational executive networks have become more autonomous reinforcing the dominance of the resources they control At the same time national political cultures condition the political status of elected institutions such as the European parliament The book is particularly suited for undergraduate and graduate students in the fields of European Politics European Union Studies and International Relations *Ibss: Political Science: 1992* British Library of Political and Economic Science,1993 The IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences *The Nazi-Fascist New Order for European Culture* Benjamin G.
