## **Europe's Green Alternative:**

**Europe's Green Alternative** ,1992      Green Parties in Europe Emilie van Haute,2016-04-28 The emergence of green parties throughout Europe during the 1980s marked the arrival of a new form of political movement challenging established models of party politics and putting new issues on the political agenda Since their emergence green parties in Europe have faced different destinies in countries such as Germany Belgium Finland France and Italy they have accumulated electoral successes participated in governments implemented policies and established themselves as part of the party system In other countries their political relevance remains very limited After more than 30 years on the political scene green parties have proven to be more than just a temporary phenomenon They have lost their newness faced success and failure power and opposition grassroots enthusiasm and internal conflicts Green Parties in Europe includes individual case studies and a comparative perspective to bring together international specialists engaged in the study of green parties It renews and expands our knowledge about the green party family in Europe      *A Green Dimension for the European Community* David Judge,2014-03-05 First Published in 1993 A Green Dimension for the European Community is a collection of nine essays from a range of contributors separated into two parts political issues and processes The theme discusses the idea that the introduction of the Single Market marks a particularly appropriate time to consider the political issues and processes affecting environmental policy in the European Community EC The contributors argue that at such a time and in the face of such threats an understanding of the green dimension of the EC is more than an academic exercise This title concludes with a comprehensive index      *Elections in Western Europe 1815-1996* Daniele Caramani,2017-02-13 The Societies of Europe is a series of historical data handbooks on the development of Europe from the nineteenth to the twentieth century The series is a product of the Mannheim Centre for Social research a body dedicated to comparative research on Europe and one of the leading social research institutes in the world It is a collection of datasets giving a clear and systematic study of long term developments in European society The data is presented statistically and is clearly comparative The Societies of Europe is the most comprehensive data series available on Western European social issues      Democracy and Green Political Thought Brian Doherty,Marius de Geus,2003-12-16 The green movement has posed some tough questions for traditional justifications of democracy Should the natural world have rights Can we take account of the interests of future generations But questions have also been asked of the greens Could their idealism undermine democracy Can greens be effective democrats In this book some of the leading writers on green political thought analyze these questions examining the discourse of green movements concerning democracy the status of democracy within green political thought and the political institutions that might be necessary to ensure democracy in a sustainable society      *Culture and Social Change* Marguerite Mendell,1992

**New Challenger Parties in Western Europe** Airo Hino,2012-06-12 This book provides a systematic and comparative account of the rise of new challenger parties across Western Europe It analyses how parties that challenge the conventional

party system by addressing issues neglected by existing parties can succeed and fail Systematically comparing 229 elections since 1950 across 15 European democracies including the United Kingdom France Germany Italy the Benelux and Scandinavian countries this book questions why new challenger parties are more successful in some countries than others and analyses the conditions that determine their emergence and subsequent success or failure As one of the first systematic and comparative examinations of new challenger parties this book looks at both new politics parties and extreme right parties and the structures to aid their emergence at the time of an election Identifying two distinctive stages of party development the author adopts a double hurdle model involving first the chances of emergence and second sustained success This framework in combination with a wide range of empirical data provides for an innovative and insightful analysis of a neglected topic New Challenger Parties in Western Europe will be of interest to students and scholars of government comparative politics and political parties

Europe Kevin Hillstrom,Laurie Collier Hillstrom,2003-08-13 A concise yet thorough overview of the environmental issues problems and controversies facing the world s most densely populated continent Europe Europe one of six titles in The World s Environments series tackles the tough issues the complex problems and the political controversies surrounding the continent s environmental past its complicated present and its uncertain future Europe looks at the catastrophes in January 2000 a massive spill of cyanide and heavy metals from a gold mining operation in Romania destroyed all biological life in the Tisza Hungary s second biggest river The poisons traveled 1 000 kilometers through Hungary and Yugoslavia where they wreaked havoc on the Danube It also examines the progress European society has shown a greater interest in renewable energy technologies than most other industrialized regions in the last 30 years Serving as both a blueprint for the future as well as a roadmap of the past this book offers a gripping look at Europe s ecological history

**Green Parties and Politics in the European Union** Elizabeth Bomberg,2005-08-02 Bomberg argues the greening of European politics and the advancement of European integration are inextricably linked and that the EU presents a strategic dilemma to Green parties In short how can Greens reconcile their radical alternative politics with the EU s mainstream traditional institutions and practices Bomberg s analysis is based on over 100 interviews with leading green politicians NGO members environmental and industrial lobbyists EU officials and MEPs She includes appendices showing profiles of green parties in European countries and key policy making institutions

**Historical Dictionary of the Green Movement** Miranda Schreurs,Elim Papadakis,2020-02-26 There are very serious environmental problems facing the planet Biodiversity loss has reached unprecedented levels Climate change is progressing so rapidly that within this century we are likely to see substantial sea level rise There has been dramatic loss of tropical rainforests Plastic pollution is killing wildlife and polluting our oceans Various movements old and new are addressing these green issues Civil society activism has taken on new strategies with the emergence of new technologies and global networks of green activists have formed A new generation of green activists are emerging and boldly criticizing the status quo At the same time in some

parts of the world green movements that looked like they were beginning to gain a political foothold or were even doing quite well are in retreat The reasons are complex Some suffer from lack of funding and hostile political and legal environments Others are being attacked by populist politicians who see green activism as a threat The second edition of Historical Dictionary of the Green Movement contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced on green movements green politics green trends and major environmental agreements and events This book is an excellent resource for students researchers and anyone wanting to know more about the green movement
