

The background of the entire image is a sepia-toned photograph. It depicts a close-up of a hand holding a lit match, with the flame glowing brightly. The hand is positioned in the center, and the match is held horizontally. Below the hand, a field of grain, possibly wheat or barley, is visible, with the stalks slightly blurred. The overall lighting is warm and golden, suggesting a sunset or sunrise. The title text is overlaid on this image.

EUROPE'S LAST SUMMER

WHO STARTED
THE GREAT WAR IN 1914?

DAVID FROMKIN

Europes Last Summer Who Started The Great War In 1914

Sean McMeekin

Europe's Last Summer Who Started The Great War In 1914:

Europe's Last Summer David Fromkin, 2005-03-08 When war broke out in Europe in 1914 it surprised a European population enjoying the most beautiful summer in memory For nearly a century since historians have debated the causes of the war Some have cited the assassination of Archduke Franz Ferdinand others have concluded it was unavoidable In **Europe's Last Summer** David Fromkin provides a different answer hostilities were commenced deliberately In a riveting re creation of the run up to war Fromkin shows how German generals seeing war as inevitable manipulated events to precipitate a conflict waged on their own terms Moving deftly between diplomats generals and rulers across Europe he makes the complex diplomatic negotiations accessible and immediate Examining the actions of individuals amid larger historical forces this is a gripping historical narrative and a dramatic reassessment of a key moment in the twentieth century

The Fragility of Order George Weigel, 2018-04-27 One of America's most prominent public intellectuals brings thirty five years of experience in Washington and Rome to bear in analyzing the turbulence that characterizes world politics American public life and the Catholic Church in the early twenty first century In these bracing essays George Weigel reads such events as the First World War the collapse of Communism and the Obama and Trump presidencies through a distinctive cultural and moral lens even as he offers new insights into Pope Francis and his challenging pontificate Throughout two of Weigel's key convictions that ideas have consequences for good and ill and that the deepest currents of history flow through culture illuminate political and economic life and the life of the Church in ways not often appreciated or understood Many of the chapters in this book originated in George Weigel's annual William E Simon Lecture which since 2001 has become a major event in Washington D C They are unique in their application of philosophical and theological perspectives to the issues of history and politics enabling the reader to see current events in a deeper way

Nazi Empire Shelley Baranowski, 2011 Examines the history of Germany from 1871 to 1945 as an expression of the tension of empire

History's Greatest Heist Sean McMeekin, 2008-12-17 How Lenin's regime turned Russia's priceless cultural patrimony into armored cars trains planes and machine guns Historians have never resolved a central mystery of the Russian Revolution How did the Bolsheviks despite facing a world of enemies and leaving nothing but economic ruin in their path manage to stay in power through five long years of civil war In this penetrating book Sean McMeekin draws on previously undiscovered materials from the Soviet Ministry of Finance and other European and American archives to expose some of the darkest secrets of Russia's early days of communism Building on one archival revelation after another the author reveals how the Bolsheviks financed their aggression through astonishingly extensive thievery Their looting included everything from the cash savings of private citizens to gold silver diamonds jewelry icons antiques and artwork By tracking illicit Soviet financial transactions across Europe McMeekin shows how Lenin's regime accomplished history's greatest heist between 1917 and 1922 and turned centuries of accumulated wealth into the sinews of class war McMeekin also names names introducing for the first time the

compliant bankers lawyers and middlemen who for a price helped the Bolsheviks launder their loot impoverish Russia and impose their brutal will on millions

World War I Rebecca Leigh Rissman,2015-09-01 Why did the assassination of Archduke Franz Ferdinand of Austria spark World War I How did a sinking ship and a telegram convince the United States to join the fight How did patriotism and brotherhood motivate soldiers in the trenches From the battlefields of France to the Russian Revolution World War I Why They Fought reveals the motivations behind World War I from all sides Go beyond names and dates and ask what were they fighting for

Introduction to International Relations Richard W. Mansbach,Kirsten L. Taylor,2007-09-12 This textbook introduces students to the key changes in current global politics in order to help them make sense of major trends that are shaping our world The emphasis on change in global politics helps students to recognize that genuinely new developments require citizens to change their beliefs and that new problems may appear even as old ones disappear It is designed to encourage students to think ahead in new open minded ways even as they come to understand the historical roots of the present Key features explains global politics using an historical approach assesses several types of theory so that students become aware of what theory is and why it is necessary for understanding global politics presents key aspects of global politics including the development of the nation state power international law war foreign policy security terrorism international organization international political economy the global south the environment and globalization extensive pedagogy to reinforce learning student activities visual materials definitions of key terms and names learning boxes cultural materials key documents annotated bibliography and website addresses support website with lecturers materials datasets and updates Introduction to Global Politics will be essential reading for students of political science global politics and international relations

Christianity and World Religions Gavin D'Costa,2009-03-09 An engaging and accessible introduction to Christianity s relationship with other world religions addressing the questions of why the reality and vitality of other religions has become a challenge and showing how Christianity is equipped to deal with religious plurality at both the doctrinal and social level Timely and accessible this book tackles the question of why the reality and vitality of other religions has become a challenge for Christianity Makes a decisive contribution to debates about the clash between Islam and the West arguing that the major threat to religious freedoms come from secularism and that Islam and Christianity both have the resources to develop a vibrant and pluralist public square one informed by intellectual rigor and debate Considers the wider issue of how modernity has defined religion and provides a substantial critique of secular ways of controlling religions Shows how Christianity is very well suited to deal with religious plurality at the doctrinal and social level Addresses the core issues and describes the various answers that have been proposed in recent years making it an ideal introduction to the field and one which will stimulate ideas and discussions

Blaming China Benjamin Shobert,2018-09-01 American society is angrier more fragmented and more polarized than at any time since the Civil War We harbor deep insecurities about our economic future our place in the world our response to terrorism and our deeply

dysfunctional government Over the next several years Benjamin Shobert says these four insecurities will be perverted and projected onto China in an attempt to shift blame for errors entirely of our own making These misdirections will be satisfying in the short term but will eventually destabilize the global world that businesses consumers and governments have taken for granted for the last forty years and will usher in an age of geopolitical uncertainty characterized by regional conflict and increasing economic dislocation Shobert a senior associate at the National Bureau of Asian Research explores how America's attitudes toward China have changed and how our economic anxieties and political dysfunction have laid the foundation for turning our collective frustrations away from acknowledging the consequences of our own poor decisions Shobert argues that unless we address these problems a disastrous chapter in American life is right around the corner one in which Americans will decide that conflict with China is the only sensible option After framing how the American public thinks about China Shobert offers two alternative paths forward He proposes steps that businesses governments and individuals can take to potentially stop and reverse America's path to a dystopian future

The U.S. Naval Institute on Naval Strategy Thomas J Cutler,2015-09-15 In the U S Navy Wheel Books were once found in the uniform pockets of every junior and many senior petty officers Each small notebook was unique to the Sailor carrying it but all had in common a collection of data and wisdom that the individual deemed useful in the effective execution of his or her duties Often used as a substitute for experience among neophytes and as a portable library of reference information for more experienced personnel those weathered pages contained everything from the time of the next tide to leadership hints from a respected chief petty officer to the color coding of the phone and distance line used in underway replenishments In that same tradition the new Naval Institute Wheel Books will provide supplemental information pragmatic advice and cogent analysis on topics important to all naval professionals Drawn from the U S Naval Institute's vast archives the series will combine articles from the Institute's flagship publication Proceedings selections from the oral history collection and from Naval Institute Press books to create unique guides on a wide array of fundamental professional subjects Strategy is described by the Dictionary of Modern Strategy and Tactics as having a permanent nature but an ever changing character For more than a century both the nature and the character of this essential discipline have been explored in depth by contributors to the Naval Institute's magazines books and oral histories Drawing from those powerful resources this collection makes clear why naval strategy has always straddled the boundaries between art and science and why its study and employment are essential components of the sea service profession

Hoover Kenneth Whyte,2018-11-06 An exemplary biography exhaustively researched fair minded and easy to read It can nestle on the same shelf as David McCullough's Truman a high compliment indeed The Wall Street Journal The definitive biography of Herbert Hoover one of the most remarkable Americans of the twentieth century a wholly original account that will forever change the way Americans understand the man his presidency his battle against the Great Depression and their own history An impoverished orphan who built a fortune A great humanitarian A president elected in a landslide and then

resoundingly defeated four years later Arguably the father of both New Deal liberalism and modern conservatism Herbert Hoover lived one of the most extraordinary American lives of the twentieth century Yet however astonishing his accomplishments are often eclipsed by the perception that Hoover was inept and heartless in the face of the Great Depression Now Kenneth Whyte vividly recreates Hoover's rich and dramatic life in all its complex glory He follows Hoover through his Iowa boyhood his cutthroat business career his brilliant rescue of millions of lives during World War I and the 1927 Mississippi floods his misconstrued presidency his defeat at the hands of a ruthless Franklin Roosevelt his devastating years in the political wilderness his return to grace as Truman's emissary to help European refugees after World War II and his final vindication in the days of Kennedy's New Frontier Ultimately Whyte brings to light Hoover's complexities and contradictions his modesty and ambition his ruthlessness and extreme generosity as well as his profound political legacy Hoover An Extraordinary Life in Extraordinary Times is the epic poignant story of the deprived boy who through force of will made himself the most accomplished figure in the land and who experienced a range of achievements and failures unmatched by any American of his or perhaps any era Here for the first time is the definitive biography that fully captures the colossal scale of Hoover's momentous life and volatile times

The King and the Cowboy David Fromkin, 2008-09-11 An intimate look at two extraordinary figures and their secret collaboration one that turned the alliance structure of the political world upside down In this character driven study acclaimed historian and bestselling author David Fromkin reveals how two colorful figures Theodore Roosevelt and Edward the Seventh assumed leadership of the English speaking world at the beginning of the twentieth century As human beings the two men could hardly have been more different Edward a lover of fine food drink beautiful women and the pleasure seeking culture of Paris had previously been regarded as nothing more than a playboy Across the Atlantic Theodore Roosevelt the aristocrat from Manhattan and self made cowboy would rise above his critics to become one of the nation's most beloved presidents Together they wrote the agenda for the North Atlantic democracies of the twentieth century

A Unique Time of God Karl Barth, 2016-12-30 World War I changed Karl Barth's theology forever In this book William Klempa presents for the first time in English thirteen sermons that offer Barth's unique view and commentary on the Great War Barth saw the war as a unique time of God believing it to represent God's judgment on militarism The sermons reveal a deep strain of theological wrestling with the war's meaning as Barth comes to see the conflict as the logical outcome of all human attempts to create God in our own image As it demonstrates a decisive shift in Barth's early theology this volume is essential for anyone who wishes to understand the twentieth century's greatest theologian

To Dare and to Conquer Derek Leebaert, 2009-05-30 In the tradition of *Guns Germs and Steel* Leebaert tells the stories of small forces that have triumphed over vastly larger ones and changed the course of history from the Trojan Horse to Al Qaeda Maps and charts

Language, Religion and National Identity in Europe and the Middle East John Myhill, 2006-01-01 This book discusses the historical record of the idea that language is associated with national identity

demonstrating that different applications of this idea have consistently produced certain types of results Nationalist movements aimed at unification based upon languages which vary greatly at the spoken level e g German Italian Pan Turkish and Arabic have been associated with aggression fascism and genocide while those based upon relatively homogeneous spoken languages e g Czech Norwegian and Ukrainian have resulted in national liberation and international stability It is also shown that religion can be more important to national identity than language but only for religious groups which were understood in premodern times to be national rather than universal or doctrinal e g Jews Armenians Maronites Serbs Dutch and English this is demonstrated with discussions of the Holocaust the Armenian Genocide the civil war in Lebanon and the breakup of Yugoslavia the United Netherlands and the United Kingdom *How Aspirin Entered Our Medicine Cabinet*

Steven M. Rooney,J.N. Campbell,2017-02-17 This brief traces the story of one of our most common medicines aspirin On a journey involving science diverse characters shady business deals innovative advertising and good old fashioned luck Rooney and Campbell describe how aspirin was developed and marketed on a global scale Starting at the beginning of the twentieth century the authors explain the use of aspirin during the First World War the development of competition drugs such as ibuprofen during the interwar years and the application of aspirin to heart disease in the 1950s and 1960s On a broader level Rooney and Campbell show that the development of America s modern pharmaceuticals was a complex weaving of chemistry and mass culture They argue that aspirin s story provides a way to understand the application of complex chemical formulas in medical results This brief is of interest to historians of chemistry and medicine as well as the general educated reader

The Treaty of Versailles Louise Chipley Slavicek,2010 Presents a selection of primary and secondary source articles featuring diverse opinions about the Treaty of Versailles **The Russian Origins of the First World War** Sean

McMeekin,2013-05-06 In a major reinterpretation Sean McMeekin rejects the standard notion of the war s beginning as either a Germano Austrian pre emptive strike or a miscalculation The key to the outbreak of violence he argues lies in St Petersburg Russian statesmen unleashed the war through policy decisions based on imperial ambitions in the Near East

The American Way of Strategy Michael Lind,2008-07-30 In *The American Way of Strategy* Lind argues that the goal of U S foreign policy has always been the preservation of the American way of life embodied in civilian government checks and balances a commercial economy and individual freedom Lind describes how successive American statesmen from George Washington Thomas Jefferson and Alexander Hamilton to Franklin Roosevelt Dwight Eisenhower and Ronald Reagan have pursued an American way of strategy that minimizes the dangers of empire and anarchy by two means liberal internationalism and realism At its best the American way of strategy is a well thought out and practical guide designed to preserve a peaceful and demilitarized world by preventing an international system dominated by imperial and militarist states and its disruption by anarchy When American leaders have followed this path they have led our nation from success to success and when they have deviated from it the results have been disastrous Framed in an engaging historical narrative the

book makes an important contribution to contemporary debates The American Way of Strategy is certain to change the way that Americans understand U S foreign policy Winston Churchill and the Art of Leadership William Nester,2020-09-30 A unique biography that explores how Churchill viewed pursued and used power by the award winning author of Napoleon and the Art of Diplomacy Many indeed are the biographies of Winston Churchill one of the most influential figures of the twentieth century But what was that influence and how did he use it in the furtherance of his and his country s ambitions For the first time Professor William Nester has delved into the life and actions of Churchill to examine just how skillfully he manipulated events to place him in positions of power His thirst for power stirred political controversy wherever he intruded Those who had to deal directly with him either loved or hated him His enemies condemned him for being an egoist publicity hound double dealer and Machiavellian accusations that his friends and even he himself could not deny He could only serve Britain as a statesman and a reformer because he was a wily politician who won sixteen of twenty one elections that he contested between 1899 and 1955 The House of Commons was Churchill s political temple where he exalted in the speeches and harangues on the floor and the backroom horse trading and camaraderie Most of his life he was a Cassandra warning against the threats of Communism Nazism and nuclear Armageddon With his ability to think beyond mental boxes and connect far flung dots he clearly foretold events to which virtually everyone else was oblivious Yet he was certainly not always right and was at times spectacularly wrong This is the first book that explores how Churchill understood and asserted the art of power mostly through hundreds of his own insights expressed through his speeches and writings **God the Revealed** Michael Welker,2013-12-14 God revealed himself in Jesus Christ Christian faith has confessed and proclaimed this message for nearly two thousand years But what does it really mean In God the Revealed Michael Welker delves into this declaration and shows how it offers genuine insight into Christian faith He asks Who is Jesus Christ for us today and approaches the answer from five different angles the historical Jesus the resurrection the cross the reign of Christ and eschatology Uniquely Welker argues for the need to place historical Jesus research in a Christology and proposes a Fourth Quest for the historical Jesus

Whispering the Secrets of Language: An Psychological Journey through **Europes Last Summer Who Started The Great War In 1914**

In a digitally-driven earth wherever monitors reign supreme and immediate communication drowns out the subtleties of language, the profound strategies and emotional nuances concealed within phrases frequently move unheard.
