Robarts,2012-12-06 Limnology the study of inland waters had its genesis in Europe about the turn of the century The studies
of Fore1 on Lake Geneva were of seminal value at this time It prospered under the early guidance of Thienemann Naumann
and Wesenberg Lund in Europe and soon transplanted of Birge and Juday in North America to name just a few early spirits
Now liminology is a respectable scientific discipline taught at many universities and limnologists are recognized as important
contributors to our understanding of how this fragile spaceship functions All this acknowledged it must also be acknowledged
that limnology is not yet a globally comprehensive science To be sure much is known about globally applicable processes and
the structural elements of aquatic ecosystems worldwide but limnological emphases interests and concerns remain
