Evacuees Journey:

The evacuee girl's centennial journey Risto Pönniö, 2025-05-30 As if from one mouth without prior agreement and spontaneously the song In the Villages of Karelia echoed into the air For each bus passenger from their home region the song meant their own intimate memory of their childhood home and family its fields and pastures Still now sung together it also meant an inseparable sense of community Ladoga Karelianism What is the secret to longevity It is a question that is most often posed to 100 year olds It is difficult to give an explanation based solely on historical background and the experiences of siblings or one's parents Early youth and adulthood ruined by war and the deprivation of one's roots from the soil of lost Karelia for the Soviet Union could not have been a safe starting point for a long life Finns born in 1925 were the youngest entire generation that had to bear the responsibility that adults had been given for defending Finland both on the war and home fronts This biography explores the survival story of one representative of that generation from the war years to the present day

Britain's Wartime Evacuees Gillian Mawson, 2016-11-30 With the declaration of war in September 1939 the Government Evacuation Scheme was implemented in which almost one and a half million civilians mostly children were evacuated from the British cities thought most likely to be the targets of aerial bombing The fear of invasion the following year resulted in another mass evacuation from the coastal towns Hundreds of thousands of school children and mothers with babies and infants were removed from their homes and families and sent to live with strangers in distant rural areas and to entirely unfamiliar environments Some children were also sent to countries of the Commonwealth such as Canada and Australia The evacuations had an enormous impact upon millions of individuals both those that were evacuated and those that had to accommodate and care for the displaced multitude Over the course of eight years research Gillian Mawson has interviewed hundreds of evacuees from England Northern Ireland Scotland and Wales Families have also allowed her access to the testimony of those who have passed away Coupled with the extensive newspaper coverage of the day and official documents Britains Wartime Evacuees provides not just a comprehensive study of the evacuations but also relates some of the most moving and emotive stories of the Second World War

Evacuee Encounters on the Soviet Home Front During the Second World War Natalie Belsky, 2023-12-19 This study is the first to examine the experiences of the millions of Soviet civilians evacuated to the interior of the country during the Second World War in the context of their encounters and relations with local communities and populations across Soviet Central Asia Kazakhstan Siberia and the Urals The book considers the impact of this episode of massive population displacement across Eurasia on individuals communities and society more broadly It explores how the challenges associated with wartime displacement gave rise to tensions between evacuees and local residents These frictions in turn forced individuals to interrogate the meaning terms and limitations of citizenship and belonging in the Soviet Union Evacuation thus played a critical role in the changing relationship between citizens and the Soviet state in the war and postwar periods Furthermore this study pays particular attention to the plight of

Soviet Jewish evacuees who constitute the largest contingent of Holocaust survivors in Europe and the rise of anti-Semitism on the Soviet home front during the war This volume will be of interest to students and scholars of the Second World War migration and displacement the Holocaust Soviet Jewish history and the Soviet experience more broadly **Genre - text - interpretation** Kaarina Koski, Frog, Ulla Savolainen, 2016-01-01 This book presents current discussions on the concept of genre It introduces innovative multidisciplinary approaches to contemporary and historical genres their roles in cultural discourse how they change and their relations to each other The reader is guided into the discussion surrounding this key concept and its history through a general introduction followed by eighteen chapters that represent a variety of discursive practices as well as analytic methods from several scholarly traditions This volume will have wide appeal to several academic audiences within the humanities both in Finland and abroad and will especially be of interest to scholars of folklore language and cultural expression **Evacuee Lottery** Kathy McKay, 2013-09-20 This story is about children in a world war who are sent away from homes likely to be in danger areas Probably the first time they had been away from parents and life that they knew Exciting frightening bewildering It was a dreadful time for the parents sending their children to strangers and for the foster parents who took the children into their homes Some children could be unruly dirty and uncouth A time of learning for everyone children trying to fit in with strangers who sometimes didn't want them **The Evacuation of Civilians from Burma** Michael D. Leigh, 2014-04-24 The string of military defeats during 1942 marked the end of British hegemony in Southeast Asia finally destroying the myth of British imperial invincibility The Japanese attack on Burma led to a hurried and often poorly organized evacuation of Indian and European civilians from the country The evacuation was a public humiliation for the British and marked the end of their role in Burma The Evacuation of Civilians from Burma investigates the social and political background to the evacuation and the consequences of its failure Utilizing unpublished letters diaries memoirs and official reports Michael Leigh provides the first comprehensive account of the evacuation analyzing its source in the structures of colonial society fractured race relations and in the turbulent politics of colonial Burma **Tsunami Coastal Community Resilience: Strategic Evacuation Route Design** Jade Summers, When disaster strikes every second counts and well planned evacuation routes can mean the difference between chaos and safety Are you prepared to lead your coastal community through a tsunami emergency Tsunami Coastal Community Resilience Strategic Evacuation Route Design is your essential guide to mastering evacuation planning with clarity and confidence Inside this authoritative resource you'll discover practical proven methods to design and optimize evacuation routes tailored to coastal environments From clear design guidelines and detailed maps to real world case studies this book equips you with actionable insights to protect lives and infrastructure Whether you're an emergency planner urban engineer community leader or disaster educator you'll learn how to unlock resilience by integrating scientific principles with community needs Gain the tools to transform your preparedness efforts reduce evacuation times and build a safer future for your coastal residents Join thousands of professionals who have

To the Tashkent Station Rebecca Manley, 2012-12-04 In summer and fall 1941 as German armies advanced with shocking speed across the Soviet Union the Soviet leadership embarked on a desperate attempt to safeguard the country's industrial and human resources Their success helped determine the outcome of the war in Europe *To the Tashkent Station* brilliantly reconstructs the evacuation of over sixteen million Soviet civilians in one of the most dramatic episodes of World War II Rebecca Manley paints a vivid picture of this epic wartime saga the chaos that erupted in towns large and small as German troops approached the overcrowded trains that trundled eastward and the desperate search for sustenance and shelter in Tashkent one of the most sought after sites of refuge in the rear Her story ends in the shadow of victory as evacuees journeyed back to their ruined cities and broken homes Based on previously unexploited archival collections in Russia Ukraine and Uzbekistan *To the Tashkent Station* offers a novel look at a war that transformed the lives of several generations of Soviet citizens The evacuation touched men women and children from all walks of life writers as well as workers scientists along with government officials party bosses and peasants Manley weaves their harrowing stories into a probing analysis of how the Soviet Union responded to and was transformed by World War II Over the course of the war the Soviet state was challenged as never before Popular loyalties were tested social hierarchies were recast and the multiethnic fabric of the country was subjected to new strains Even as the evacuation saved countless Soviet Jews from almost certain death it spawned a new and virulent wave of anti-Semitism This magisterial work is the first in depth study of this crucial but neglected episode in the history of twentieth century population displacement World War II and the Soviet Union

World War Zoos John M. Kinder, 2025-04-22 A new and heartbreaking history of World War II as told through the shocking experiences of zoos across the globe As Europe lurched into war in 1939 zookeepers started killing their animals On September 1 as German forces invaded Poland Warsaw began with its reptiles Two days later workers at the London Zoo launched a similar spree dispatching six alligators seven iguanas sixteen southern anacondas six Indian fruit bats a fishing cat a binturong a Siberian tiger five magpies an Alexandrine parakeet two bullfrogs three lion cubs a cheetah four wolves and a manatee over the next few months Zoos worldwide did the same The reasons were many but the pattern was clear The war that was about to kill so many people started by killing so many animals Why And how did zoos nevertheless not just survive the war but play a key role in how people did too A harrowing yet surprisingly uplifting chronicle Kinder's *World War Zoos* traces how zoos survived the deadliest decades of global history from the Great Depression through the terrors of World War II to the dawn of the Cold War More than anything before or since World War II represented an existential threat to the world's zoological institutions Some zoos were bombed others bore the indignities of

foreign occupation Even zoos that were spared had to wrestle with questions rarely asked in public What should they do when supplies ran low Which animals should be killed to protect the lives of others And how could zoos justify keeping dangerous animals that might escape and run wild during an aerial attack Zoos in wartime reveal the shared vulnerabilities of humans and animals during periods of social unrest and environmental peril World War II era zoos offered people ways to think about and grapple with imprisonment powerlessness and degradation Viewed today the story of zoos during World War II can be read as an allegory of twenty first century crises as the effects of climate change threaten all life across the planet A one of a kind history World War Zoos is the story of how the world s zoos survived the deadliest conflict of the twentieth century and what was lost along the way **Japanese American Journey** Japanese American Curriculum Project,1985 Traces the history of Japanese Americans discusses the prejudice and repressive measures directed against them during World War II looks at the lives of ten statesmen scientists and authors and includes three literary selections War Reparations and the UN Compensation Commission Timothy John Feighery,Christopher S. Gibson,Trevor M. Rajah,2015 The United Nations Compensation Commission UNCC is a claims reparation program created by the United Nations Security Council in May 1991 after the UN authorized Allied Coalition Forces military operations terminated the seven month invasion and occupation of Kuwait by Iraq and liberated Kuwait The UNCC was established with the objectives to receive and decide claims from individuals corporations and governments against Iraq as arising directly from Iraq s invasion and occupation of Kuwait and to pay compensation for such claims War Reparations and the UN Compensation Commission Designing Compensation After Conflict is the first collective work on the UNCC claims program by experts who have contributed to its progress and who have assisted in paving the way for more informed research on the Commission and its jurisprudence Given its unprecedented serious and sustained effort within the international community the two decade long operations of the UNCC deserve considerable attention and in depth analysis especially with respect to its impact on the development and progress of international law in the areas of State responsibility and reparations *War Hospital* Sheri Lee Fink,2004-12-14 In April 1992 a handful of young physicians not one of them a surgeon was trapped along with 50 000 men women and children in the embattled enclave of Srebrenica Bosnia Herzegovina There the doctors faced the most intense professional ethical and personal predicaments of their lives Drawing on extensive interviews documents and recorded materials she collected over four and a half years doctor and Pulitzer Prize winning journalist Sheri Fink tells the harrowing and ultimately enlightening story of these physicians and the three who try to help them an idealistic internist from Doctors without Borders who hopes that interposition of international aid workers will help prevent a massacre an aspiring Bosnian surgeon willing to walk through minefields to reach the civilian wounded and a Serb doctor on the opposite side of the front line with the army that is intent on destroying his former colleagues With limited resources and a makeshift hospital overflowing with patients how can these doctors decide who to save and who to let die Will their duty to treat patients come into conflict with their own

struggle to survive And are there times when medical and humanitarian aid ironically prolong war and human suffering rather than helping to relieve it Geospatial Techniques in Urban Hazard and Disaster Analysis Pamela S.

Showalter,Yongmei Lu,2009-11-11 This book is the second in a series that examines how geographic information technologies GIT are being implemented to improve our understanding of a variety of hazard and disaster situations The main types of technologies covered under the umbrella of GIT as used in this volume are geographic information systems remote sensing not including ground penetrating or underwater systems and global positioning systems Our focus is on urban areas broadly defined in order to encompass rapidly growing and densely populated areas that may not be considered urban in the conventional sense The material presented here is also unabashedly applied our goal is to provide GIT tools to those seeking more efficient ways to respond to recover from mitigate prevent and or model hazard and disaster events in urban settings Therefore this book was created not only with our colleagues in the academic world in mind but also for hazards

professionals and practitioners We also believe graduate students will find the material presented here of interest as may upper division undergraduate students *Congressional Record* United States.
