Cheliotis, 2016-12-05 The arts spanning the visual design performing media musical and literary genres constitute an alternative lens through which to understand state sanctioned punishment and its place in public consciousness Perhaps this is especially so in the case of imprisonment its nature its functions and the ways in which these register in public perceptions and desires have historically and to some extent inherently been intertwined with the arts But the products of this intertwinement have by no means been constant or uniform Indeed just as exploring imprisonment and its public meanings through the lens of the arts may reveal hitherto obscured instances of social control within or outside prisons so too it may uncover a rich and possibly inspirational archive of resistance to them This edited collection sheds light both on state use of the arts for the purposes of controlling prisoners and the broader public and the use made of the arts by prisoners and portions of the broader public as tools of

resistance to penal states The book also includes a number of chapters that address arts in prisons programmes making distinctive contributions to the literature on their philosophy formation operation effectiveness and research evaluation as well as taking care to explore the politics surrounding and underpinning these multiple themes *Health Policy and Politics* Jeri A. Milstead, 2013 Examine the process of public policymaking including agenda setting government response program response implementation and evaluation in this new edition of *Health Policy and Politics A Nurse's Guide* This book Integrates the Institute of Medicine's IOM's Future of Nursing paper Contains an updated chapter on finance and spending Includes a new chapter focused on the impact of information technology on policymaking Incorporates case studies that reflect modern day problems and settings Contains the most current information on the politics surrounding the ever changing field of health policy Describes how nurses in advanced practice can deliver quality health care by appropriate providers in a cost effective manner and explains how health policy affects practicing clinicians and administrators and how they can become politically active

Networks and Collaboration in the Public Sector Joris Voets, Robyn Keast, Christopher Koliba, 2019-08-02 Networks and other collaborations are central to the public sector's ability to respond to their diverse responsibilities from international development and regional governance to policy development and service provision Great strides have been made toward understanding their formation governance and management but more opportunities to explore methodologies and measures is required to ensure they are properly understood This volume showcases an array of selected research methods and analytics tools currently used by scholars and practitioners in network and collaboration research as well as emerging styles of empirical investigation Although it cannot attempt to capture all technical details for each one this book provides a unique catalogue of compelling methods for researchers and practitioners which are illustrated extensively with applications in the public and non profit sector By bringing together leading and upcoming scholars in network research the book will be of enormous assistance in guiding students and scholars in public management to study collaboration and networks empirically by demonstrating the core research approaches and tools for investigating and evaluating these crucially important arrangements

Education in Palliative Care Bee Wee, Nic Hughes, 2007-02-22 Despite the fact that most palliative care educators are involved in teaching there is little literature devoted to education specifically within palliative care This book bridges that gap giving a wide ranging global view of palliative care education It offers theoretical and practical insights along with specific suggestions for developing knowledge and skills for teaching It also contains extensive accounts of important contextual matters which influence the range and quality of palliative care education including interprofessional learning continuing professional development evaluation and educational leadership The development of palliative care as a clinical speciality is increasingly conducted at an international level and a special feature of this book is the inclusion of chapters reviewing palliative care education in each continent This enables practitioners and teachers to share knowledge across diverse healthcare systems and cultures There is also an

acknowledgement of the multi professional team involved in palliative care as education and training are looked at from the perspectives of doctors nurses and allied health professionals The book is split into three distinct parts Part 1 sets the scene for existing palliative care education both in the UK and internationally Part 2 focuses on the theory underpinning each aspect of teaching learning and assessment and then examines the practicalities of delivering these in the clinical setting Part 3 explores ways of building and nurturing a culture of learning in palliative care whether as an individual or as an organization
