## **Even The Women Must Fight:**

**Even the Women Must Fight** Karen Gottschang Turner, 2008-05-02 Even the Women Must Fight Karen Turner and Phan Thanh Hao have brought scholarship and compassion to a long neglected aspect of the Vietnam War the contributions of Vietnamese women to the independence struggle of their nation and the terrible price they paid for their courage and patriotism Neil Sheehan author of A Bright Shining Lie John Paul Vann and America in Vietnam A searing chronicle of wartime experiences Even the Women Must Fight probes the cultural legacy of North Vietnam s American War Unflinching in its portrayal of hardship valor and personal sacrifice this wrenching account is nothing short of a revelation banishing in one bold stroke the familiar image of Vietnamese women as passive onlookers war brides prostitutes or helpless refugees Karen Turner has given us a book that will change our understanding of the Vietnam War and of Vietnam today I found it enthralling Cynthia Enloe author of The Morning After Sexual Politics at the End of the Cold War A first rate book that will add substantially to our understanding of the human tragedy associated with one of the most bloody conflicts in recent history Robert Brigham Professor of History Vassar College **Gender, Sexuality, and the Cold War** Philip E. Muehlenbeck, 2017-06-19 As Marko Duman i writes in his introduction to Gender Sexuality and the Cold War despite the centrality of gender and sexuality in human relations their scholarly study has played a secondary role in the history of the Cold War It is not an exaggeration to say that few were left unaffected by Cold War gender politics even those who were in charge of producing disseminating and enforcing cultural norms were called on to live by the gender and sexuality models into which they breathed life This underscores the importance of this volume as here scholars tackle issues ranging from depictions of masculinity during the all consuming space race to the vibrant activism of Indian peasant women during this period to the policing of sexuality inside the militaries of the world Gender Sexuality and the Cold War brings together a diverse group of scholars whose combined research spans fifteen countries across five continents claiming a place as the first volume to examine how issues of gender and sexuality impacted both the domestic and foreign policies of states far beyond the borders of the United States during the tumult of the Cold War Ho Chi Minh's Blueprint for Revolution Virginia Morris, Clive A. Hills, 2018-08-29 When Saigon fell to North Vietnamese forces on April 30 1975 the communist victory sent shockwaves around the world Using ingenious strategy and tactics H Chi Minh had shown it was possible for a tiny nation to defeat a mighty Western power The same tactics have been studied and replicated by revolutionary forces and terrorist organizations across the globe Drawing on recently declassified documents and rare interviews with H Chi Minh s strategists and operatives this book offers fresh perspective on his blueprint and the reasons behind both the French 1945 1954 and the American 1959 1975 failures in Vietnam concluding with an analysis of the threat this model poses today Maneuvers Cynthia Enloe, 2000-02-01 Maneuvers takes readers on a global tour of the sprawling process called militarization With her incisive verve and moxie eminent feminist Cynthia Enloe shows that the people who become militarized are not just the

obvious ones executives and factory floor workers who make fighter planes land mines and intercontinental missiles They are also the employees of food companies toy companies clothing companies film studios stock brokerages and advertising agencies Militarization is never gender neutral Enloe claims It is a personal and political transformation that relies on ideas about femininity and masculinity Films that equate action with war condoms that are designed with a camouflage pattern fashions that celebrate brass buttons and epaulettes tomato soup that contains pasta shaped like Star Wars weapons all of these contribute to militaristic values that mold our culture in both war and peace Presenting new and groundbreaking material that builds on Enloe s acclaimed work in *Does Khaki Become You* and *Bananas Beaches and Bases* *Maneuvers* takes an international look at the politics of masculinity nationalism and globalization Enloe ranges widely from Japan to Korea Serbia Kosovo Rwanda Britain Israel the United States and many points in between She covers a broad variety of subjects gays in the military the history of camp followers the politics of women who have sexually serviced male soldiers married life in the military military nurses and the recruitment of women into the military One chapter titled *When Soldiers Rape* explores the many facets of the issue in countries such as Chile the Philippines Okinawa Rwanda and the United States Enloe outlines the dilemmas feminists around the globe face in trying to craft theories and strategies that support militarized women locally and internationally without unwittingly being militarized themselves She explores the complicated militarized experiences of women as prostitutes as rape victims as mothers as wives as nurses and as feminist activists and she uncovers the maneuvers that military officials and their civilian supporters have made in order to ensure that each of these groups of women feel special and separate

**The Oxford Encyclopedia of Women in World History** Bonnie G. Smith, 2008 The *Encyclopedia of Women in World History* captures the experiences of women throughout world history in a comprehensive 4 volume work Although there has been extensive research on women in history by region no text or reference work has comprehensively covered the role women have played throughout world history The past thirty years have seen an explosion of research and effort to present the experiences and contributions of women not only in the Western world but across the globe Historians have investigated womens daily lives in virtually every region and have researched the leadership roles women have filled across time and region They have found and demonstrated that there is virtually no historical social or demographic change in which women have not been involved and by which their lives have not been affected The *Oxford Encyclopedia of Women in World History* benefits greatly from these efforts and experiences and illuminates how women worldwide have influenced and been influenced by these historical social and demographic changes The *Encyclopedia* contains over 1 250 signed articles arranged in an A Z format for ease of

use The entries cover six main areas biographies geography and history comparative culture and society including adoption abortion performing arts organizations and movements such as the Egyptian Uprising and the Paris Commune womens and gender studies and topics in world history that include slave trade globalization and disease With its rich and insightful entries by leading scholars and experts this reference work is sure to be a valued go to resource for scholars college and high school students and general readers alike

creating avenues of leadership for women and inspiring individualism and self discovery The work presented here analyzes the powerful messages in such literature how it created awareness and grappled with the engagement of real girls in the United States and Allied war effort and how it reflects their contemporaries awareness of girls importance **Dragon Ladies, Gentle Warriors, and Girls Next Door** Heather Marie Stur,2008 *How Society Makes Itself* Howard J. Sherman,2006 This radical account of the evolution of political social and economic institutions weaves together strands of anthropology sociology political science history and economics In a highly readable text Howard Sherman explains the interconnections of ideas and economic forces and traces the evolution of social and economic institutions from primitive times to the present Sherman focuses on the myth of inevitable progress in technology and argues that it progresses only when social and economic institutions and dominant ideas encourage it to improve He shows that throughout history technology as a part of the economic forces ebbs and flows to create or undermine existing economic institutions *The War for the World* Israel Zangwill,1917 **The ANC Women's League** Shireen Hassim,2015-01-12 First formed in the early twentieth century the ANC Women s League has grown into a leading organization in the women s movement in South Africa The league has been at the forefront of the nation s century long transition from an authoritarian state to a democracy that espouses gender equality as a core constitutional value It has indeed always regarded itself as the women s movement frequently asserting its primacy as a vanguard organization and as the only legitimate voice of the women of South Africa But as this deeply insightful book shows the history of the league is a more complicated affair it was neither the only women s organization in the political field nor an easy ally for South African feminism **Turning Operations** Mary G. Dietz,2002 First Published in 2002 Routledge is an imprint of Taylor Francis an informa company Daughters of 1968 Lisa Greenwald,2019-01-01 Daughters of 1968 is the story of French feminism between 1944 and 1981 when feminism played a central political role in the history of France The key women during this epoch were often leftists committed to a materialist critique of society and were part of a postwar tradition that produced widespread social change revamping the workplace and laws governing everything from abortion to marriage The May 1968 events with their embrace of radical individualism and antiauthoritarianism triggered a break from the past and the women s movement split into two strands One became universalist and intensely activist the other particularist and less activist distancing itself from contemporary feminism This theoretical debate manifested itself in battles between women and organizations on the streets and in the courts The history of French feminism is the history of women s claims to individualism and citizenship that had been granted their male counterparts at least in principle in 1789 Yet French women have more often donned the mantle of particularism advancing their contributions as mothers to prove their worth as citizens than they have thrown it off claiming absolute equality The few exceptions such as Simone de Beauvoir or the 1970s activists illustrate the diversity and tensions within French feminism as France moved from a corporatist and tradition minded country to one marked by individualism and modernity **Law**

**and Gender in Modern Ireland** Lynsey Black, Peter Dunne, 2019-02-21 Law and Gender in Modern Ireland Critique and Reform is the first generalist text to tackle the intersection of law and gender in this jurisdiction for over two decades As such it could hardly have come at a more opportune moment The topic of law and gender perhaps more so than at any other time in Irish history has assumed a dominant place in political and academic debate Among scholars and policy makers alike the regulation of gendered bodies and the legal status of sexual and gendered identities is now a highly visible fault line in public discourse Debates over reproductive justice exemplified by the recent referendum to remove the 8th Amendment increased rights for lesbian gay bisexual and transgender persons including the public sanctioned introduction of same sex marriage and the historic mistreatment of women and young girls have re shaped Irish public and political life and encouraged Irish society to re examine long unchallenged gender norms While many traditional flashpoints remain such as abortion and prostitution sex work there are also new questions including surrogacy and the gendered experience of asylum frameworks which have emerged As policy makers seek to enact reforms they face a population with increasingly polarised perceptions of gender and a legal structure ill equipped for modern realities This edited volume directly addresses modern Irish debates on law and gender Providing an overview of the existing rules and standards as well as exploring possible options for reform the collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change While the edited collection applies a doctrinal methodology to explain current statutes case law and administrative practices the contributors also invoke critical gender queer and race perspectives to identify and problematise existing and potential challenges This edited collection is essential reading for all who are interested in law gender and processes of social change in modern Ireland

**The Kurdish Women's Movement** Dilar Dirik, 2022-07-20 One of the foremost writers and participants in the Kurdish women's movement Harsha Walia The Kurdish women's movement is at the heart of one of the most exciting revolutionary experiments in the world today Rojava Forged over decades of struggle most recently in the fight against ISIS Rojava embodies a radical commitment to ecology democracy and women's liberation But while striking images of Kurdish women in military fatigues proliferate a true understanding of the women's movement remains elusive Taking apart the superficial and Orientalist frameworks that dominate Dilar Dirik offers instead an empirically rich account of the women's movement in Kurdistan Drawing on original research and ethnographic fieldwork she surveys the movement's historical origins ideological evolution and political practice over the past forty years Going beyond abstract ideas Dirik locates the movement's culture and ideology in its concrete work for women's revolution in the here and now Taking the reader from the guerrilla camps in the mountains to radical women's academies and self organised refugee camps readers around the world can engage with the revolution in Kurdistan both theoretically and practically as a vital touchstone in the wider struggle for a militant anti fascist anti capitalist feminist internationalism
