Philip K. Jason, 2003 Presents alphabetized profiles of nearly seven hundred significant poets from around the world providing biographies primary and secondary bibliographies and analysis of their works **The Lever of Riches** Joel Mokyr, 1992-04-09 In a world of supercomputers genetic engineering and fiber optics technological creativity is ever more the key to economic success But why are some nations more creative than others and why do some highly innovative societies such as ancient China or Britain in the industrial revolution pass into stagnation Beginning with a fascinating concise history of technological progress Mokyr sets the background for his analysis by tracing the major inventions and innovations that have transformed society since ancient Greece and Rome What emerges from this survey is often surprising the classical world for instance was largely barren of new technology the relatively backward society of medieval Europe bristled with inventions and the period between the Reformation and the Industrial Revolution was one of slow and unspectacular progress in technology despite the tumultuous developments associated with the Voyages of Discovery and the Scientific Revolution What were the causes of technological creativity Mokyr distinguishes between the relationship of inventors and their physical environment which determined their willingness to challenge nature and the social environment which determined the openness to new ideas He discusses a long list of such factors showing how they interact to help or hinder a nation's creativity and then illustrates them by a number of detailed comparative studies examining the differences between Europe and China between classical antiquity and medieval Europe and between Britain and the rest of Europe during the industrial revolution He examines such aspects as the role of the state the Chinese gave up a millennium wide lead in shipping to the Europeans for example when an Emperor banned large ocean going vessels the impact of science as well as religion politics and even nutrition He questions the importance of such commonly cited factors as the spill over benefits of war the abundance of natural resources life expectancy and labor costs Today an ever greater number of industrial economies are competing in the global market locked in a struggle that revolves around technological ingenuity The Lever of Riches with its keen analysis derived from a sweeping survey of creativity throughout history offers telling

insights into the question of how Western economies can maintain and developing nations can unlock their creative potential

Andrews,Frances Smith Foster,Trudier Harris,1997 This the first comprehensive one volume reference work devoted to African American literature contains much information on little known writers unavailable elsewhere The book covers all types of genre and examines unique aspects of Afro Americanism *No Holding Back* Jim Mason,2011-01-16 No Holding Back tells the story of John Anderson s 1980 presidential campaign Anderson gave up a safe seat in the House of Representatives a position in the Republican leadership and a likely nomination for a Senate seat to run what every expert considered a hopeless race for the GOP presidential nomination Anderson did so because he was disturbed by many of the same trends in American politics that still exist today the proliferation of special interests gridlock on Capitol Hill and the unwillingness of his fellow politicians to speak honestly about the critical issues facing the nation More than anything Anderson wanted to make a statement about how candidates ought to run for office by rejecting quick fix solutions being candid on where one stood on matters of policy and not sugarcoating the problems that faced voters Anderson ran as a kind of anti candidate He had a unique campaigning style and offered proposals that differed greatly from the standard Republican viewpoint People found him refreshingly direct and different As interest turned to the campaign he attracted widespread media attention He performed beyond expectations in the first round of primaries and soon switched to an independent candidacy By June he was running at 26% in a three way race against Jimmy Carter and Ronald Reagan Against the backdrop of runaway inflation the Iranian hostage situation a debilitating energy crisis and a discredited

incumbent president pollsters found him winning unprecedented support But during the summer troubled by ballot access problems financial issues institutional obstacles and management difficulties Anderson s polling totals began to fall Once it became clear that he would not win his support collapsed and he limped to a 7% finish This final result has greatly undermined the importance of this campaign It has influenced numerous future candidates and changed the way many politicians would run for office His was the first candidacy to expose how **Tsardust** Kathleen Everett Upshaw,2004 Scandinavian legend asserts that a daughter of Nicholas and Alexandra escaped the Bolsheviks and fled to Norway taking with her a generous helping of Faberge Imperial Eggs While there is little evidence the escape actually occurred there is no doubt ten or more Faberge Eggs are missing to this day What if somebody other than a member of the Tsar s family had equal access to the Imperial Eggs and escaped with them somebody such as Yelena Anderson the beautiful daughter of Carl Faberge s chief designer and secret lover of a member of the imperial family What happened to Yelena and perhaps more importantly what happened to the Eggs entrusted to her care The ultimate disposition of these priceless works of art a mystery that has intrigued the world for years is the subject matter of Tsardust The novel is filled with suspense chases double crosses romantic encounters exotic locales and skullduggery The exciting ending set in a graveyard in Lausanne will shock and delight readers **Hostage** Willo Davis Roberts,2000 When 11 year old Kaci interrupts burglars in the process of robbing her house she and her nosy elderly neighbor Mrs Banducci are kidnapped and held hostage by the desperate and ruthless criminals **The Publishers' Trade List Annual** ,1898 **Princeton Alumni Weekly** ,1944 **Billboard Music Week** ,1907 *The Publishers' Circular and Booksellers' Record* ,1910 *The Publisher* ,1910 **Pacific Poultryman** ,1900 **The Publishers Weekly** ,1911 *The Athenaeum* ,1893 *The Boston Directory* ,1887
