Every Part Of This Earth Is Sacred Native American Voices In Praise Of Nature:

Every Part of this Earth is Sacred Mel Curtis,1993 An evocative celebration of the mystical qualities of a living earth combines poetry songs and chants from various native American traditions with vivid photographic images that pay homage to nature and warn against its misuse **Ahn'S Awakening** Susan Jo Heitzman,2016-10-29 Ahns Awakening is a fictional account of a prehistoric girl in North America Ahn her grandmother and two uncles are walking through the forest when Ahn begins to notice the monumental changes in her physical body and in her soul that come with a girls first menstrual period Pre teen girls will find blank lines on the left hand side of the pages where they can journal their response to the fictional account of a life lived in close harmony with our natural world Adult mentors and mothers will appreciate the guidance found at the end of the story These questions suggestions and prompts to explore their own first menstrual stories will inspire them to turn the talk into an ongoing conversation Ahns Awakening ends with a ritual that may help adult mentors and mothers see the sacred nature of our bodies natural functions and how they interconnect with our souls journeys **Native Americans Today** Bruce E. Johansen,2010-06-22 This engaging collection of Native American profiles examines these individuals unique life experiences within the larger context of U S history Native Americans Today A Biographical Dictionary focuses on the lives of contemporary Native Americans Such treatments are rare as most Native American biographies are historical pre 1900 and cover familiar figures Profiles collected here are written to be enjoyable as well as instructive presented as examples of personal storytelling that should be savored not only for their factual content but also for the humanity they evoke The book spotlights Native American lives in the United States and Canada mainly after 1900 though a few older figures are included because their lives evoke strikingly modern themes The author an expert on all things Native American knows or knew several of the people in the entries adding a special vibrancy to the writing Among those profiled are former U S Senator Ben Nighthorse Campbell activist Eloise Cobell and controversial political prisoner Leonard Peltier as well as writers artists and musicians The compilation also includes non Native Americans whose lives and careers impacted Indian life **Cultivating Sacred Space** Elizabeth Murray,1997 Linda Greenlaw hadn t been blue water fishing for ten years since the great events chronicled in The Perfect Storm and The Hungry Ocean when an old friend offered her the captaincy on his boat Seahawk for a season of swordfishing She took the bait of course and thus opened a new chapter in a life that had already seen enough adventure for three lifetimes The Seahawk turns out to be the rustiest of buckets with sprung busted and ancient equipment guaranteed to fail at any critical moment Life is never dull out on the Grand Banks and no one is better at capturing the flavor and details of the wild ride that is swordfishing from the technical complexities of longline fishing and the nuances of reading the weather and waves to the sheer beauty of the open water The trip is full of surprises a bit harder and saltier than I had hoped for but none more unexpected than when the boat s lines inadvertently drift across the Canadian border and she lands in jail Seaworthy is about nature human and other about learning what you

can control and what you do when fate takes matters out of your control It s about how a middle aged woman who sets a high bar for herself copes with challenge and change and frustration about the struggle to succeed or fail on your own terms and above all about learning how to find your true self when you re caught between land and sea **Altering Nature** B. A. Lustig,B.A. Brody,Gerald P. McKenny,2008-07-15 B Andrew Lustig Baruch A Brody and Gerald P McKenny Nearly every week the general public is treated to an announcement of another actual or potential breakthrough in biotechnology Headlines trumpet advances in assisted reproduction current or prospective experiments in cloning and devel ments in regenerative medicine stem cell technologies and tissue engineering Scientific and popular accounts explore the perils and the possibilities of enhancing human capacities by computer based biomolecular or mechanical means through advances in artificial intelligence genetics and nanotechnology Reports abound concerning ever more sophisticated genetic techniques being introduced into ag culture and animal husbandry as well as efforts to enhance and protect biodiversity Given the pace of such developments many insightful commentators have proclaimed the 21st century as the biotechnology century Despite a significant literature on the morality of these particular advances in biotechnology deeper ethical analysis has often been lacking Our preliminary review of that literature suggested that current discussions of normative issues in biotechnology have suffered from two major deficiencies First the discussions have been too often piecemeal in character limited to after the fact analyses of particular issues that provoked the debate and unconnected to larger concepts and themes Second a crucial missing element of those discussions has been the failure to reflect explicitly on the diverse disciplinary conceptions of nature and the natural that shape moral judgments about the legitimacy of specific forms of research and their applications **The Catholic Moral Tradition Today** Charles E. Curran,1999-04-05 The Catholic tradition has always tried to explain its theology in a coherent and systematic way but the great changes and tensions existing within Catholic moral theology today have made it difficult to develop systematic approaches to what was once called fundamental moral theology Now a leading scholar active in this field for forty years offers a synthesis of Catholic moral theology set in the context of the broader Catholic tradition and the significant developments that have occurred since the Second Vatican Council Charles E Curran s succinct coherent account of his wide ranging work in Catholic moral theology points out agreements disagreements and changes in significant aspects of the Catholic moral tradition His systematic approach explores major topics in a logical development the ecclesiological foundation and stance of moral theology the person as moral subject and agent virtues principles and norms conscience and decision making and the role of the church as a teacher of morality Curran s work condenses and organizes a large amount of material to show that the Catholic theological tradition is in dialogue with contemporary life and thought while remaining conscious of its rich history Of great interest to theologians for its broad synthetic scope this book is also a thorough introduction to the Catholic moral tradition for students and interested readers including non Catholics Virtue Charles E. Curran,Lisa Fullam,2011 This edited volume focuses on

virtue using the same perspective that has characterized the previous fifteen volumes in the prestigious series Readings in Moral Theology from Paulist Press begun by Charles E Curran and Richard A McCormick in 1979 This volume brings together fourteen previously published articles dealing in a comprehensive manner with the important topic of the role of virtue in moral theology and the Christian life The contributors to this volume include the most important figures in Catholic moral theology who have written about virtue In addition the authors represented here come from the different theological perspectives found in moral theology today The first part deals with the role of virtue in general beginning with an overview of the seminal work of Thomas Aquinas A second chapter explains the important work of Alasdair MacIntyre while the last two chapters in this part come from the Catholic and feminist perspectives The three chapters in the second part discuss the role of the various virtues in three different spheres of human existence professional life sexuality and ecology The third part develops in some depth the significant particular virtues of charity justice prudence courage and humility
